English-Ndonga Dictionary, 1996 **Ndonga-English Dictionary** T. E. Tirronen, 1986 **Dictionary of Arabic Loanwords in the Languages of Central and East Africa** Sergio Baldi, 2020-11-30 Following the publication in 2008 of Dictionnaire des emprunts arabes dans les langues de l'Afrique de l'Ouest et en Swahili Dictionary of Arabic Loanwords in the Languages of Central and East Africa completes and offers the results of over 20 years of research on Arabic loanwords The volume reveals the impact Arabic has had on African languages far beyond the area of its direct influence As in the previous volume the author analyses the loans in the greatest possible number of languages spoken in the area based on the publications he found in the most important libraries of the main universities and academic institutions specialised in the field By suggesting the most frequently used Arabic loanwords the dictionary will be an invaluable guide to African language lexicon compilers amongst others *Oshindonga* J.J. Viljoen, P. Amakali, 1984-12-01 **Biblical Interpretation and African Traditional Religion** Helen C. John, 2019-05-15 In Biblical Interpretation and African Traditional Religion Helen C John juxtaposes grassroots biblical interpretations from Owamboland Namibia with professional interpretations of selected New Testament texts effectively demonstrating the capacity of grassroots interpretations to destabilise challenge and nuance dominant professional interpretations John uses a cross cultural and dialogical approach Cross Cultural Biblical Interpretation Groups to explore the relationship between African Traditional Religion ATR Christianity and biblical interpretation in Owamboland Namibia She contextualises the grassroots Owambo interpretations using fieldwork experiences and ethnographic literature thus heightening the cross cultural encounter In particular John reflects on Western epistemologies and the Eurocentric interpretative trends that are brought into relief by the African interpretations gathered in Owamboland **Namibian English in Its Multilingual Environment** Gerald Stell, 2025-08-18 Already much discussed within the World Englishes research paradigm English in Namibia only began to develop into a dominant lingua franca from 1990 onwards The study's central research questions are How does spoken English vary in Namibia Does it form one variety or several And what is distinctly Namibian about it To answer these questions this study draws on perceptually contextualized speech data collected among young urban Namibian generations It first identifies the historical and contemporary uses of English in Namibia in comparison with other languages The patterns of code switching into which Namibian English is embedded are illustrated based on a corpus of informal multilingual Namibian speech The study then zooms in on its phonetic and grammatical features with particular emphasis on how these features are perceived and socially distributed and whether they represent transfers from native languages or imports from exogenous English varieties Linguistic Ties Between Ancient Egyptian and Bantu Fergus Sharman, 2013-12 This book provides a unique perspective on the linguistic relationships between the Ancient Egyptian and Bantu languages of East Central Southern Africa It will be of interest to readers of Egyptology linguists students and the wider public who wish to find out more about the structure of

the Ancient Egyptian language and how it connects with other languages particularly with Bantu languages The subject matter is different from other books as it examines the etymology of words together with their sound meaning relationships and shows by using verifiable hieroglyphic forms how Ancient Egyptian words may be pronounced by inserting Bantu vowels which fit the meanings derived from the skeletal templates of consonants in the Ancient Egyptian language **The Oxford Handbook of African Languages** Rainer Vossen, Gerrit Jan Dimmendaal, 2020 This book provides a comprehensive overview of current research in African languages drawing on insights from anthropological linguistics typology historical and comparative linguistics and sociolinguistics It covers a wide range of topics from grammatical sketches of individual languages to sociocultural and extralinguistic issues **A History of African Linguistics** H.
