Nature Reserves Of The Himalaya And The Mountains Of Central Asia:

Nature Reserves of the Himalaya and the Mountains of Central Asia Michael John Beverley Green,1993 *Nature Reserves of the Himalaya and the Mountains of Central Asia* World Conservation Monitoring Centre,1993 Nature Reserves of the Himalaya and the Mountains of Central Asia World Conservation Monitoring Centre,1993 Regional action plan for the protected areas of East Asia 2006-2010 (Chinese version) , *Protected Areas of the World* IUCN Conservation Monitoring Centre,1991 *Land of the Tiger* Valmik Thapar,1997-01-01 Showcases the diversity and beauty of the animals sharing the tiger s domain and documents the strain that modern and urban values place on India s ecosystems ,

High Mountain Pastoralism in Northern Pakistan Eckart Ehlers,Hermann Kreutzmann,2000 The strength of the book lies in this differentiated analysis which is based on extensive empirical research Several chapters challenge conventional modernization theories and the authors intimate connection to their data makes for an unusually stimulating and pleasurable read Equids--zebras, Asses, and Horses Patricia Des Roses Moehlman,IUCN/SSC Equid Specialist Group,2002 The new Equid Action Plan provides current knowledge on the biology ecology and conservation status of wild zebras asses and horses It specifies what information is lacking and prioritizes needed conservation actions The Action Plan also provides chapters on equid taxonomy genetics reproductive biology and population dynamics These chapters highlight unsolved issues of taxonomy and genetics They also provide information and insight into the special demographic and genetic challenges of managing small populations The chapter on disease provides a review of documented equine disease and epidemiology and focuses on priorities for equid conservation health The final chapter deals with the importance of developing an assessment methodology that explicitly considers the role of equids in ecosystems and the ecological processes that are necessary for ecosystem viability The approach of combining ecological field studies and ecosystem modeling should prove useful for the scientific management and conservation of wild equids worldwide These chapters provide research and conservation practitioners with new information and paradigms **Sustainable Development** Paul Sillitoe,2014-08-01

With growing evidence of unsustainable use of the world s resources such as hydrocarbon reserves and related environmental pollution as in alarming climate change predictions sustainable development is arguably the prominent issue of the 21st century This volume gives a wide ranging introduction focusing on the arid Gulf region where the challenges of sustainable development are starkly evident The Gulf relies on non renewable oil and gas exports to supply the world s insatiable CO2 emitting energy demands and has built unsustainable conurbations with water supplies dependent on energy hungry desalination plants and deep aquifers pumped beyond natural replenishment rates Sustainable Development has an interdisciplinary focus bringing together university faculty and government personnel from the Gulf Europe and North America including social and natural scientists environmentalists and economists architects and planners to discuss topics such as sustainable natural resource use and urbanization industrial and technological development economy and politics

history and geography Resistance and the State David Gellner,2007-04 There has been growing concern about failed states and since the massacre of the Royal family in Nepal in 2001 increasing media attention has focused on the decline of the state and the rise of the Maoist rebels This book explores the complex relationship between a modernizing developmentalist state and the people it professes to represent Saving Wild Tigers, 1900-2000 Valmik Thapar,2006

Biodiversity and Tourism German Federal Agency for Nature Conservation,2012-12-06 It is in the best interest of all concerned that tourism become sustainable and environmentally compatible This need for sustainable development is and more by the responsible parties Moreover in the being recognised more search for solution strategies the realisation is gaining ground that tourism must be viewed as a worldwide phenomenon whose development must be co ordinated in a co operative effort spanning regions and continents That the preservation of biological diversity also requires global co operation has been confirmed by over 170 countries which have already acceded to the Convention on Biological Diversity It is thus an important task to provide the foundations for joint action Germany one of the largest source countries of international tourism must feel particularly obligated in this regard The report published here is the result of a research project com missioned by the German Federal Agency for Nature Conservation The study pursued and examined the thesis that the Convention on Biological Diversity be used as a central instrument for arriving at international principles and regulations for combining nature conservation and tourism which could lead to a sustainable development of tourism To further the discussion the authors brought the study to a logical conclusion by working out a proposal for a tourism protocol additional to the existing Convention on Biodiversity Such a protocol additional to the Convention would entail the stipulation of internationally binding implementation and regulations for achieving sustainable tourism *Himalayan Wildlife, Habitat and Conservation* Sharad Singh Negi,1992 *Coordinating Research and Management to Enhance Protected Areas* David Harmon,1994 *Managing Protected Areas* Michael Lockwood,Graeme Worboys,Ashish Kothari,2012-05-04 This handbook produced by world renowned experts from the World Conservation Union IUCN spans the full terrain of protected area management and is the international benchmark for the field The book employs dozens of detailed international cases studies hundreds of concise topical snapshots maps tables illustrations and a colour plate section as well as evaluation tools checklists and numerous appendices to cover all aspects of park management from biodiversity to natural heritage to financial management The book establishes a conceptual underpinning for protected area management presents guiding principles for the 21st century reflects recent work on international best practice and provides an assessment of skills required by professionals As the most authoritative guide ever compiled to the principles and practice of protected area management this volume is essential for all professionals and students in all countries and contexts Profiles in Indian Tourism Shalini Singh,1996 **Wildlife Conservation in China** Richard B. Harris,2014-12-18 Very little is known about the issue of wildlife conservation within China Even China specialists get a meager ration of stories about pandas giving birth

in zoos or poachers in some remote setting being apprehended But what does the future hold for China's wildlife In this thoughtful work the leading U S expert on wildlife projects in Western China presents a multi faceted assessment of the topic Richard B Harris draws on twenty years of experience working in China and incorporates perspectives ranging from biology through Chinese history and tradition to interpret wildlife conservation issues in a cultural context In non technical language Harris shows that particularly in its vast western sections where most species of wildlife still have a chance to survive China has adopted a strongly preservationist hands off approach to wildlife without confronting the larger and more difficult problem of habitat loss This policy treats wildlife conservation as a strictly technical problem and thus prioritizes captive breeding to meet the demand for animal products while ignoring the manifold cultural social and economic dimensions that truly dictate how wild animals will fare in their interaction with the physical and human environments The author concludes that any successes this policy achieves will be temporary

Imagining the Good Life Francis Khek Gee Lim, 2008 Effectively combining ethnographic research and theoretical reflections on the pursuit of the good life in a Tibetan community in the Nepal Himalaya this fascinating book offers a fresh perspective in seeking to understand contemporary experience of development and globalization

A Concise History of Afghanistan-Central Asia and India in 25 Volumes HAMID ALIKUZAI, 2015-01-19 Thirteen years after the U S invasion of Afghanistan Thirteen years after the U S invasion of Afghanistan the gains that the international coalition has made with its local partners are real but reversible Afghanistan is no longer a global hub of terrorist activity but Taliban resurgence would threaten to make it one again Reconstruction assistance has produced demonstrable progress in health education and economic well being but corruption and governance problems have undermined popular support for the government in Kabul and constrained the overall level of progress Internationally a coalition still backs the International Security Assistance Force ISAF military mission However NATO's will is waning China Russia and India are largely free riders and Punjab and Iran publicly say the right things while destabilizing Afghanistan by privately meddling to their own ends Political and economic realities in the United States make the current level of American engagement in Afghanistan unsustainable But as the commitment of coalition partners fades what Washington decides will shape the future of South Asia Looking ahead there are three different scenarios for American engagement in Afghanistan It remains to be seen exactly which route Washington will take But it is clear that U S interests require a long term commitment not only in Afghanistan but across the region Lest it be forgotten the consequences of ignoring the region in the 1990s were visited upon the United States on 9 11 So the most vital goals present day are defeating the remnants of al Qaeda in Punjab preventing the reemergence of terrorist sanctuaries in Afghanistan ensuring the security of Punjab's nuclear weapons and discouraging Punjab's use of extremism and terror as a policy instrument There are three ways forward Each entails a different degree of involvement and carries varying risks and rewards The first option is the riskiest Future 1 Immediate Departure and the Reallocation of Resources because discontent among the U S public

over the war is already at an all time high
