## **Pacific Slope A History Of California:**

*The Pacific Slope* Earl Spencer Pomeroy, 1991 This work synthesizes the history of six western states by examining the historical forces that made the West what it is today It examines population movements and development patterns the consequences of geography and climate and the impact of changes in the technologies of transportation **Pacific Slope History, with Special Reference to California** Rockwell D. Hunt, 1918 *Resources of the Pacific Slope* John Ross Browne, 1869 *The Pacific Slope and Alaska* Joseph Schafer, 1904 California's Spiritual Frontiers Sandra Sizer Frankiel, 2023-04-28 California's Spiritual Frontiers Religious Alternatives in Anglo Protestantism 1850 1910 offers a profound exploration of how Anglo Protestantism evolved and adapted in California during a period of rapid cultural and societal transformation In a region where evangelical Protestantism initially sought to dominate the book reveals how traditional religious norms were challenged by liberal ideologies and metaphysical movements including Christian Science New Thought and Theosophy These alternative spiritual frameworks reshaped the religious landscape emphasizing individual spirituality mysticism and openness to non traditional beliefs The book vividly illustrates how California's unique social dynamics and cultural diversity fostered a distinctive blend of spiritual experimentation and adaptation Focusing on key regions such as the mining districts San Francisco Bay Area and early Los Angeles California's Spiritual Frontiers examines the interplay between traditional denominations emerging liberal thought and new metaphysical religions It details the challenges faced by Protestant leaders to maintain their influence amidst a largely unchurched population and the growing popularity of alternative spiritual paths This meticulously researched work not only provides a window into California's unique religious evolution but also contributes significantly to the broader study of American religious history highlighting the intersection of regional cultural and spiritual identities This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 **The Pacific in the Age of Early Industrialization** Kenneth Pomeranz, 2017-05-15 The essays selected for this volume show how the Pacific rapidly became part of an industrializing world Its raw materials notably rubber and copper were critical some of its handicraft industries were devastated by mechanized competition others survived and adapted contributing to distinctive patterns of industrialization that made Japan a new center of power and also laid the groundwork for later growth in Taiwan Korea and coastal China The Pacific coast of the Americas was also first drawn into an industrial world largely as an exporter of raw materials but North and South diverged rapidly portending futures even more different than those of Northeast and Southeast Asia By the 1930s when the uneven effects of industrialization would have much to do with plunging the Pacific into war one can already glimpse in outline the structural bases for many of the region's contemporary characteristics All this

is set in context in the important introduction by Kenneth Pomeranz      Chronology of the American West Scott C. Zeman, 2002-05-28 This four part chronology presents the unfolding of the American West from 23 000 B C E to A D 2001 Not long ago the story of the American West was an uncomplicated tale Its theme was The Winning of the West and its plot simply followed Euro Americans as they galloped across the continent But throughout the last two decades historians like Scott C Zeman have begun to examine the story and separate the myths from the facts Today the history of the American West is about the land itself about conquest and colonization about migration and social change Its heroes are not only white men but also women and children and peoples of African Asian Native American and European descent In this up to date chronology readers can explore hundreds of political social and cultural plot points from the arrival of the continent s first migrants more than 20 000 years ago to the Wounded Knee Massacre in 1890 and from the completion of the trans Alaska pipeline in 1977 to the shootings at Columbine High School in 2000      **California's Prodigal Sons** Spencer C. Olin, 2023-11-15 California s Prodigal Sons Hiram Johnson and the Progressives 1911 1917 provides an in depth examination of the transformative Progressive Era in California under the leadership of Governor Hiram W Johnson This study shifts the focus from ideological analysis to practical governance chronicling Johnson s efforts to implement reform and establish efficient public services that prioritized the public good over special interests With its chronological approach the book explores key legislative accomplishments addressing railroad control corruption labor conditions and resource management Drawing on newly available manuscripts including the Hiram Johnson Papers the book offers fresh insights into Johnson s administration and its lasting impact on state and national progressivism In addition to highlighting Johnson s reforms the book delves into the intense conflict between progressives and conservatives during this era culminating in the pivotal 1916 Hughes campaign which tested Johnson s political dominance The narrative captures the dynamic interplay of politics personality and policy revealing Johnson as a zealous leader whose identity was deeply intertwined with his reform agenda Through detailed analysis and rich historical context California s Prodigal Sons sheds light on the broader Progressive movement while offering a compelling portrait of a pivotal figure in California s history This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1968      Henry E. Huntington and the Creation of Southern California William B. Friedrichs, 1992 Henry E Huntington nephew and prot g of Southern Pacific Railroad magnate Collis Huntington decided to invest his fortune in developing interurban railroads serving the Los Angeles Basin beginning in 1898 and working through 1920 With enough capital to put railroads where he felt they would work best he exerted considerable influence on the early growth of Southern California He also invested in a number of other regional industries and as an avid collector of rare books and art he and his second wife Arabella created a notable

cultural legacy as well      *California & the Fictions of Capital* George L. Henderson, 1999 Between the frequently recounted events of the Gold Rush and the Great Depression stretches a period of California history that is equally crucial but less often acknowledged In his fresh synthetic consideration of these in between years George L Henderson points specifically to the take off of California's rural juggernaut between the 1880s and middle 1920s the upward spiral of city bids for country dollars and rural bids for urban investments These decades were salve for mining's risky finances yet groundwork for the chaotic 1930s Moreover Henderson argues that much like the two important periods which framed it this era produced a cultural and literary apparatus that attempted to grapple with capital's machinations if only to legitimate them in the end Central to *California and the Fictions of Capital* is a theory of how the circulation of capital wove itself into agriculture The book asks why it mattered to capital that agriculture was based in Nature and then explores the procedures through which images of Nature became central to capitalism's story of itself What unique possibilities did Nature offer to circuits of capital and what was their role in suturing the urban and rural together How did boom and bust intervene and set the pace for regional change How was capital linked to the racializing of working bodies And why was the capitalist imperative expressed in landscape alterations like irrigation Such are the key questions informing this bold far reaching volume Beyond political economy the book also looks to the rural juggernaut's cultural and literary work which was stamped by celebratory if fretful ruminations In all sorts of texts but especially in novels by Frank Norris Mary Austin Harold Bell Wright and many other writers difficult questions surfaced Capital was seen in terms of its spillage into rural frontiers just as rural frontiers were seen in terms of movements of capital Capital was the new geography of money But for whom did it work Which identities did it favor In mapping the real and imaginary realms that capital occupied Henderson locates the banker land developer and engineer heroes of California fiction as well as the fictionalized new woman of the capitalist agrarian West He unravels the colliding representations of race gender and class while linking their treatment to the naturalizing rhetoric of capital's agrarian turn In part a tour of California as a virtual laboratory for refining the circulation of capital and in part an investigation of how the state's literati with rare exception reconceived economy in the name of class gender and racial privilege this study will appeal to all students and scholars of California's and the American West's economic environmental and cultural past      *The Coming of the Frontier* Press Barbara Cloud, 2008-10-22 Western expansion and journalism have had a symbiotic relationship By examining this relationship along its entire timeline this book argues that newspapers played a crucial role in pushing aside both wildlife and Native Americans to make room for the settlers who would become their readers      *Property Rights in the Age of Enterprise*, 1997      *The Grizzly Bear*, 1929      **Letters from the Pacific Slope** Harvey Rice, 1870 Harvey Rice 1800-1891 a Cleveland lawyer and newspaper publisher and his wife traveled by rail to California in 1869 *Letters from the Pacific slope* 1870 contains Rice's account of that journey broken by side trips to Salt Lake City Carson City and Lake Tahoe Spending nearly a month in and near San Francisco the Rices sail south to San Pedro
