Elephants & Kings Thomas R. Trautmann, 2015-08-03 Because of their enormous size elephants have long been irresistible for kings as symbols of their eminence In early civilizations such as Egypt Mesopotamia the Indus Civilization and China kings used elephants for royal sacrifice spectacular hunts public display of live captives or the conspicuous consumption of ivory all of them tending toward the elephant's extinction The kings of India however as Thomas R Trautmann shows in this study found a use for elephants that actually helped preserve their habitat and numbers in the wild war Trautmann traces the history of the war elephant in India and the spread of the institution to the west where elephants took part in some of the greatest wars of antiquity and Southeast Asia but not China significantly a history that spans 3 000 years and a considerable part of the globe from Spain to Java He shows that because elephants eat such massive quantities of food it was uneconomic to raise them from birth Rather in a unique form of domestication Indian kings captured wild adults and trained them one by one through millennia Kings were thus compelled to protect wild elephants from hunters and elephant forests from being cut down By taking a wide angle view of human elephant relations Trautmann throws into relief the structure of India's environmental history and the reasons for the persistence of wild elephants in its forests

Madhubani Painting, 2003 The present work contains a brief study of the various facets of Mithila folk arts and paintings which are unique in character having few parallels Of late there has been great talk about this painting the central inspiration of which revolves round popular religious themes and natural surroundings They reflect the self control and serenity of Maithila life and the definite theocratic and aristocratic organizations of Maithila society The women painters of Mithila aimed at giving clear and edifying expression to certain intuitions which formed part of their religion The different forms of floor drawings Aripana and walk paintings bhatti citra provide information on customs and costumes and rituals and religion which otherwise may remain unnoticed The volume further explains in detail the religious and spiritual significance of the folk arts and paintings of Mithila by means of copious references to Sanskrit texts both sacred and secular The paintings as they are constitute not merely a heap of drawings but a visible symbol of aspirations of pious ladies and the throbbings of their hearts in religious fervour A work of inestimable interest both for the specialist and for the connoisseur interested in the study of Indian paintings this comprehensive and authoritative volume on Madhubani painting and other folk arts of Mithila will prove of immense help to students of Indian culture
