**The World Viewed** Stanley Cavell, 1979 In their thoughtful study of one of Stanley Cavell's greatest yet most neglected books William Rothman and Marian Keane address this eminent philosopher's many readers from a variety of disciplines who have neither understood why he has given film so much attention nor grasped the place of *The World Viewed* within the totality of his writings about film Rothman and Keane also reintroduce *The World Viewed* to the field of film studies When the new field entered universities in the late 1960s it predicated its legitimacy on the conviction that the medium's artistic achievements called for serious criticism and on the corollary conviction that no existing field was capable of the criticism filmed called for The study of film needed to found itself intellectually upon a philosophical investigation of the conditions of the medium and art of film Such was the challenge *The World Viewed* took upon itself However film studies opted to embrace theory as a higher authority than our experiences of movies divorcing itself from the philosophical perspective of self reflection apart from which *The World Viewed* teaches we cannot know what movies mean or what they are Rothman and Keane now argue that the poststructuralist theories that dominated film studies for a quarter of a century no longer compel conviction Cavell's brilliant and beautiful book can provide a sense of liberation to a field that has forsaken its original calling Read in a way that acknowledges its philosophical achievement *The World Viewed* can show the field a way to move forward by rediscovering its passion for the art of film Reading Cavell's *The World Viewed* will prove invaluable to scholars and students of film and philosophy and to those in other fields such as literary studies and American studies who have found Cavell's work provocative and fruitful

**Critique and Utopia in  
Postcolonial Historical Fiction** Greg Forter,2019-01-17 This bold and ambitious volume argues that postcolonial historical  
fiction offers readers valuable resources for thinking about history and the relationship between past and present It shows  
how the genre s treatment of colonialism illustrates continuities between the colonial era and our own and how the genre  
distills from our colonial pasts the evanescent utopian intimations of a properly postcolonial future Critique and Utopia in  
Postcolonial Historical Fiction arrives at these insights by juxtaposing novels from the Atlantic world with books from the  
Indian subcontinent Attending to the links across these regions the volume develops luminous readings of novels by Patrick  
Chamoiseau J G Farrell Amitav Ghosh Marlon James Hari Kunzru Toni Morrison Marlene van Niekerk Arundhati Roy Kamila  
Shamsie and Barry Unsworth It shows how these works not only transform our understanding of the colonial past and the  
futures that might issue from it but also contribute to pressing debates in postcolonial theory debates about the politics of  
literary forms the links between cycles of capital accumulation and the emergence of new genres the meaning of working  
through traumas in the postcolonial context the relationship between colonial and panoptical power the continued salience of  
hybridity and mimicry for the study of colonialism and the tension between national liberation struggles and transnational  
forms of solidarity Beautifully written and meticulously theorized Critique and Utopia in Postcolonial Historical Fiction will  
be of interest to students of world literature Marxist critics postcolonial theorists and thinkers of the utopian
