[Toward a New \(Old\) Theory of Responsibility: Moving beyond Accountability](#) Daryl Koehn, 2019-03-29 This book offers a much needed overview of the neglected notion of responsibility Instead of offering vague talk about individual responsibility or corporate responsibility Daryl Koehn examines in detail four accounts of responsibility taking care to specify what responsibility does and does not mean in each account She argues for a return to the ancient concept of Socratic dialogical responsibility a concept that avoids many of the problems inherent in the other accounts After examining the Anglo American criminal legal system's treatment of responsibility as intentional agency she critiques Hans Jonas's concept of responsibility as ontological care and Hannah Arendt's notion of communicative responsibility She provides a careful analysis of the strengths and weaknesses of each approach to responsibility The final chapter makes the case for Socratic dialogical responsibility Dialogical responsibility has many strengths in its own right and avoids the major pitfalls of the other notions of responsibility examined in the book It serves as an eminently practical way to hold ourselves responsible for our actions and speech In addition dialogical responsibility alone qualifies as a virtue integral to the good life

A Historical Introduction to the Philosophy of Mind - Second Edition Peter Morton, 2010-05-06 This is an expanded and revised second edition of Peter Morton's highly acclaimed *A Historical Introduction to the Philosophy of Mind* a text that combines primary readings with detailed commentary The book has two aims to present the philosophy of mind from a historical perspective so that the theories in the field are seen to emerge in the process of solving problems with earlier theories and to give students access to original source material together with commentaries that explain technical terms and jargon outline argumentative structures and place the texts in their historical context The second edition adds several new chapters covering recent issues in the field and revises earlier chapters to improve the readings and update the commentaries

Calvinism and the Making of the European Mind, 2014-09-18 Calvinism must be assigned a significant place among the forces that have shaped modern European culture Even now despite its history of religious fragmentation and secularization Europe continues to bear the marks of a pervasive Calvinist ethos The character of that ethos is however difficult to pin down In this volume many of the traditional scholarly conundrums about the relationship between Calvinism and the cultural history of Europe are revisited and re-investigated to see what new light can be shed on them For example how has the ethos of Calvinism or more broadly the Reformed tradition affected economic thinking and

practice the development of the sciences views on religious toleration or the constitution of European polities In general what kind of transformations did Calvinism s distinct spirituality bring about Such questions demand painstaking and detailed scholarly work a fine sample of which is published in this volume

John Henry Newman on the Nature of the Mind Jane Rupert,2011-01-01 Jane Rupert shows how Catholic philosopher theologian and priest John Henry Newman sheds light on contemporary liberal education and the humanities by distinguishing between the different ways reason functions in science religion and in literature Rupert discusses the range of Newman s thought on several fronts including intellectual history theories of knowing the controversy between science and religion the defense of the liberal arts and the aims of Catholic education

hopes to better the human condition easing the weight of mental illness on those afflicted and their loved ones **Between Mind and Nature** Roger Smith, 2013-06-01 From William James to Ivan Pavlov John Dewey to Sigmund Freud the W rzburg School to the Chicago School psychology has spanned centuries and continents Today the word is an all encompassing name for a bewildering range of beliefs about what psychologists know and do and this intrinsic interest in knowing how our own and other s minds work has a story as fascinating and complex as humankind itself In *Between Mind and Nature* Roger Smith explores the history of psychology and its relation to religion politics the arts social life the natural sciences and technology Considering the big questions bound up in the history of psychology Smith investigates what human nature is whether psychology can provide answers to human problems and whether the notion of being an individual depends on social and historical conditions He also asks whether a method of rational thinking exists outside the realm of natural science Posing important questions about the value and direction of psychology today *Between Mind and Nature* is a cogently written book for those wishing to know more about the quest for knowledge of the mind **Defining the Humanities** Robert E. Proctor, 1998-12-22 Think of this as *The Thinking Man s Bloom* or *The Thinking Woman s Closing of the American Mind* It takes up debates about education and reasons about them where Bloom often only blasted away This is one of the more helpful recent statements of the case for the classics accompanied by rather venturesome curricular suggestions Christian Century His exciting readable book calls for a return to a study of the classics and of the Renaissance poets and scholars like Petrarch who rediscovered the classics Michael Dirda Washington Post Book World a splendid statement bringing together in a careful and coherent way the prospects for a solid humanities curriculum Ernest L Boyer Ten years ago when this book was first published it was called *Education s Great Amnesia Reconsidering the Humanities from Petrarch to Freud* It is being reissued now in a second edition with a different title for a new generation of readers who cannot have forgotten what they never knew What are the humanities Can we agree on a core curriculum of humanistic studies Robert Proctor answers these questions in a provocative readable book **A Historical Introduction to the Philosophy of Mind** Peter A. Morton, 1996-12-23 *A Historical Introduction to the Philosophy of Mind* is designed both to provide a selection of core readings on the subject and to make those readings accessible by providing commentaries to guide the reader through initially intimidating material Each commentary explains technical concepts and provides background on obscure arguments as they arise setting them in the historical and intellectual milieu from which they emerged The readings concentrate on providing the student with a solid grounding in the theories of representative figures of the major philosophical movements from Plato and Aristotle to important recent figures such as Fodor and Dennett A glossary of key terms is also included

Mind in Nature Maria-Teresa Teixeira, Aljoscha Berve, Moirika Reker, 2021-01-27 This collection of essays written by leading Whitehead scholars bridges two important philosophical movements in Western philosophy separated by many centuries Neo Platonism and Process Philosophy It focuses on a variety of topics which can be found in both theories

including creativity temporality holism potentiality causality evolution organism and multiplicities They all concur with an integral natural worldview showing that wholeness complexity and indivisibility are prevalent in Nature All in all it brings together Neo Platonism and Process Philosophy through the impact the former had on the latter This volume shows that process philosophy can contribute to an integral worldview as it draws on ancient philosophy setting new paradigms for novel approaches to nature science and metaphysics The Unity of the Sciences in Unification Thought, Volume Three: Life, Mind and Spirit Richard L. Lewis, 2013-11-18 Modern science in the light of Unification Thought A exploration starting with quantum physics and concluding with the origin of mankind **Loving God with All Your Mind** Gene Edward Veith Jr., 2003-10-07 Our world is alive with fascinating new ideas discoveries and technologies But for Christians this can also present problems especially when the values of postmodernism and secular university life conflict with basic Christian principles What should Christians do when their beliefs come under attack in the classroom or the public square Loving God with All Your Mind shows us that the answer is neither wholesale rejection of intellectual life and culture nor blind acceptance of it The answer lies in understanding that Jesus is Lord of all of life and that everything in life must be carefully viewed in the light of what Christ's lordship means Gene Edward Veith unfolds a dazzling critique of the postmodern intellectual world and culture He affirms the part that is good and true but he also shows crucial weaknesses that have such a hold over contemporary thought This book shows Christians how to survive and flourish in a postmodern world while affirming the truth of the Christian faith Mind and Nature Hermann Weyl, 2009-03-31 Hermann Weyl 1885 1955 was one of the twentieth century's most important mathematicians as well as a seminal figure in the development of quantum physics and general relativity He was also an eloquent writer with a lifelong interest in the philosophical implications of the startling new scientific developments with which he was so involved Mind and Nature is a collection of Weyl's most important general writings on philosophy mathematics and physics including pieces that have never before been published in any language or translated into English or that have long been out of print Complete with Peter Pesic's introduction notes and bibliography these writings reveal an unjustly neglected dimension of a complex and fascinating thinker In addition the book includes more than twenty photographs of Weyl and his family and colleagues many of which are previously unpublished Included here are Weyl's exposition of his important synthesis of electromagnetism and gravitation which Einstein at first hailed as a first class stroke of genius two little known letters by Weyl and Einstein from 1922 that give their contrasting views on the philosophical implications of modern physics and an essay on time that contains Weyl's argument that the past is never completed and the present is not a point Also included are two book length series of lectures The Open World 1932 and Mind and Nature 1934 each a masterly exposition of Weyl's views on a range of topics from modern physics and mathematics Finally four retrospective essays from Weyl's last decade give his final thoughts on the interrelations among mathematics philosophy and physics intertwined with reflections on the course of his rich life The Dictionary of National Biography
