*The Nature of the World* Walter Terence Stace,1940

**Russell's Theory of Perception** Sajahan Miah,2006-05-30 In Russell's Theory of Perception Sajahan Miah re examines and evaluates the development of Russell's concept of perception and the relation of perception to our knowledge of the external world With the introduction of logical construction in which physical objects are constructed from actual and possible sense data Russell's theory of perception seems to become a causal theory with phenomenalist overtones The book argues that there is a consistency of purpose and direction which motivated Russell to introduce logical construction The purpose was to strike a compromise between his empiricism and his realism and to establish a bridge between the objects of perception and the objects of physics and common sense **Mystical**

**Encounters with the Natural World** Paul Marshall,2005-07-07 Some experiences of the natural world bring a sense of unity knowledge self transcendence eternity light and love This is the first detailed study of these intriguing phenomena Paul Marshall explores the circumstances characteristics and after effects of this important but relatively neglected type of mystical experience and critiques explanations that range from the spiritual and metaphysical to the psychoanalytic contextual and neuropsychological The theorists discussed include R M Bucke Edward Carpenter W R Inge Evelyn Underhill Rudolf Otto Sigmund Freud Aldous Huxley R C Zaehner W T Stace Steven Katz and Robert Forman as well as contemporary neuroscientists The book makes a significant contribution to current debates about the nature of mystical experience *The*

Africa is not merely an invention with a modern imperial or colonial background Nor is it simply a continent in need of foreign aid from the richer more affluent societies Africa might be economically needy politically unstable and in part socially chaotic and suffering from civil wars and social unrest However the continent and its peoples are certainly different from the

negative image portrayed in the mass media Africa had been the cradle of civilization in the pre colonial era and is today undergoing a diverse cultural philosophical and spiritual development with great potential contributing to contemporary debates around the ethics of globality The novelty of this book derives from its multidisciplinary approach Although the authors generally come from the fields of development and economics global studies political science philosophy and ethics and sociology they present Africa s alternative view of human wellbeing in order to provide theories and policy recommendations which inspire the specific developmental patterns for the growth of the continent The volume discusses the meaning of development for the continent by drawing on culture identity ethnicity and philosophy of nature The contributors examine a variety of issues and themes directly related to the opportunities provided by globality to promote the development of the continent They also discuss solutions for underdevelopment and poverty and how those perspectives might be effectively integrated into the global agenda for the development of Africa
