establishing that the three disciplines were integral to faith formation in the early church but were separated through the centuries An in depth analysis of six selected catechisms reveals that popular religion as a combination of faith and culture was evident at the beginning of Hispanic Catholicism in the sixteenth century The investigation notes the gradual elimination and eventual replacement of the cultural aspects in the catechetical texts in the nineteenth century The author concludes that the reunification of the cultural spiritual symbols with the presentation of doctrine could revitalize catechesis and bring Christian evangelization to a renewed effectiveness Ethnic Labels, Latino Lives Suzanne Oboler,1995 Hispanic or Latino Mexican American or Chicano Social labels often take on a life of their own beyond the control of those who coin them or to whom they are applied In Ethnic Labels Latino Lives Suzanne Oboler explores the history and current use of the label Hispanic as she illustrates the complex meanings that ethnicity has acquired in shaping our lives and identities Exploding the myth of cultural and national homogeneity among people of Latin American descent Oboler interviews members of diverse groups who have traditionally been labeled Hispanic and records the many different meanings and social values they attribute to this label For example a person of Mexican descent has a different historical relationship with the United States and a different cultural background than an individual of Puerto Rican or Brazilian descent The different meanings and social values those interviewed attribute to the label Hispanic also correspond to their gender and social class position including racial prejudices and values stemming from their countries of origin Though we have witnessed in recent years the fading of the idealized image of U S society as a melting pot we have also realized that the possibility of recasting it in multicultural terms is problematic Oboler discusses the historical process of labeling groups of individuals illustrating how labels affect the meaning of citizenship and the struggle for full social participation in the United States Ethnic Labels Latino Lives aims to understand the role ethnic labels play in our society and brings us closer toward actualizing a society that values cultural diversity Social Controversy and Public Address in the 1960s and Early 1970s Richard J. Chavez's speeches and writings chronicle his progression and development as a leader and includes previously unpublished material. From speeches to spread the word of the Delano Grape Strike to testimony before the House of Representatives about the hazards of pesticides, Chavez communicated in clear, direct language and motivated people everywhere with an unflagging commitment to his ideals. **Marginal Conventions** Clinton Sanders, 1990. *Marginal Conventions* contains twelve essays by social scientists centering around the general connections between popular culture and deviant behavior. In addition to speaking to the commonsensical view that exposure to representations of misbehavior makes people misbehave, this collection focuses on media presentations of crime, violence, and villainy; the utility of deviance as a theme for societal elites; and the taste publics centered around disreputable products and rituals.

Beyond Ethnicity Werner Sollors, 1986. Argues that Americans have more in common with each other than with their ethnic ancestors.

*Focus on Minorities* Fort Bragg (N.C.). Library, 1973.

Racism in Contemporary America Meyer Weinberg, 1996-05-23. *Racism in Contemporary America* is the largest and most up-to-date bibliography available on current research on the topic. It has been compiled by award-winning researcher Meyer Weinberg, who has spent many years writing and researching contemporary and historical aspects of racism. Almost 15,000 entries to books, articles, dissertations, and other materials are organized under 87 subject headings. In addition, there are author and ethnic racial indexes. Several aids help the researcher access the materials included. In addition to the subject organization of the bibliography, entries are annotated whenever the title is not self-explanatory. An author index is followed by an ethnic racial index, which makes it convenient to follow a single group through any or all the subject headings. This is a source book for the serious study of America's most enduring problem, as such it will be of value to students and researchers at all levels and in most disciplines.

*The Rhetorical Career of Cesar Chavez* John C. Hammerback, Richard J. Jensen, 2003-04. Although born into one of the least powerful segments of American society, Cesar Chavez led the farm labor movement to unprecedented heights. His powerful effect on audiences is well known, but award-winning scholars John C. Hammerback and Richard J. Jensen offer the first explanation of how Chavez achieved that effect. Although other studies of Chavez exist, none has examined so thoroughly his rhetoric nor analyzed in depth such a large number of Chavez's own texts, scores of which have previously been unstudied. Chavez was an indefatigable speaker, writer, and non-discursive communicator who developed a well-thought-out approach to his rhetorical discourse and placed his speaking and writing at the very center of his career. By merging thought and character in his themes, arguments, and explanations, and in his first and second personae, Chavez was able to identify with the character of his listeners. That identification induced many audience members

to support Chavez's agenda for union activism. The authors have developed a model to help explain Chavez's startling transformation of some audiences and persuasion of others. Hammerback and Jensen reveal that Chavez's world view motivated him to work tirelessly and directed him to the particular rhetorical qualities and techniques that characterized his discourse. The authors also demonstrate Chavez's surprising effectiveness as a rhetor despite his soft-spoken style, uncharacteristic of most powerful orators. *Chicano Educational Achievement* Elena Aragon de McKissack, 2014-04-23

First published in 2000. This study compares two urban schools based on their ability to provide an effective education for Hispanic students. Broderick High School began as an elite Anglo-dominated institution and evolved into a school whose student body was 82% Hispanic. It is large, public, and with a history of sporadic racial tension, walkouts, and a high dropout rate for Hispanic students. Escuela Tlatelolco is small, private, and Chicano-centric. Founded in 1970 by Rodolfo Corky Gonzales, a leader of the Chicano Civil Rights Movement, it was designed to provide Chicano students the opportunity to reinforce pride in their language, culture, and identity. Through interviews of administrators, teachers, graduates, and students at both schools, as well as personal observations, a significant difference was discovered between the experiences and attitudes of those who attended the public school in the 1960s through 1980s and those who graduated in the 1990s. As the public school increased Hispanic administration, teaching, and operating staff, and changed its curriculum to include Hispanic history, Hispanic students expressed a greater degree of satisfaction and fulfillment. **Group Workers at Work** Paul H.
