***Ships of Wood and Men of Iron*** Gerard Kenney, 2005-09-12 In the barren lands of Canada far north of the Arctic circle summers are quick and cool mere short interruptions in the true business of the polar regions winter Winters there can be dangerous with temperatures that plunge to awesome depths during the long lonely hours of Arctic darkness Powerful blizzards shriek across the land for days at a time causing all animal life to seek shelter from the cutting blast essentially putting a temporary end to normal activities of life such as travelling and eating It is an unforgiving land that does not easily suffer fools Over 100 years ago in June 1898 Captain Otto Sverdrup and 15 crewmen put out to sea aboard the schooner *Fram* from the Norwegian city today known as Oslo When they returned to Norway four years later they came back with a record of geographic and scientific discovery the richness of which is unparalleled in the annals of Arctic exploration The first section of this book is the story of those four heroic years spent in the High Arctic and their impact on Canada's subsequent efforts to ensure Canadian sovereignty in the area of the Norwegian discoveries The second section of the book deals with the Canadian Arctic expeditions between 1903 and 1948 led by intrepid men such as A P Low Joseph E Bernier Vilhjalmur Stefansson and Henry Larsen For anyone interested in the recent history of the Canadian North and why we even call it the Canadian North *Ships of Wood and Men of Iron* is a must read Kenney persuasively nominates a shortlist of new national heroes for a country badly in need of them Randy Boswell CanWest News Service In my view this book will be an important document about Canada Norway relations in the North especially considering the increased international emphasis now on circumpolar relations in the North Shirley Wolff Serafini Canadian Ambassador to Norway This book is a well deserved recognition of one of Norway's most famous polar explorers and his invaluable contributions to the exploration and development of science in the Canadian Arctic Gerard Kenney's book also sheds an

interesting new light on the history of the final settlement of Norway's territorial claim of the Sverdrup Islands Ingvard Havnen former Norwegian Ambassador to Canada

**Dangerous Passage** Gerard Kenney, 2006-05-29 Over the five hundred or so years that man searched for an elusive sea passage from Europe to Asia through the North American land mass dozens of ships were lost and hundreds of mariners died Eventually a sea route stretching through the waters of the archipelago and along Canada's mainland Arctic coast was pieced together But could ships navigate the Northwest Passage to the extent that it could be used as an international shipping route Two seagoing captains and their ships a Norwegian Roald Amundsen and a Canadian of Norwegian birth Henry Asbjorn Larsen answered that question in the first half of the 20th century The first part of this book recounts their successful efforts The second part addresses the many unsettling environmental and sovereignty issues concerning the future of the Northwest Passage in this time of melting ice caps glaciers and sea ice in the Arctic

*On Polar Tides* Nigel Foster, 2016-09-23 In 1981 Nigel Foster flew to Canada's Baffin Island to

begin a solo kayak trip south toward northern Labrador After crossing the 40 mile wide Hudson Strait in howling winds and fighting a 10 knot tide race Foster crash landed on a small island in the dark He had frostbitten fingers and was 300 miles from the closest village With unimaginable good fortune eight days later he ran across an oil tanker and hitched a ride south He had survived marking one of the most notable solo crossings in history but the failure of the second portion of the trip he had originally planned haunted him In 2004 Foster returned to northern Labrador with his then girlfriend now wife Kristin Nelson Launching from Kuujuaq in Northern Quebec the couple paddled the Ungava Bay coast which has one of the largest tidal variances in the world to the place Foster had boarded the oil tanker 23 years earlier From this remote location the couple completed the trip to Nain that Foster originally planned for 1981 They encountered more polar bears than people The story of the two trips forms the backbone for *On Polar Tides* Originally self published as *Stepping Stones* in 2009 which offers an intimate and insightful view of Ungava and Labrador The new revised edition includes gripping recollections of the polar adventures and 54 color photographs
