**The Shanghai Alleyway House** Gregory Byrne Bracken, 2013 As a nineteenth century commercial development the alleyway house was a hybrid of the traditional Chinese courtyard house and the Western terraced one Unique to Shanghai the alleyway house was a space where the blurring of the boundaries of public and private life created a vibrant social community In recent years however the city's rapid redevelopment has meant that the alleyway house is being destroyed and this book seeks to understand it in terms of the lifestyle it engendered for those who called it home whilst also looking to the future of the alleyway house Based on groundwork research this book examines the Shanghai alleyway house in light of the complex history of the city especially during the colonial era It also explores the history of urban form and governance in China in order to question how the Eastern and Western traditions combined in Shanghai to produce a unique and dynamic housing typology Construction techniques and different alleyway house sub genres are also examined as is the way of life they engendered including some of the side effects of alleyway house life such as the literature it inspired both foreign and local as well as the portrayal of life in the laneways as seen in films set in the city The book ends by posing the question what next for the alleyway house Does it even have a future and if so what lies ahead for this rapidly vanishing typology This interdisciplinary book will be welcomed by students and scholars of Chinese studies architecture and urban development as well as history and literature      **Art and Industry: (1885) Drawing in the public schools** Isaac Edwards

Jie,2017-11-15 This book is a study of the social and cultural change in Ming China s lower Yangzi delta region from about  
1500 to 1644 It takes three social groups literati scholarofficials and merchants as the framework for discussing the political  
socioeconomic and cultural forces that coalesced and reinforced one another to influence and facilitate the region s change A  
still wider perspective reveals how the region s political ties with the state and commercial links with external markets  
impacted the region for better and for worse The book also discusses the literati s reflection and discourse which their  
participation in the change generated on the issues of morality money politics and disorder The reader when brought into the  
richly textured social and cultural life of Ming China s heartland will foster an appreciation of what it was like for the region  
and its people to live in an age of commercial and cultural vigor which then descended into distress and despair For scholars  
and for others conversant with Chinese history and Ming history in particular the extensive use of literati sources and the  
references to contemporary scholarship will be of interest     The China Journal ,1941     *Outstanding Books for the College
