The Internationalization of Equity Markets Jeffrey A. Frankel, 2008-04-15 This timely volume addresses three important recent trends in the internationalization of United States equity markets extensive market integration through foreign investment and links among stock prices around the world increasing securitization as countries such as Japan come to rely more than ever before on markets in equities and bonds at the expense of banks and the opening of national financial systems of newly industrializing countries to international financial flows and institutions as governments remove capital controls and other barriers Eight essays examine such issues as the current extent of international market integration gains to U S investors through international diversification home country bias in investing the role of time and location around the world in stock trading and the behavior of country funds Other long standing questions about equity markets are also addressed including market efficiency and the accuracy of models of expected returns with a particular focus on variances covariances and the price of risk according to the Capital Asset Pricing Model

The Changing Capital Markets of East Asia Ky Cao, 1995-11-16 In recent years much attention has been given to the unparalleled economic development of East Asia In The Changing Capital Markets of East Asia the contributors look at the growing sophistication of capital markets in

this area and discuss the possible economic and political consequences The theme of the book is more strategic than technical and *Directory of Published Proceedings*, 1992 *Stock Index Futures* Charles M.S. Sutcliffe, 2018-01-18 The global value of trading in index futures is about 20 trillion per year and rising and for many countries the value traded is similar to that traded on their stock markets This book describes how index futures markets work and clearly summarises the substantial body of international empirical evidence relating to these markets Using the concepts and tools of finance the book also provides a comprehensive description of the economic forces that underlie trading in index futures *Stock Index Futures 3 e* contains many teaching and learning aids including numerous examples a glossary essay questions comprehensive references and a detailed subject index Written primarily for advanced undergraduate and postgraduate students this text will also be useful to researchers and market participants who want to gain a better understanding of these markets *Industrial Policies In The Pacific* Gunnar K. Sletmo, 2019-04-01 In GATT negotiations over the past several years the United States a founding member of the Asia Pacific Economic Cooperation Forum has been pushing hard for a global liberalization of trade in services This development would have special significance for the Pacific because of the intensifying competition between the United States and Japan for market shares A comprehensive analysis of the service sector's role in that dynamic region is offered in this timely volume Leading experts explore how service enterprises have affected trade in goods and transnational manufacturing forming a regional pattern of interdependence The authors assess each service sector from a regional perspective and offer detailed individual country studies as well The concluding chapters provide a broad overview of corporate strategies discuss questions of regional cooperation and identify opportunities for new regional service enterprises *Taiwan's Enterprises in Global Perspective* Nian-Tzu Wang, 1992 Aims to further the understanding of the transformation of the Taiwan economy over the past four decades and thus to throw light on issues in development theory and policy especially for other developing economies Included is a series of enterprise field studies *Taiwan Enterprises in Global Perspective* Xiaohu (Shawn) Wang, 2020-04-28 This volume was conceived to further the understanding of the transformation of the Taiwan economy over the past four decades and thus to throw light on issues in development theory and policy especially for other developing economies It is built on the micro foundation of a series of enterprise field studies which were conducted by a consortium of eight Taiwan universities under the auspices of Taiwan's National Science Council Although Taiwan's status as one of the four dragons and a rapidly growing Asian Pacific economy is well understood information on its development remains relatively scarce Publications of most international organizations rarely include Taiwan as an entity and scholarly analysis of the causes of the Taiwan miracle are often speculative Those based on empirical research are by and large at the macro level few are based on field studies of one of the most critical factors Taiwan's enterprises This volume aims to fill the void and goes a long way toward developing a micro perspective on this important economy
