Subtle and wide-ranging in its account, this study explores the impact of Australian art in Britain in the two decades following the end of World War II and preceding the Swinging Sixties. In a transitional period of decolonization in Britain, Australian painting was briefly seized upon as a dynamic and reinvigorating force in contemporary art, and a group of Australian artists settled in London where they held centre stage with group and solo exhibitions in the capital's most prestigious galleries. The book traces the key influences of Sir Kenneth Clark, Bernard Smith, and Bryan Robertson in their various and varying roles as patrons, ideologues, and entrepreneurs for Australian art, as well as the self-definition and interaction of the artists themselves. Simon Pierse interweaves multiple issues of the period into a cohesive historical narrative, including the mechanics of the British art world, the limited and frustrating cultural scene of 1950s Australia, and the conservative influence of Australian government bodies. Publishing for the first time archival material, letters, and photographs previously unavailable to scholars either in Britain or Australia, this book demonstrates how the work of expatriate Australian artists living in London constructed a distinct vision of Australian identity for a foreign market.

After Modernist Painting Craig Staff, 2025-01-23 This book presents both a historical survey and a critical re-evaluation of the contested and contingent nature of the medium of painting over the last 60 years. Offering a critical account of painting specifically rather than art more generally, *After Modernist Painting* provides a timely exploration of what has remained a persistent and protean medium. Taking Clement Greenberg's *Modernist Painting* as its starting point, the book focuses on certain developments, including the relationship of painting to Conceptual Art and Minimalism, the pronouncement of painting's alleged death, its response to Installation Art's foregrounding of site, how painting both images and imagines the digital, and how it continues to embody a particular set of ideas and responses to the world. Revised and expanded to reflect developments in the field since the first edition was published in 2013, *After Modernist Painting* addresses a range of global artists and painting practices, from the Dansaekhwa art movement in South Korea to the Conceptualism of Geta Bratescu in 1970s Romania. Essential reading for students on fine arts painting courses, the book is an invaluable resource for those seeking to understand the themes and issues that have pertained to painting within the context of postmodernism and

contemporary artistic practice and also provides a valuable starting point for other more specialized histories of particular painters *The Art Journal* ,1857
