LA PACIFICATION

Et les Nuits de ses années de guerre en Algérie

LA CITÉ - ÉDITEUR

CHAPITRE PREMIER

LA TORTURE

Le Nation française, occidentale et chrétienne, poursuit en Algérie depuis trois ans une entreprise de violence contre l'humanité dont l'ampleur a déjà atteint d'horreur les peuples du monde.

Infammeusement, caractérisée par une évidente dépravation morale et intellectuelle, les soldats et les civils français en Algérie inscrivent les pages les plus sanglantes et aussi les plus honteuses de l'histoire du 20^e siècle.

L'armée ne sera pas indulgente pour la France qui avait jusqu'ici toujours sa grandeur dans l'élévation des tribus au delà du technique abaissement des tortures.

L'armée pourra aussi se demander avec une inquiète légitime les raisons qui ont dû à nos autres nations se défaire complaisamment devant cette gangrène.

En possession de toutes les armes, modernes et archaïques, nous nous devons d'apprécier au jour le jour les prétentions aux tortures monstrueuses évènements français.

Les peuples exposés dans leurs langages révoltés.

Faisons-elles savoir les jours de cruauté et de violence qui ne veulent pas voir en Algérie l'opinion internationale.

Human Rights in the Shadow of Colonial Violence Fabian Klose, 2013-04-22 Human Rights in the Shadow of Colonial Violence explores the relationship between the human rights movement emerging after 1945 and the increasing violence of decolonization. Based on material previously inaccessible in the archives of the International Committee of the Red Cross and the United Nations Human Rights Commission, this comparative study uses the Mau Mau War 1952-1956 and the Algerian War 1954-1962 to examine the policies of two major imperial powers, Britain and France. Historian Fabian Klose considers the significance of declared states of emergency, counterinsurgency strategy, and the significance of humanitarian international law in both conflicts. Klose's findings from these previously confidential archives reveal the escalating violence and oppressive tactics used by the British and French military during these anticolonial conflicts in North and East Africa, where Western powers that promoted human rights in other areas of the world were opposed to the growing global acceptance of freedom, equality, self-determination, and other postwar ideals. Practices such as collective punishment, torture, and extrajudicial killings did lasting damage to international human rights efforts until the end of decolonization. Clearly argued and meticulously researched, *Human Rights in the Shadow of Colonial Violence* demonstrates the mutually impacting histories of international human rights and decolonization, expanding our understanding of political violence in human rights discourse.

The Blood of the Colony Owen White, 2021-01-12 The surprising story of the wine industry's role in the rise of French Algeria and the fall of empire. We owe to wine a blessing far more precious than gold: the peopling of Algeria with Frenchmen. Stated agriculturist Pierre Berthault in the early 1930s: "In the last decades of the nineteenth century, Europeans had displaced Algerians from the colony's best agricultural land and planted grapevines. Soon enough, wine was the primary export of a region whose mostly Muslim inhabitants didn't drink alcohol. Settlers made fortunes while drawing large numbers of Algerians into salaried work for the first time. But the success of Algerian wine resulted in friction with French producers challenging the traditional view that imperial possessions should complement, not compete with, the metropole. By the middle of the twentieth century, amid the fight for independence, Algerians had come to see the rows of vines as an especially hated symbol of French domination. After the war, Algerians had to decide how far they would go to undo the transformations the colonists had wrought, including the world's fourth biggest wine industry." Owen White examines Algeria's experiment with nationalized wine production in worker-run vineyards, the pressures that resulted in the failure of that experiment, and the eventual uprooting of most of the country's vines. With a special focus on individual experiences of empire, from the wealthiest Europeans to the poorest laborers in the fields, *The Blood of the Colony* shows the central role of wine in the economic life of French Algeria and in its settler culture. White makes clear that the industry left a long-term mark on the development of the nation.

Political Terrorism A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism, it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into

submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against
