**Nazi Conquest Through German Culture** Ralph Frederic Bischoff, 1967      **Nazi Conquest Through German Culture** Ralph Frederic Bischoff, 1990-01-01      **Nazi Conquest Through German Culture** (Harvard Political Studies, Pub. Under the Direction of the Dept. of Govt. in Harvard University). Ralph F. Bischoff,      *Propaganda and the German Cinema, 1933-1945* David Welch, 2001-03-23 This is the most comprehensive analysis to date of Nazi film propaganda in its political social and economic contexts from the pre war cinema as it fell under the control of the Propaganda Minister Joseph Goebbels through to the end of the Second World War David Welch studies more than one hundred films of all types identifying those aspects of Nazi ideology that were concealed in the framework of popular entertainment      **The Deutschtum of Nazi Germany and the United States** Arthur L. Smith, 2012-12-06      **A Cultural Interpretation of the Genocide Convention** Kurt Mundorff, 2020-08-25 This book critiques the dominant physical and biological interpretation of the Genocide Convention and argues that the idea of culture is central to properly understanding the crime of genocide Using Raphael Lemkin s personal papers archival materials from the State Department and the UN as well as the mid century secondary literature it situates the convention in the longstanding debate between Enlightenment notions of universality and individualism and Romantic notions of particularism and holism The author conducts a thorough review of the treaty and its preparatory work to show that the drafters brought strong culturalist ideas to the debate and that Lemkin s ideas were held widely in the immediate postwar period Reconstructing the mid century conversation on genocide and situating it in the much broader mid century discourse on justice and society he demonstrates that culture is not a distraction to be read out of the Genocide Convention it is the very reason it exists This volume poses a forceful challenge to the materialist interpretation and calls into question decades of international case law It will be of interest to scholars of genocide human rights international law the history of international law and human rights and treaty interpretation      *The Politics of Cultural Despair* Fritz R. Stern, 2023-09-01 This is a study in the pathology of cultural criticism By analyzing the thought and influence of three leading critics of modern Germany this study will demonstrate the dangers and dilemmas of a particular type of cultural despair Lagarde Langbehn and Moeller van den Bruck their active lives spanning the years from the middle of the past century to the threshold of Hitler s Third Reich attacked often incisively and justly the deficiencies of German culture and the German spirit But they were more than the critics of Germany s cultural crisis they were its symptoms and victims as well Unable to endure the ills which they diagnosed and which they had experienced in their own lives they sought to become prophets who would point the way to a national rebirth Hence they propounded all manner of reforms ruthless and idealistic nationalistic and utopian It was this leap from despair to utopia across all existing reality that gave their thought its fantastic quality This is a study in the pathology of cultural criticism By analyzing the thought and influence of three leading critics of modern Germany this study will demonstrate the dangers and dilemmas of a particular

type of cultural despair Lagarde Langbehn an **The Politics of Cultural Despair** Fritz Richard Stern,1961 *Jews, Nazis and the Cinema of Hungary* David Frey,2017-02-28 Between 1929 and 1942 Hungary's motion picture industry experienced meteoric growth It leapt into Europe's top echelon trailing only Nazi Germany and Italy in feature output Yet by 1944 Hungary's cinema was in shambles internal and external forces having destroyed its unification experiments and productive capacity This original cultural and political history examines the birth unexpected ascendance and wartime collapse of Hungary's early sound cinema by placing it within a complex international nexus Detailing the interplay of Hungarian cultural and political elites Jewish film professionals and financiers Nazi officials and global film moguls David Frey demonstrates how the transnational process of forging an industry designed to define a national culture proved particularly contentious and surprisingly contradictory in the heyday of racial nationalism and antisemitism The Dynamics of Human Rights in United States Foreign Policy Natalie Kaufman Hevener,1981-01-01 Economic and social needs The Third Reich David Welch,2008-01-28 Published in the year 1994 The Third Reich is a valuable contribution to the field of History **Coming Home to the Third Reich** Grant W. Grams,2021-09-14 During the 1930s Germany's industrialization rearmament and economic plans taxed the existing manpower forcing the country to explore new ways of acquiring Aryan German labor Eventually the Third Reich implemented a return migration program which used various recruitment strategies to entice Germans from Canada and the United States to migrate home It initially used the Atlantic Ocean to transport German speakers but after the outbreak of World War II German civilians were brought from the Americas to East Asia and then to Germany via the Trans Siberian Railway through the Soviet Union Germany's attack on the Soviet Union in June 1941 ended this overland route but some Germans were moved on Nazi ships from East Asia to the Third Reich until the end of 1942 This book investigates why Germans who had already established themselves in overseas countries chose to migrate back to an oppressive and authoritarian country It sheds light on some aspects of the Third Reich's administration goals and achievements associated with return migration while also telling the individual stories of returnees *Visualizing Fascism* Julia Adeney Thomas,Geoff Eley,2020-03-13 The contributors to Visualizing Fascism examine the imagery and visual rhetoric of interwar fascism in East Asia southern Africa and Europe to explore how fascism was visualized as a global and aesthetic phenomenon Nazis and Good Neighbors Max Paul Friedman,2003-08-04 This international history uncovers an American security program in which Washington reached into fifteen Latin American countries to seize more than 4 000 German expatriates and intern them in the Texas desert The crowd of Nazi Party members antifascist exiles and even Jewish refugees were lumped together in camps riven by strife The book first published in 2003 examines the evolution of governmental policy its impact on individuals and emigrant communities and the ideological assumptions that blinded officials in both Washington and Berlin to Latin American realities Franklin Roosevelt's vaunted Good Neighbor policy was a victim of this effort to force reluctant Latin American governments to hand over their

German residents while the operation ruined an opportunity to rescue victims of the Holocaust This study makes a very contemporary argument that security measures based on group affiliation rather than individual actions are as unjust and ineffective in foreign policy as they are in law enforcement

Children's Literature in Hitler's Germany Christa Kamenetsky, 2019-06-17 Between 1933 and 1945 National Socialists enacted a focused effort to propagandize children's literature by distorting existing German values and traditions with the aim of creating a homogenous folk community A vast censorship committee in Berlin oversaw the publication revision and distribution of books and textbooks for young readers exercising its control over library and bookstore content as well as over new manuscripts so as to redirect the cultural consumption of the nation's children In particular the Nazis emphasized Nordic myths and legends with a focus on the fighting spirit of the saga heroes their community loyalty and a fierce spirit of revenge elements that were then applied to the concepts of loyalty to and sacrifice for the Führer and the fatherland They also tolerated select popular series even though these were meant to be replaced by modern Hitler Youth camping stories In this important book first published in 1984 and now back in print Christa Kamenetsky demonstrates how Nazis used children's literature to selectively shape a Nordic Germanic worldview that was intended to strengthen the German folk community the Führer and the fatherland by imposing a racial perspective on mankind Their efforts corroded the last remnants of the Weimar Republic's liberal education while promoting an enthusiastic following for Hitler
