**Laszlo Moholy-Nagy Painting, Photography, Film** Laszlo Moholy-Nagy, 2019-02-21 Moholy Nagy's efforts to have photography and filmmaking recognized as means of artistic design on the same level as painting are propounded and explained at length. The use of artistic instruments is thus radically reformed. The Hungarian artist makes the case for a functional transformation within the visual arts and for the further development of photographic design options. Alongside theoretical and technical approaches as well as detailed forays into the broad field of the medium of photography, Moholy Nagy uses an extensive appendix of illustrations to provide a thorough survey of the numerous possibilities that photographic and cinematic work had in store as early as 1925. This English edition appears in original design and with separate commentary. 100 illustrations. *Painting* László Moholy-Nagy, Otto Stelzer, Hans Maria Wingler, 1967. Modern Contemporary Museum of Modern Art (New York, N.Y.), 2004. In a lively panorama of stimulating juxtapositions, sequences and cross references, this new edition of *Modern Contemporary* provides a cornucopia of 590 works of key contemporary art, 37 more than in the original edition. **Art of the 20th Century** Karl Ruhrberg, Klaus Honnef, Manfred Schneckeburger, Christiane Fricke, 2000. The original edition of this ambitious reference was published in hardcover in 1998 in two oversize volumes 10x13. This edition combines the two volumes into one; its paperbound flexi cover, the paper has a plastic coating, smaller 8x10 and affordable for art book buyers with shallower pockets, none of whom should pass it by. The scope is encyclopedic; half the work originally, the first volume is devoted to painting, the other half to sculpture, new media and photography. Chapters are arranged thematically and each page displays several examples in color of work under discussion. The final section, a lexicon of artists, includes a small bandw photo of each artist as well as biographical information and details of work, writings and exhibitions. Ruhrberg and the three other authors are veteran art historians, curators and writers, as is editor Walther. c. Book News Inc. **The Art and Films of Lynn Hershman Leeson** Meredith Tromble, 2005. Contents of accompanying DVD-ROM on p. 221 of text. Byrd, Elizabeth Siegel, 2023-01-01. A roster of prominent artists, curators and scholars offers a new, entirely contemporary approach to our understanding of photography and media. Focusing on the Art Institute of Chicago's deep and varied collection of photographs, books and other printed matter, installation art, photobooks, albums and time-based media, this ambitious, wide-ranging volume features short essays by prominent artists, curators, university professors and independent scholars that explore topics essential to understanding photography and media today. The essays, organized around themes ranging from the expected to the esoteric, are paired with key objects from the collection in order to address issues of aesthetics, history, philosophy, power, relations, production and reception. More than 400 high-quality reproductions amplify the authors' arguments and suggest additional dialogues across conventional divisions.

documentarian      **Material Modernity** Deborah Ascher Barnstone, Maria Makela, 2022-01-27 Material Modernity explores creative innovation in German art design and architecture during the Weimar Republic charting both the rise of new media and the re fashioning of old media Weimar became famous for the explosion of creative ingenuity across the arts in Germany due to experiments with new techniques including the move towards abstraction in painting and sculpture and inventive work in such new media as paper and plastic which utilized both new and old methods of art production Individual chapters in this book consider inventions such as the camera and materials like celluloid examine the role of new materials including concrete composites in opening up fresh avenues in the plastic arts and relate advances in the understanding of color perception and psychology to an increased interest in visual perception and the latent potential of color as both architectural ornament and carrier of emotional force in space While art historians usually argue that experimentation in the Weimar Republic was the result of an intentional rejection of traditional modes of expression in the conscious attempt to invent a modern art and architecture unshackled from historic media and methods this volume shows that the drivers for innovation were often far more complex and nuanced It first of all describes how the material shortages precipitated by the First World War along with the devastation to industrial infrastructure and disruption of historic trade routes affected art as did a spirit of experimentation that permeated interwar German culture It then analyzes new challenges in the 1920s to artistic conventions in traditional art modes like painting sculpture drawing architecture textiles and print making and simultaneously probes the likely causes of innovative new methods of artistic production that appeared such as photomontage assemblage mechanical art and multi media art In doing so Material Modernity fills a significant gap in Weimar scholarship and art history literature      **The City Symphony Phenomenon** Steven Jacobs, Eva Hielscher, Anthony Kinik, 2018-07-20 The 1920s and 1930s saw the rise of the city symphony an experimental film form that presented the city as protagonist instead of mere decor Combining experimental documentary and narrative practices these films were marked by a high level of abstraction reminiscent of high modernist experiments in painting and photography Moreover interwar city symphonies presented a highly fragmented oftentimes kaleidoscopic sense of modern life and they organized their urban industrial images through rhythmic and associative montage that evoke musical structures In this comprehensive volume contributors consider the full 80 film corpus from Manhatta and Berlin Die Sinfonie der Grosstadt to lesser known cinematic explorations      **Cinema of Actuality** Yuriko Furuhashi, 2013-09-13 During the 1960s and early 1970s Japanese avant garde filmmakers intensely explored the shifting role of the image in political activism and media events Known as the season of politics the era was filled with widely covered dramatic events from hijackings and hostage crises to student protests This season of politics was Yuriko Furuhashi argues the season of image politics Well known directors including Oshima Nagisa Matsumoto Toshio Wakamatsu Kji and Adachi Masao appropriated the sensationalized media coverage of current events turning news stories into material for timely critique and intermedial experimentation Cinema of Actuality analyzes Japanese
