Painted Veils James Hunecker, 2022-05-29 James Hunecker's *Painted Veils* delves into the intricate interplay of sexuality, love, mortality, and the artistic temperament, offering an incisive glimpse into the lives of bohemian New Yorkers. Its prose, rife with voluptuousness and astute observations, provides a narrative that both exalts and questions the excesses and ephemeral pleasures of life. Set within the literary context of the early 20th century, a period of great change and exploration in arts and mores, *Painted Veils* stands out for the honesty and boldness with which it addressed topics that were deemed taboo at the time, making it a provocative and avant-garde read that startled its contemporary audiences. James Hunecker, an esteemed music and art critic of his era, channeled his vast experiences and interactions with the cultural elite into this novel. His keen insight into the psyche of the artist and their circle in New York City at the dawn of modernism lends a credible and engaging backdrop to this fiction. The author's expertise and fascination with the bohemian lifestyle have imbued his work with a richness and a palpable sense of realism that is both captivating and enlightening. *Painted Veils* is recommended for readers who appreciate a historically grounded exploration of societal norms and the intricacies of human desires. Hunecker's narrative invites contemplation and provides a lens through which the present-day reader can examine the cultural controversies and artistic innovations of the past. As a snapshot of an era now distant, this book will especially resonate with those interested in the evolution of social mores, the intellectual ferment of New York life in the early twentieth century, and the timeless complexities of human nature.

Painted Veils James Hunecker, 1920 The hero is a worldly young drama critic who falls in love with a soprano who refuses to let any emotion halt her career. He courts a Good Girl who fantasizes dream children and exercises his lust on a perky trollop. Others in the Hunecker salon are a gossipy music critic and a seminarian who flies too close to the sun. Lyric poetry as a temporal art form makes pervasive use of narrative elements in organizing the progressive course of the poetic text. This observation justifies the application of the advanced methodology of narratology to the systematic analysis of lyric poems. After a concise presentation of this transgeneric approach to poetry, the study sets out to demonstrate its practical fruitfulness in detailed analyses of a large number of English and some American poems from the early modern period to the present. The narratological approach proves particularly suited to focus on the hitherto widely neglected dimension of sequentiality, the dynamic progression of the poetic utterance and its eventful turns, which largely constitute the *raison d'être* of the poem. To facilitate comparisons, the examples chosen share one special thematic complex: the traumatic experience of severe loss, the death of a beloved person, the imminence of one's own death, the death of a revered fellow poet, and the loss of a fundamental stabilizing order. The function of the poems can be described as facing the traumatic experience in the poetic medium and employing various coping strategies. The poems thus possess a therapeutic impetus. **Heritage Rare Books Auction #6025**, *Sale Catalogues* American Art Association, Anderson Galleries
