The God Paradox: Unpacking Belief in a Rational World KHRITISH SWARGIARY,2024-10-01 In The God Paradox Unpacking Belief in a Rational World I Khritish Swargiary argue that the belief in God is not an inherent truth of the universe but a man made construct born out of fear uncertainty and the need for control This book challenges the assumption that belief in a higher power is necessary for ethical living and instead posits that human beings are capable of constructing moral systems without the need for divine oversight The genesis of this book came from a personal journey of questioning the belief systems I was raised with As I delved deeper into the study of philosophy history and psychology I began to realize that the concept of God which had been presented to me as an unquestionable truth could be understood as a social and cultural construct My interest in secular humanism which advocates for a morality rooted in human welfare and rationality rather than religious doctrine prompted me to explore the origins and implications of belief in God
