**Lifestyle by Nature** Betty Holston Smith Ed.D,2019-04-06 How are you If your truest first thoughts in pondering this question are something like I could be better this nature based lifestyle change book might help To be healthy you must take care of all of you because the total you is made up of your entire self including your body mind spirit soul your everything If one part of you is not up to par in some way or another it s impossible for your everything else to be totally healthy You have tried everything your friends your doctors and even the advertisement industry recommended for improving your health But nothing has worked except to make you a frustrated person Close your eyes right now and allow your conscious mind to contemplate your health situation Be honest You are not the healthiest that you can or should be In fact you are in dire straits according to how you feel and what your medical team says about your health I know all of this about you because I was you so many years ago Like you for years I followed the same type of diet herd that you have been following And like you after trying everything I had no clue about what to try next However I found a clue Over forty years I lived the importance of and learned to replicate nature s wisdom on nutrition and movement in my unhealthy lifestyle Her focus was on naturally changing lifestyles not on temporary quick fixes And in the process she provided me with all types of support to do so I carefully recorded her step by step wisdom and provided the details inside Ditch your next quick fix cosmetic diet and put your trust in nature s simple but trustworthy lifestyle change wisdom
