Pacific Liners 1927 1972:

Pacific Liners 1927-1972 Frederick Emmons, 1973 **The Royal Navy, China Station: 1864 - 1941** Jonathan Parkinson, 2018-02-20 A definitive history of the Royal Navy's China Station. In the The Navy List for April 1864 the China Station was first shown as a separate Royal Navy Station. It remained as such until the outbreak of the Pacific War in December 1941 which was to signal the end of that era. In addition to a précis of the lives and naval careers of each of the Commanders in Chief of the China Station this volume also gives relevant information outlining something of the concurrent internal affairs of China and Japan. Both are very different but sad tales: the former in decline towards the end of the Manchu Ch'ing dynasty and then into the chaotic 1920s and 1930s and the latter increasingly adopting a militaristic attitude which was to result in their disaster of the Pacific War of 1941-1945. As a reminder of these days long gone are interwoven brief references to the British Consular Service. This is especially relevant for China and for a shorter period for Japan during that era of extraterritoriality. Mention is also made of the British Colonial Service with whom necessarily the Navy worked very closely. In addition being one important reason for it all frequent references are made to a few British shipping and trading interests together with those of some other nations. All of these areas are linked together to give a definitive history of this very important Royal Navy Station.

A Postcard History of the Passenger Liner Christopher Deakes, 2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled, their exotic destinations and life onboard. These paintings, rich in imagination and atmosphere, appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner. In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic. Other oceans were similarly served. But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired. Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century. Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants, soldiers, administrators or simply as tourists in days long past. These cards, which are now highly collectable, show how steamships developed over the years but they are also a fine tribute to the artists who painted them. This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting.

Art Deco Michael Windover, 2012-12-13 T00:00:00-05:00 This book argues that mobility is the central theme of the interwar mode of design known today as Art Deco. It is present on the very surfaces of Art Deco objects and architecture in iconography and general formal qualities, whether the zigzag rectilinear forms popular in the 1920s or curvilinear streamlining of the 1930s. By focussing on mobility as a means of tying the seemingly disparate qualities of Art

Deco together Michael Windover shows how the surface level expressions correspond as well with underpinning systems of mobility including those associated with migration transportation commodity exchange capital and communication Journeying across the globe from a skyscraper in Vancouver B C to a department store in Los Angeles and from super cinemas in Bombay Mumbai to radio cabinets in Canadian living rooms this richly illustrated book examines the reach of Art Deco as it affected public cultures Windover s innovative perspective exposes some of the socio political consequences of this mode of mobility and offers some reasons as to how and why Art Deco was incorporated into everyday lifestyles around the world
