Nautical Quarterly 46 Summer 1989:

Nautical Quarterly ,1990 Yachting ,2002-10 Yachting ,2002-10 *Electric Boats and Ships* Kevin Desmond,2017-09-25 Electric propulsion for boats was developed in the early 19th century and despite the advent of the internal combustion engine continued with the perfecting of the modern turbo electric ship Sustainable and hybrid technologies pioneered in small inland watercraft toward the end of the 20th century have in recent years been scaled up to create integrated electric drives for the largest ocean going vessels This comprehensive history traces the birth and rebirth of the electric boat from 1835 to the present celebrating the Golden Age of electric launches 1880 1910 **Slavery in the South** Clayton E. Jewett,John O. Allen,2004-02-28 Slavery in the United States is once again a topic of contention as politicians and interest groups argue about and explore the possibility of reparations The subject is clearly not exhausted and a state by state approach fills a critical reference niche This book is the first comparative summary of the southern slave states from Colonial times to Reconstruction The history of slavery in each state is a story based on the unique events in that jurisdiction and is a chronicle of the relationships and interactions between its blacks and whites Each state chapter explores the genesis growth and economics of slavery the life of free and enslaved blacks the legal codes that defined the institution and affected both whites and blacks the black experience during the Civil War and the freedmen s struggle during Emancipation and Reconstruction The commonalities and differences can be seen from state to state and students and other interested readers will find fascinating accounts from ex slaves that flesh out the fuller picture of slavery state and country wide Included are timelines per state photos numerous tables for comparison and appendixes on the numbers of slaveholders by state in 1860 dates of admission secession and readmission and economic statistics A bibliography and index complete the volume **British Nautical Melodramas, 1820-1850** Arnold Schmidt,2022-07-30 During the 1820s and 30s nautical melodramas reigned supreme on London stages entertaining the mariners and maritime workers who comprised a large part of the audience for small theatres These plays mixed sentimental moments and comic interludes of domestic melodrama with patriotic images that communicated and reinforced imperial themes However generally the study of British theatre history moves from medieval and renaissance plays directly to the realism and naturalism of late Victorian and modern drama Readers typically encounter a gap between Restoration and eighteenth century plays like those of Oliver Goldsmith and Richard Brinsley Sheridan and late nineteenth plays by Henrik Ibsen and Oscar Wilde Nineteenth century drama with the possible exception of plays by Byron Shelley and Wordsworth remains all but invisible Until recently melodramatic plays written and performed during this gap received little scholarly attention but their value as reflections of Britain s promulgation of imperial ideology and its role in constructing and maintaining class gender and racial identities have given discussions of melodrama force and momentum The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth century editions Each play is transcribed from

original documents and includes an author biography a headnote about the play itself full annotations with brief definitions of unfamiliar vocabulary and explanatory notes Comprehensive editorial apparatus details the nineteenth century imperial naval political and social history relevant to the plays nautical themes as well as discussing nineteenth century theatre history melodrama generally and the nautical melodrama in particular Contemporary theatre practices acting audiences staging lighting special effects are also examined An extensive bibliography of primary and secondary texts a complete index and contemporary images of the actors theatres stage sets playbills costumes and locales have been compiled to aid study further

Destruction David Bath,2020-03-15 Assured Destruction Building the Ballistic Missile Culture of the U S Air Force documents the rapid development of nuclear ballistic missiles in the United States and their equally swift demise after the Cuban Missile Crisis revealing how these drastic changes negatively influenced both the Air Force and the missile community David W Bath contends that the struggle to create and control nuclear ballistic missiles threatened both the dominance of the United States during an intensifying Cold War and the strategic airpower mission of the newly created Air Force The book details the strenuous efforts required to create and prepare a missile arsenal before the Cuban Missile Crisis which occurred only five years after the first missile was declared operational It uses the personal recollections of former missileers and the professional military education theses they wrote to highlight some of the concerns that have faced the missileers who operated and worked on these powerful weapons from 1957 to the present The highlight of the book however is the personal stories of the missileers who served during the missile crisis revealing the efforts that they went to in order to prepare these unique and untried weapons for what many thought might become the third world war *Lexington Quarterly* ,1986
