Climate Change and Political Strategy Hugh Compston, 2013-09-13 Although the science of climate change is well established and there are well known policy instruments that could significantly reduce greenhouse gas GHG emissions without prohibitive economic costs political obstacles to more determined action remain despite heightened concern among mainstream politicians and the public This book analyses the political dynamics of climate policy in affluent democracies from a number of different theoretical angles in order to improve our understanding of which political strategies would be likely to enable national governments to make deep cuts in GHG emissions while avoiding significant political damage The authors argue that different conceptual and logical theories highlight different features of political situations Describing the politics of climate policy in this way will result in different conceptual logical views of this phenomenon And to some extent the inferences drawn from such differing views about the nature of political obstacles to more vigorous action on climate change and the best ways of overcoming them will also be different Singly and together these analyses reveal a more detailed nuanced view of the political options open to activist governments This book was previously published as a special issue of Environmental Politics

When Media Goes to War Anthony DiMaggio, 2010-02-01 In this fresh and provocative book Anthony DiMaggio uses the war in Iraq and the United States confrontations with Iran as his touchstones to probe the sometimes fine line between news and propaganda Using Antonio Gramsci's concept of hegemony and drawing upon the seminal works of Noam Chomsky Edward Herman and Robert McChesney DiMaggio combines a rigorously empirical analysis and clear lucid prose to enlighten readers about issues essential to the struggle for a critical media and a functioning democracy If as DiMaggio shows our newspapers and television news programs play a decisive role in determining what we think and if as he demonstrates convincingly what the media give us is largely propaganda that supports an oppressive and undemocratic status quo then it is incumbent upon us to make sure that they are responsive to the majority and not just the powerful and privileged few
