## **Pages From A Workers Life:**

**"Women, Workers, and Race in LIFE Magazine "** Dolores Flamiano, 2017-07-05 The tension between social reform photography and photojournalism is examined through this study of the life and work of German girl Gansel Mieth 1909-1998 who made an unlikely journey from migrant farm worker to LIFE photographer. She was the second woman in that role after Margaret Bourke White. Unlike her colleagues, Mieth was a working class reformer with a deep disdain for LIFE's conservatism and commercialism. In fact, her work often subverted LIFE's typical representations of women workers and minorities. Some of her most compelling photo essays used skillful visual storytelling to offer fresh views on controversial topics: birth control, vivisection, labor unions, and Japanese American internment during the Second World War. Her dual role as reformer and photojournalist made her a desirable commodity at LIFE in the late 1930s and early 40s, but this role became untenable in Cold War America when her career was cut short. Today, Mieth's life and photographs stand as compelling reminders of the vital yet overlooked role of immigrant women in twentieth-century photojournalism. *Women, Workers, and Race in LIFE Magazine* draws upon a rich array of primary sources, including Mieth's unpublished memoir, oral histories, and labor archives. The book seeks to unravel and understand the multi-layered, often contested stories of the photographer's life and work. It will be of interest to scholars of photography history, women's studies, visual culture, and media history. *Pages from a Worker's Life* William Zebulon Foster, 1978 **History from the Bottom Up and the Inside Out** James R.

Barrett, 2017-08-04 James R. Barrett rethinks the boundaries of American working class history by investigating the ways in which working class people's personal lives intersected with their activism and religious, racial, ethnic, and class identities.

*Forging American Communism* Edward P. Johanningsmeier, 2014-07-14 A major figure in the history of twentieth-century American radicalism, William Z. Foster (1881-1961) fought his way out of the slums of turn-of-the-century Philadelphia to become a professional revolutionary as well as a notorious and feared labor agitator. Drawing on private family papers, FBI files, and recently opened Russian archives, this first full-scale biography traces Foster's early life as a world traveler, railroad worker, seaman, hobo, union activist, and radical journalist, and also probes the origins and implications of his ill-fated career as a top echelon Communist official and three-time presidential candidate. Even though Foster's long and eventful life ended in Moscow, where he was given a state funeral in Red Square, he was portrayed here as a thoroughly American radical. The book not only reveals the circumstances of Foster's poverty-stricken childhood in Philadelphia but also vividly describes his work and travels in the American West. Also included are fascinating accounts of his early political career as a Socialist, Wobbly, and anarcho-syndicalist, and of his activities as the architect of giant organizing campaigns by the American Federation of Labor involving hundreds of thousands of workers in the meatpacking and steel industries. The author views Foster's influence in the American Communist movement from the perspective of the history of American labor and unionism, but he also offers a realistic assessment of Foster's career in light of factional intrigues at the highest levels of the Communist International.

Labor's Canvas Laura Hapke, 2009-03-26 At an unprecedented and probably unique American moment laboring people were indivisible from the art of the 1930s By far the most recognizable New Deal art employed an endless frieze of white or racially ambiguous machine proletarians from solo drillers to identical assembly line toilers Even today such paintings particularly those with work themes are almost instantly recognizable Happening on a Depression era picture one can see from a distance the often simplified figures the intense or bold colors the frozen motion or flattened perspective and the uniformity of laboring bodies within an often naive realism or naturalism of treatment In a kind of Social Realist dance the FAP's imagined drillers haulers construction workers welders miners and steel mill workers make up a rugged industrial army In an unusual synthesis of art and working class history Labor's Canvas argues that however simplified this golden age of American worker art appears from a post modern perspective The New Deal's Federal Art Project FAP under the aegis of the Works Progress Administration WPA revealed important tensions Artists saw themselves as cultural workers who had much in common with the blue collar workforce Yet they struggled to reconcile social protest and aesthetic distance Their canvases prints and drawings registered attitudes toward laborers as bodies without minds often shared by the wider culture In choosing a visual language to reconnect workers to the larger society they tried to tell the worker from the work with varying success Drawing on a wealth of social documents and visual narratives Labor's Canvas engages in a bold revisionism Hapke examines how FAP iconography both chronicles and reframes working class history She demonstrates how the New Deal's artistically rendered workforce history reveals the cultural contradictions about laboring people evident even in the depths of the Great Depression not the least in the imaginations of the FAP artists themselves
