Nature's Religion Versus Mankind's Spiritual Frauds! Gene Matlock,2003-08 Many people can't accept the truth that Nature has a unique plan and purpose for each animal species on earth. This plan is the religion she has outlined for them. Man's troubles have arisen because he has decided that Nature's religion or as the Hindus call it Isvar isn't good enough. He thinks manmade rules and religions are better than Nature's any day. But humans don't all think alike. The founders and leaders of Man's different religions have their own agendas for mankind. As a result, this world is overburdened with thousands of different artificially made religions, each claiming to have invented Mother Nature. Although some religions will actually kill people who won't convert, Nature does not destroy anybody for noncompliance. She just assigns them a different job description. If Nature were human, the religious nuts would even try to convert her. But Nature or the Isvar goes by its own rules, not mankind's. So why does mankind rebel and create his own ideas of right and wrong? What is it about Nature's religion that makes everybody hate it? To become healthy, wealthy, and wise, obey Nature's rules. This book points the way.

Christianity--Mankind's First Worldwide Religion! Gene Matlock,2005-12 It is my hope that this book will help all humans understand just exactly what Buddhism, Ketuloka, or Krishtaya is and apply its principles according to the uniqueness and level of their respective understandings for the improvement of their lives. Christianity, Catholicism, was mankind's first and oldest worldwide religion. According to author Gene Matlock, Christianity merely stepped into the shoes of an ancient existing worldwide religion of the same name. The infant Church did not begin to call itself Christianity until two or three hundred years after it was established. Before the Great Flood, Krishtayana was brought to India from Eastern Siberia by a highly civilized Turkish tribe called Kurus or Krishtaya. The Kurus were the world's first highly developed civilization, predating India, Egypt, and Sumeria. After conquering India, the Kurus went on to conquer the world, including Middle America. The Caribbean Indians told the Spanish that their gods were the Kurus, Rumani. Nearly all the Indian tribes of both Americas will find their respective tribes' Turkish and North Indian origins in this book. But what happened to keep Turkey from receiving credit as the founder of all human civilizations, as well as the first religion, Christianity? Mankind's First Worldwide Religion clears up many mysteries and shows that Jesus Christ really was all that Christians have been taught he was.

Hastings, John Alexander Selbie, Louis Herbert Gray, 1908 "The" Encyclopaedia Britannica ,1876 The Encyclopædia Britannica ,1893 **Aids to Reflection; and, The Confessions of an Inquiring Spirit** Samuel Taylor Coleridge, 2019-12-24 In *Aids to Reflection and The Confessions of an Inquiring Spirit* Samuel Taylor Coleridge embarks on a profound exploration of the interplay between philosophy and spirituality. The text serves as both a guide and a meditation employing an introspective literary style that reflects Coleridge's Romantic sensibilities. Engaging deeply with the works of Kant, Schelling, and other contemporary thinkers, Coleridge weaves an intricate tapestry of thought, inviting readers to navigate the complexities of human consciousness, faith, and morality. His capacity for lyrical beauty alongside challenging intellectual discourse positions this work within the broader Romantic tradition, highlighting the pivotal role of reflection in the pursuit of truth. Samuel Taylor Coleridge, a central figure of the English Romantic movement, was shaped by his struggles with personal beliefs and societal norms. His own journey of spiritual inquiry, marked by encounters with diverse philosophical ideologies, informs this text as he seeks to reconcile the tumultuous relationship between reason and intuition. Coleridge's innovative approach reflects his contributions to literature and philosophy, positioning him as a transitional figure between Enlightenment rationalism and Romantic introspection. This book is recommended for anyone seeking a deeper understanding of the philosophical underpinnings of Romantic thought, as well as those grappling with the nature of belief and reflection. Coleridge's eloquent prose and penetrating insights invite readers to embark on their own journeys of inquiry, making this work an essential read for scholars, lovers of poetry, and seekers of wisdom alike.
