The Routledge Introduction to American War Literature Jennifer Haytock, 2018-05-11 War and violence have arguably been some of the strongest influences on literature but the relation is complex more than just a subject for story telling war tends to reshape literature and culture Modern war literature necessarily engages with national ideologies and this volume looks at the specificity of how American literature deals with the emotional intellectual social political and economic contradictions that evolve into and out of war Raising questions about how American ideals of independence and gender affect representations of war while also considering how specifically American experiences of race and class interweave with representations of combat this book is a rich and coherent introduction to these texts and critical debates

Naturalism in American Fiction John J. Conder, 2021-03-17 In this closely reasoned study John J Conder has created a new and more vital understanding of naturalism in American literature Moving from the Hobbesian dilemma between causation and free will down through Bergson s concept of dual selves Conder defines a view of determinism so rich in possibilities that it can serve as the inspiration of literary works of astonishing variety and unite them in a single though developing naturalistic tradition in American letters At the heart of this book beyond its philosophic discussion is Conder s reading of key works in the naturalistic canon beginning with Stephen Crane s The Open Boat and The Blue Hotel The special character of determinism in Crane is Conder holds the source of his complexity and striking originality He finds a stricter determinism in Norris s McTeague In Dreiser however the naturalistic tradition develops toward a fusion of determinism and freedom in a single work and this fusion in a different guise operates in Dos Passos s view of self in

Manhattan Transfer With Steinbeck's *The Grapes of Wrath* the uniting of determinism and freedom finds its fullest realization in the concept of dual selves one determined one free In Faulkner's *The Sound and the Fury* and *Absalom Absalom* the concept of the dual self appears in its most complex form The developments in the work of Steinbeck and Faulkner Conder believes bring the classic phase of American literary naturalism to a close Naturalism in American Fiction illuminates a group of major literary works and revives a theoretic consideration of naturalism It thus makes a fundamental contribution to American studies Writers and Their Craft Nicholas Delbanco, Laurence Goldstein, 1991 Based on material that first appeared as a two volume issue of Michigan quarterly review Distinguished writers of fiction discuss the creative process and the direction of American fiction in original essays interviews memoirs and short fiction Acidic paper Annotation copyrighted by Book News Inc Portland OR *The New Order of War*, 2010-01-01 Far from heralding a time of unprecedented peace the end of actually existing communism served to usher in new conflicts new wars and new reasons for war That much goes without saying What is controversial however is how we might understand and respond to these new wars This book offers a new approach Its distinctive and multidisciplinary range of perspectives offering quite different views is based on the conviction that if we are to begin to get to grips with this central feature of our 21st Century lives we have to go beyond an unhelpful moralism on the one hand and a defeatist appeal to human nature on the other **The Modern American Urban Novel** Arnold L. Goldsmith, 1991 Goldsmith challenges the view that nature is absent in the modern urban novel and interprets the phrase the interweaving of physical description and symbolism metaphor and characterization and theme and imagery that give internal form to external narrative He provides a textual analysis of seven 20th century American novels *Manhattan transfer* Studs Lonigan *Call it sleep* *The Dollmaker* *The Assistant* *The Pawnbroker* and *Mr Sammler's planet* Annotation copyrighted by Book News Inc Portland OR *Nightmare Envy and Other Stories* George Blaustein, 2018-01-05 What has it meant to be an Americanist What did it mean to be an Americanist through fascism war and occupation *Nightmare Envy and Other Stories* is a study of Americanist writing and institutions in the 20th century Four chapters trace four routes through the mid twentieth century The first chapter is the hidden history of American Studies in the United States Europe and Japan The second is the strange career of national character in anthropology The third is a contest between military occupation and cultural diplomacy in Europe The fourth is the emergence and fate of the American Renaissance as the scholar and literary critic F O Matthiessen carried a canon of radical literature across the Iron Curtain Each chapter culminates in the postwar period when the ruin of postwar Europe led writers and intellectuals on both sides of the Atlantic to understand America in new ways Many of our modern myths of the United States and Europe were formed in this moment Some saw the United States assume the mantle of cultural redeemer Others saw a stereotypical America rich in civilization but poor in culture overtake a stereotypical Europe rich in culture and equally rich in disaster Drawing on American and European archives the book weaves cultural intellectual and diplomatic history with portraits of Matthiessen

Margaret Mead Ruth Benedict David Riesman Alfred Kazin and Ralph Ellison It excavates the history of the Salzburg Seminar in American Civilization where displaced persons former Nazis budding Communists and glad handing Americans met on the common ground of American culture Others found keys to their own contexts in American books reading Moby Dick in the ruins Nightmare Envy and Other Stories chronicles American encounters with European disaster European encounters with American fiction and the chasms over which culture had to reach *The Oxford Encyclopedia of American Literature* Jay Parini,2004 The Encyclopedia of American Literature gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present At the core of the Encyclopedia lie 250 essays on poets playwrights essayists and novelists Figures such as Whitman Melville Faulkner Frost and Morrison are discussed in detail with each examined in the context of his or her times an assessment of the writer s current reputation a bibliography of major works and a list of major critical and biographical works about the writer Fifty entries on major works such as Moby Dick Song of Myself Walden The Great Gatsby The Waste Land Their Eyes Were Watching God Death of a Salesman and Beloved place the work in its historical context and offer a range of possibilities with regard to critical approach The Encyclopedia also contains essays on literary movements periods and themes pulling together a broad range of information and making connections between them Each entry has its own primary and annotated secondary bibliography and a system of cross references helps readers locate information with ease The Encyclopedia of American Literature is an outstanding reference source for students studying authors or particular pieces of literature libraries looking for one comprehensive source and readers interested in American literature its authors and its connection with various areas of study *Tattoos, Desire and Violence* Karin Beeler,2015-01-27 Whether they graphically depict an individual s or a community s beliefs express the defiance of authority or brand marginalized groups tattoos are a means of interpersonal communication that dates back thousands of years Evidence of the tattoo s place in today s popular culture is all around in advertisements on the stereotypical outlaw character in films and television in supermarket machines that dispense children s wash away tattoos and even in the production of a tattooed Barbie doll This book explores the tattoo s role primarily as an emblem of resistance and marginality in recent literature film and television The association of tattoos with victims of the Holocaust slaves and colonized peoples with gangs inmates and other marginalized groups and the connection of the tattoo narrative to desire and violence are discussed at length **What America Read** Gordon Hutner,2009-11-05 Despite the vigorous study of modern American fiction today s readers are only familiar with a partial shelf of a vast library Gordon Hutner describes the distorted canonized history of the twentieth century American novel as a record of modern classics insufficiently appreciated in their day but recuperated by scholars in order to shape the grand tradition of Hemingway Fitzgerald and Faulkner In presenting literary history this way Hutner argues scholars have forgotten a rich treasury of realist novels that recount the story of the American middle class s confrontation with modernity Reading these novels now

offers an extraordinary opportunity to witness debates about what kind of nation America would become and what place its newly dominant middle class would have and Hutner suggests should also lead us to wonder how our own contemporary novels will be remembered **Companion to Literature** Abby H. P. Werlock, 2009 Praise for the previous edition Booklist RBB Twenty Best Bets for Student Researchers RUSA ALA Outstanding Reference Source useful Recommended for public libraries and undergraduates **Art World and Arts & Decoration** ,1926 **Arts & Decoration** ,1926 **Arts & Decoration Combined with the Spur** ,1925 *Sacrifice and Modern War Literature* Alex Houen, Jan-Melissa Schramm, 2018-06-17 *Sacrifice and Modern War Literature* is the first book to explore how writers from the early nineteenth century to the present have addressed the intimacy of sacrifice and war It has been common for critics to argue that after the First World War many of the cultural and religious values associated with sacrifice have been increasingly rejected by writers and others However this volume shows that literature has continued to address how different conceptions of sacrifice have been invoked in times of war to convert losses into gains or ideals While those conceptions have sometimes been rooted in a secular rationalism that values lost lives in terms of political or national victories spiritual and religious conceptions of sacrifice are also still in evidence as with the martyrdom operations of jihadis fighting against the war on terror Each chapter presents fresh insights into the literature of a particular conflict and the contributions explore major war writers including Wordsworth Kipling Ford Madox Ford and Elizabeth Bowen as well as lesser known authors such as Dora Sigerson Richard Aldington Thomas Kinsella and Nadeem Aslam The volume covers multiple genres including novels poetry particularly elegy and lyric memoirs and some films The contributions address a rich array of topics related to wartime sacrifice including scapegoating martyrdom religious faith tragedy heroism altruism bare life atonement and redemption
