## Nature Island Verses:

Nature Island Verses Alick Lazare, 2001-07-27 This small volume of poetry will enchant the reader with its simple and honest portrayal of life on a small green island in the Caribbean where life takes on the idyll of paradise The author writes about everyday experiences of love life and politics in a style that sometimes reverts to the conventional though more often strongly contemporary The poems on love are passionate but with a purity bordering on innocence Those on life reflect the easy and simple philosophy of a world closest to nature unhurried and safe The poems on politics however bring to life the harrowing frailties of a democracy rooted in personal relationships and the overbearing possessiveness of the populace that uplift their representatives to the heights of virtual political deities The book is about love life and politics and reflects the essential aspects of daily existence in a small island society with its joys and pathos and its emotional and spiritual struggles The book is captivating in its forthrightness and the ease with which the author takes the reader through the nuance of language and expression full of Caribbean sound and colour

Home and Nation in British Literature from the English to the French Revolutions A. D. Cousins, Geoffrey Payne, 2015-11-05 In a world of conflicting nationalist claims mass displacements and asylum seeking a great many people are looking for home or struggling to establish the nation These were also important preoccupations between the English and the French revolutions a period when Britain was first at war within itself then

achieved a confident if precarious equilibrium and finally seemed to have come once more to the edge of overthrow In the century and a half between revolution experienced and revolution observed the impulse to identify or implicitly appropriate home and nation was elemental to British literature This wide ranging study by international scholars provides an innovative and thorough account of writings that vigorously contested notions and images of the nation and of private domestic space within it tracing the larger patterns of debate while at the same time exploring how particular writers situated themselves within it and gave it shape

*Verse and Poetics in George Herbert and John Donne* Dr Frances Cruickshank, 2013-04-28 Innovative and highly readable this study traces George Herbert's and John Donne's development of a distinct poetics through close readings of their poems references to their letters sermons and prose treatises and to other contemporary poets and theorists In demonstrating a relationship between poetics and religious consciousness in Donne's and Herbert's verse Frances Cruickshank explores their attitudes to the cultural theological and aesthetic enterprise of writing and reading verse Cruickshank shows that Donne and Herbert regarded poetry as a mode not determined by its social and political contexts but as operating in and on them with its own distinct set of aesthetic and intellectual values and that ultimately verse mattered as a privileged mode of religious discourse This book is an important contribution to the ongoing scholarly dialogue about the nature of literary and cultural study of early modern England and about the relationship between the writer and the world Cruickshank confirms Donne's reputation as a fascinating and brilliant poetic figure while simultaneously rousing interest in Herbert by noting his unique merging of rusticity and urbanity and tranquility and uncertainty allowing the reader to enter into these poets imaginative worlds and to understand the literary genre they embraced and then transformed
