One Party Government In The Ivory Coast:

One-Party Government in the Ivory Coast Aristide R. Zolberg, 2015-12-08 Professor Zolberg brings the factual material about the Ivory Coast's social economic and political development since 1961 1962 Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **One-party Government in Mali** Francis G. Snyder, 1965 *One-party government in the Ivory Coast ... Revised edition* Aristide Rodolphe ZOLBERG, 1969 **The State of the Nations** Michael F. Lofchie, 2024-06-21 The State of the Nations is a collection of essays evaluating the political social and economic development of independent African states in the 1960s The effort to employ the notion of constraint as a conceptual tool in analyzing African politics reflects an attempt to move away from evaluative terms such as development and modernization or decay and breakdown Development which has an implicit suggestion of social progress and constitutional government seems inappropriate for the study of the wide array of political phenomena found in African states Terms such as breakdown and decay with an equally broad suggestion of disruption disunity and instability seem equally inappropriate The vantage point of the authors in this volume is primarily political but their understanding of African development encompasses the social and economic spheres as well The constraints that impede achievement of African objectives are varied and many of course are not political Geographical factors for example are supremely relevant in accounting for the availability of natural resources The principal justification for emphasizing political rather than other constraints is the extent to which political will and political action can stimulate development in spite of other obstacles Contributors Jonathan Barker Henry Bienen Barbara Callaway Emily Card Martin R Doornbos Rupert Emerson R Cranford Pratt Richard E Stryker Immanuel Wallerstein Claude E Welch M Crawford Young This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1971 The Rise of a Party-State in Kenya Jennifer A. Widner, 2023-04-28 Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely organized political party under Jomo Kenyatta into an arm of the president's office with watchdog youth wings and strong surveillance and control functions under Moi She suggests that single party systems have an inherent tendency to become party states or single party regimes in which the head of state uses the party as a means of control The

speed and extent of these changes depend on the countervailing power of independent interest groups such as business associations farmers or professionals Widner's study offers important insights into the dynamics of party systems in Africa Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely **The African Charter on Human and Peoples' Rights Volume 1** Nat Rubner,2023 Landmark study of the African Charter on Human and Peoples Rights that positions it within the African Lives Matter struggle to assert an African identity rather than as simply a human rights document **Historical Dictionary of Cote d'Ivoire (The Ivory Coast)**

methods and theory to archival materials and expert interviews International Statebuilding in West Africa seeks to shift the discourse on civil wars from their causes and implications to the opportunities they provide to rework failed states and to shift the discourse on African states from their colonial and neocolonial legacies to their shared moral and security interests with the rest of the world **Africa, Problems & Prospects** United States.
