Pacific Destiny:

Manifest Destinies Steven E. Woodworth, 2011-11-01 A sweeping history of the 1840s Manifest Destinies captures the enormous sense of possibility that inspired America's growth and shows how the acquisition of western territories forced the nation to come to grips with the deep fault line that would bring war in the near future Steven E Woodworth gives us a portrait of America at its most vibrant and expansive It was a decade in which the nation significantly enlarged its boundaries taking Texas New Mexico California and the Pacific Northwest William Henry Harrison ran the first modern populist campaign focusing on entertaining voters rather than on discussing issues prospectors headed west to search for gold Joseph Smith founded a new religion railroads and telegraph lines connected the country's disparate populations as never before When the 1840s dawned Americans were feeling optimistic about the future the population was growing economic conditions were improving and peace had reigned for nearly thirty years A hopeful nation looked to the West where vast areas of unsettled land seemed to promise prosperity to anyone resourceful enough to take advantage And yet political tensions roiled below the surface as the country took on new lands slavery emerged as an irreconcilable source of disagreement between North and South and secession reared its head for the first time Rich in detail and full of dramatic events and fascinating characters Manifest Destinies is an absorbing and highly entertaining account of a crucial decade that forged a young nation's character and destiny

The Cambridge History of the Pacific Ocean: Volume 1, The Pacific Ocean to 1800 Ryan Tucker Jones, Matt K. Matsuda, 2023-01-05 Volume I of The Cambridge History of the Pacific Ocean provides a wide ranging survey of Pacific history to 1800 It focuses on varied concepts of the Pacific environment and its impact on human history as well as tracing the early exploration and colonization of the Pacific the evolution of Indigenous maritime cultures after colonization and the disruptive arrival of Europeans Bringing together a diversity of subjects and viewpoints this volume introduces a broad variety of topics engaging fully with emerging environmental and political conflicts over Pacific Ocean spaces These essays emphasize the impact of the deep history of interactions on and across the Pacific to the present day

Pacific America Lon Kurashige, 2017-07-31 In recent times the Asia Pacific region has far surpassed Europe in terms of reciprocal trade with the United States and since the 1980s immigrants from Asia entering the United States have exceeded their counterparts from Europe reversing a longstanding historical trend and making Asian Americans the country's fastest growing racial group What does transpacific history look like if the arc of the story is extended to the present The essays in this volume offer answers to this question challenging current assumptions about transpacific relations Many of these assumptions are expressed through fear that the ascendancy of China threatens a U S led world system and undermines domestic economies that immigrants subvert national unity and that globalization for all its transcending of international cultural and racial differences generates its own forms of prejudice and social divisions that reproduce global and national inequalities The contributors make clear that these fears associated with and induced by Pacific integration are not new

Rather they are the most recent manifestation of international racial and cultural conflicts that have driven transpacific relations in its premodern and especially modern iterations Pacific America differs from other books that are beginning to flesh out the transnational history of the Pacific Ocean in that it is more self consciously a people s history While diplomatic and economic relations are addressed the chapters are particularly concerned with histories from the bottom up including attention to social relations and processes individual and group agency racial and cultural perception and collective memory These perspectives are embodied in the four sections focusing on China and the early modern world circuits of migration and trade racism and imperialism and the significance of Pacific islands The last section on Pacific Islanders avoids a common failing in popular perception that focuses on both sides of the Pacific Ocean while overlooking the many islands in between The chapters in this section take on one of the key challenges for transpacific history in connecting the migration and imperial histories of the United States Japan China Korea Vietnam and other nations with the history of Oceania

Indo-Pacific Empire Rory Medcalf,2020-03-19 This book explains why the idea of the Indo Pacific is so strategically important and concludes with a strategy designed to help the West engage with Chinese power in the region in such a way as to avoid conflict **The Dawn of the Pacific Century** William McCord,2020-03-04 This book is a bold affirmation of the Asian miracle of development an explanation of reasons for its success and a review of its implications As McCord reminds us understanding why and how these nations have propelled themselves so far so fast is a key to anticipating the destiny of much of the rest of the world Despite their interest analysis have been confounded in attempts to explain Asian Development without resources and colonies without internal violence and broadly distributing wealth as they have grown Existing theories of development offer little guidance Even explanations that look to the special circumstances of Asian countries have their weaknesses Reviewing all of these explanations McCord identifies a common group of socioeconomic values and policies shared by most of these nations And these he shows tell us much The Dawn of the Pacific Century convincingly makes the case for a genuinely Asian model of development one that must be understood on its own terms It should find a broad professional social science readership In addition those general readers who wish to learn from and understand the Asian challenge will find this book a good beginning Power Geopolitics in the Pacific Age C. Raymond D. Gastil, Barnett Singer, 2010-04-23 The Pacific Northwest for the purposes of this book mostly Oregon and Washington has sometimes been seen as lacking significant cultural history Home to idyllic environmental wonders the region has been plagued by the notion that the best and brightest often left in search of greater things that the mainstream world was thousands of miles away or at least as far south as California This book describes the Pacific Northwest's search for a regional identity from the first Indian European contacts through the late twentieth century identifying those individuals and groups who at least struggled to give meaning to the Northwest experience It places particular emphasis on writers and other celebrated individuals in the arts detailing how their lives and works both reflected the region and also enhanced its sense of self **Here's who in Horses of the Pacific Coast**, 1948 The New Global Politics of the Asia

Pacific Michael K. Connors, Rémy Davison, Jörn Dosch, 2004-08-12 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company *Asia-Pacific* Raymond Frederick Watters, T. G. McGee, Ginny Sullivan, 1997 The great processes reshaping our world today can be summed up by the term globalisation Together with the communications revolution and massive urbanisation it is reshaping the organisation of global space It is illustrated by technological change pronounced economic growth the dominance of giant corporations ever more open markets and universal consumption Dramatic developments have occurred in Asia Pacific trade investment labour movements and political cooperation marked for example by APEC a giant free trade area designed to encompass about 60% of the world's population and half the world's economy But the processes also create social tension political reaction and local resistance as a result of regional restructuring widening regional disparities the neglect of backward areas or imposed modernisation Asia Pacific New Geographies of the Pacific Rim written by leading scholars from the region examines the extent to which Pacific Rim economies especially East Asia and Southeast Asia are increasingly integrated and considers the economic political and cultural forces at work In the process many new geographies are being created or reconstructed At the same time the local global dialectic whereby local forces react to negotiate with resist or capitulate to global forces is examined Part I analyses globalisation and the emergence of sub global regions Part II the processes of change in Asia Pacific and Part III the national responses to globalisation Part IV addresses local reactions to global forces resistance negotiations or capitulation

Finally the editors enumerate the challenges to the region which centre on the crucial need to manage this era of globalisation so that sustainable societies can continue. This vast region needs careful management of globalisation in which the forces of free trade and economic growth are the central determinants. For the time being these forces seem to be in the ascendant. **The South Pacific** Ramesh Thakur, 2016-07-27 Political security economic and ecological issues in the South Pacific have acquired increasing regional and international prominence. In The South Pacific observers from within and outside the region describe and analyse the dynamics of the region assessing the problems issues and prospects of the area.

The Pacific Monthly, 1902 **The Pacific Monthly** William Bittle Wells, Lute Pease, 1905 *The Transformation of Canada's Pacific Metropolis* Thomas A. Hutton, Institute for Research on Public Policy, 1998 This volume documents the economic and socio cultural transformation of Vancouver over the last decade analyzing the city's distinctive growth trajectory. It describes how Vancouver has undergone a complex series of demographic economic and socio cultural changes that have given the city a radically different profile as a gateway to the Pacific a multi cultural metropolis a preferred destination for Asian immigrants and an integral part of new regional entities such as the Cascadia ecological and economic zone. In addition to Vancouver's deepening engagement with Asia Pacific markets and societies the chapters examine the restructuring of the city's economy and labour force the formation of new external linkages the changes in class community and metropolitan structures and the patterns of urban reconstruction. The final chapter discusses the implications of the Vancouver experience for structural change and the post industrial city region. *The New Pacific* Charles Brunsdon Fletcher, 1917 John Tyler, the Accidental President Edward P. Crapol, 2012-01-18 The first vice president to become president on the death of the incumbent John Tyler 1790-1862 was derided by critics as His Accidency. In this biography of the tenth president Edward P. Crapol challenges depictions of Tyler as a die hard advocate of states rights limited government and a strict interpretation of the Constitution. Instead he argues Tyler manipulated the Constitution to increase the executive power of the presidency. Crapol also highlights Tyler's faith in America's national destiny and his belief that boundless territorial expansion would preserve the Union as a slaveholding republic. When Tyler sided with the Confederacy in 1861 he was branded as America's traitor president for having betrayed the republic he once led. **Pacific Rural Press**, 1908 *Pacific Destiny* Dana Fuller Ross, 1994 *The Architect and Engineer of California, Pacific Coast States*, 1912
