Moyer, 2011-07-07 In a series of studies Ian Moyer explores the ancient history and modern

historiography of relations between Egypt and Greece from the fifth century BCE to the early Roman empire Beginning with Herodotus he analyzes key encounters between Greeks and Egyptian priests the bearers of Egypt's ancient traditions Four moments unfold as rich micro histories of cross cultural interaction Herodotus interviews with priests at Thebes Manetho's composition of an Egyptian history in Greek the struggles of Egyptian priests on Delos and a Greek physician's quest for magic in Egypt In writing these histories the author moves beyond Orientalizing representations of the Other and colonial metanarratives of the civilizing process to reveal interactions between Greeks and Egyptians as transactional processes in which the traditions discourses and pragmatic interests of both sides shaped the outcome The result is a dialogical history of cultural and intellectual exchanges between the great civilizations of Greece and Egypt *Augustus and the Family at the Birth of the Roman Empire* Beth Severy, 2004-02-24 In this lively and detailed study Beth Severy examines the relationship between the emergence of the Roman Empire and the status and role of this family in Roman society The family is placed within the social and historical context of the transition from republic to empire from Augustus' rise to sole power into the early reign of his successor Tiberius *Augustus and the Family at the Birth of the Roman Empire* is an outstanding example of how if we examine private issues such as those of family and gender we gain a greater understanding of public concerns such as politics religion and history Discussing evidence from sculpture to cults and from monuments to military history the book pursues the changing lines between public and private family and state that gave shape to the Roman imperial system

Dio: the Julio-Claudians Jonathan Edmondson, 2023-10-19 Selections from Cassius Dio's account of the Julio Claudians in new English translations to support ancient history students **Power, Politics and the Cults of Isis**, 2014-07-24 In the Hellenistic and Roman world intimate relations existed between those holding power and the cults of Isis This book is the first to chart these various appropriations over time within a comparative perspective Ten carefully selected case studies show that the Egyptian gods were no exotic outsiders to the Hellenistic and Roman Mediterranean but constituted a well institutionalised and frequently used religious option Ranging from the early Ptolemies and Seleucids to late Antiquity the case studies illustrate how much symbolic meaning was made with the cults of Isis by kings emperors cities and elites Three articles introduce the theme of Isis and the longue durée theoretically simultaneously exploring a new approach towards concepts like ruler cult and Religionspolitik *Horace and the Gift Economy of Patronage* Phebe Lowell Bowditch, 2001-03-02 This innovative study explores selected odes and epistles by the late first century poet Horace in light of modern anthropological and literary theory Phebe Lowell Bowditch looks in particular at how the relationship between Horace and his patron Maecenas is reflected in these poems themes and rhetorical figures Using anthropological studies on gift exchange she uncovers an implicit economic dynamic in these poems and skillfully challenges standard views on literary patronage in this period *Horace and the Gift Economy of Patronage* provides a striking new understanding of Horace's poems and the Roman system of patronage and also demonstrates the relevance of New Historicist and Marxist critical paradigms

for Roman studies In addition to incorporating anthropological and sociological perspectives Bowditch's theoretical approach makes use of concepts drawn from linguistics deconstruction and the work of Michel Foucault She weaves together these ideas in an original approach to Horace's use of golden age imagery his language concerning public gifts or munera his metaphors of sacrifice and the rhetoric of class and status found in these poems Horace and the Gift Economy of Patronage represents an original approach to central issues and questions in the study of Latin literature and sheds new light on our understanding of Roman society in general

Nicaea and the Future of Christianity George E. Demacopoulos, Aristotle Papanikolaou, 2025-07-01 Commemorating the 1700th anniversary of the Council of Nicaea this volume offers an original examination of the enduring impact of the single most famous gathering of Christians since the apostolic age Despite the longstanding historical and theological study of the Council of Nicaea several central questions remain Was Nicaea a theological event or a political one What does it mean if it was both Was Constantine's intervention without precedent or was he simply continuing a long standing role of a Roman emperor who was responsible for leading a religious cult albeit now for a different faith tradition And what about the actual theological debates of Nicaea and our ability to understand them Scholars might never exhaust this avenue of inquiry despite the numerous studies in recent decades For many scholars and Christian activists today the significance of Nicaea centers around the idea of conciliarity and what this has meant both historically and theologically for the Christian community Why and how did Nicaea become foundational for thinking that the church operates in a conciliar manner How did that work historically in different parts of the Christian world And how should it work today Nicaea and the Future of Christianity offers a fresh globally diverse ecumenically minded approach to these questions with an impressive collection of both senior and junior scholars reflecting a diversity of views within the Orthodox Catholic and Protestant traditions The great benefit of this wide ranging approach lies precisely in its ability to see the many ways in which Nicaea continues to speak to the future of Christianity

Representations of Early Byzantine Empresses A. McClanan, 2016-04-30 This book reconsiders a wide array of images of Byzantine empresses on media as diverse as bronze coins and gold mosaic from the fifth through to the seventh centuries A D The representations have often been viewed in terms of individual personas but strong typological currents frame their medieval context Empress Theodora the target of political pornography has consumed the bulk of past interest but even her representations fit these patterns Methodological tools from fields as disparate as numismatics as well as cultural and gender studies help clarify the broader cultural significance of female imperial representation and patronage at this time

Conflict and Community in Corinth Ben Witherington, 1995-01-24 This unprecedented commentary applies an exegetical method informed by both sociological insight and rhetorical analysis to the study of 1 and 2 Corinthians In addition to using traditional exegetical and historical methods this unique study also analyzes the two letters of Paul in terms of Greco Roman rhetoric and ancient social conditions and customs to shed fresh light on the context and content of Paul's message Includes 21 black and white photos and illustrations

The Patrician Tribune W. Jeffrey Tatum, 2014-02-25 Publius Clodius Pulcher was a prominent political figure during the last years of the Roman Republic Born into an illustrious patrician family his early career was sullied by military failures and especially by the scandal that resulted from his allegedly disguising himself as a woman in order to sneak into a forbidden religious ceremony in the hope of seducing Caesar's wife Clodius survived this disgrace however and emerged as a major political force He renounced his patrician status and was elected tribune of the people As tribune he pursued an ambitious legislative agenda winning the loyalties of the common people of Rome to such a degree that he was soon able to summon forceful even violent demonstrations on his own behalf The first modern comprehensive biography of Clodius The Patrician Tribune traces his career from its earliest stages until its end in 52 B C when he was murdered by a political rival Jeffrey Tatum explores Clodius's political successes as well as the limitations of his popular strategies within the broader context of Roman political practices In the process Tatum illuminates the relationship between the political contests of Rome's elite and the daily struggles of Rome's urban poor

Christ's Associations John S. Kloppenborg, 2019-11-26 A groundbreaking investigation of early Christ groups in the ancient Mediterranean As an urban movement the early groups of Christ followers came into contact with the many small groups in Greek and Roman antiquity Organized around the workplace a deity a diasporic identity or a neighborhood these associations gathered in small face to face meetings and provided the principal context for cultic and social interactions for their members Unlike most other groups however about which we have data on their rules of membership financial management and organizational hierarchy we have very little information about early Christ groups Drawing on data about associative practices throughout the ancient world this innovative study offers new insight into the structure and mission of the early Christ groups John S Kloppenborg situates the Christ associations within the broader historical context of the ancient Mediterranean and reveals that they were probably smaller than previously believed and did not have a uniform system of governance and that the attraction of Christ groups was based more on practice than theological belief

The Economy of Roman Religion Andrew Wilson, Nick Ray, Angela Trentacoste, 2023-06-07 This interdisciplinary edited volume presents twelve papers by Roman historians and archaeologists discussing the interconnected relationship between religion and the Roman economy over the period c 500 BC to AD 350 The connection between Roman religion and the economy has largely been ignored in work on the Roman economy but this volume explores the many complex ways in which economic and religious thinking and activities were interwoven from

individuals to institutions The broad geographic and chronological scope of the volume engages with a notable variety of evidence epigraphic archaeological historical papyrological and zooarchaeological In addition to providing case studies that draw from the rich archaeological documentary and epigraphic evidence the volume also explores the different and sometimes divergent pictures offered by these sources from discrepancies in the cost of religious buildings to the tensions between piety and ostentatious donation The edited collection thus bridges economic social and religious themes The volume provides a view of a society in which religion had a central role in economic activity on an institutional to individual scale The volume allows an evaluation of impact of that activity from both financial and social viewpoints providing a new perspective on Roman religion a perspective to which a wide range of archaeological and documentary evidence from animal bone to coins and building costs has contributed As a result this volume not only provides new information on the economy of Roman religion it also proposes new ways of looking at existing bodies of evidence
