GPS: Finding Direction on Your Faith and Life Journey John Strommen,2024-07-31 What s the point of it all In the postmodern world the meaning and direction of human existence is increasingly a question mark with few satisfying answers forthcoming People of faith are not immune to such questions as they struggle to meaningfully connect their faith to their daily lives In GPS Finding Direction on Your Faith and Life Journey Strommen makes the case that much of this existential struggle is born of an anthropocentric worldview that has banished God to the margins leaving humans with the futile task of playing God as they attempt to create their own meaning purpose and identity Drawing on core Christian understandings through a Lutheran lens the author asserts that life giving meaning and purpose are gifts given by God alone who frees people from their self justifying ways to take an inventory of their many gifts and participate in a new creation where love of neighbor is the social currency It is the core theme of this book that God is in fact present deeply invested and at work in the everyday world calling everyone daily to partner with God to co create a more trustworthy loving and hopeful world

[Adult Baby](#) Dylan Lewis,2020-09-20 Understanding Knowledge Insight It is the goal of most people and humanity in general to understand and to gain knowledge To understand our natural world To understand space To understand those things so tiny we can never see them We want to understand what other people are saying insight into what they are feeling and what makes them tick For most people it is natural to want to understand more about a wide variety of topics and disciplines Perhaps the most important understanding of them all is the knowledge of self Adult babies have traditionally not fared well in the area of understanding of ourselves The few professional attempts to explain ABDL behaviour and thinking have been less than helpful and often insulting and deeply offensive Being described as a paraphilia alongside and adjacent to paedophilia and other serious disorders has been the nightmare that has haunted the community for a generation Slowly however the light has been dawning on the extraordinary world of the adult baby The first step was the recognition that being an adult baby is no mere affectation fetish or odd choice of behaviour It was the understanding that the baby self is a genuine and subjectively real identity Not a thing not a concept or a feeling but an identity A few professionals have belatedly drifted onto the scene and made a few inroads but they have been well behind the small group of hard working

ABDLs themselves who have sought to build a body of understanding on who we are Knowing who we are is the key to success happiness and the ability to move forward The works of B Terrance Grey Rosalie and Michael Bent led the way to building an intellectual basis of understanding of who Adult babies are Then came Dylan Lewis whose canon of work in this area has no peer This new book Living Happily as an Adult Baby makes a promise in its title that is almost obscene in its arrogance Adult Babies have often struggled with the power of their baby identity and happiness especially long term happiness has often eluded them This work is commended to all adult babies their family and friends as it seeks to further humanity s understanding of this most complex identity structure The Adult Baby
