*Pakistan* Azhar Hassan Nadeem, 2020-04-22 This book offers a comprehensive analysis of the state of political institutions the military establishment and political parties in Pakistan It provides a nuanced understanding of the practices of disenfranchisement by theocratic governments in the country which has relegated the people to the margins of their society The volume provides an in depth account of the political history of Pakistan focusing not only on national politics and foreign policy but also on their congruences with subnational systems of governance the criminal justice system bureaucracy the electoral system and the police It discusses challenging issues plaguing the country such as the continued dominance of the military lagging economic development lack of accountability within political institutions sectarianism and terrorism The author dissects and critically examines Pakistan's hegemonic politics and underlines the need for a new social contract based on the principles of inclusiveness and equality The volume offers fresh perspectives on the multifaceted problems in Pakistan's politics It will be of great interest to policy practitioners and to academics and students of politics law and governance sociology international relations comparative politics Pakistan studies and South Asia studies

**The Military and Denied Development in the Pakistani Punjab** Shahruxh Rafi Khan, Aasim Sajjad Akhtar, 2014-11-01 This book focuses on the retrogressive agrarian interventions by the Pakistani military in rural Punjab and explores the social resentment and resistance it triggered potentially undermining the consensus on a security state in Pakistan Set against the overbearing and socially unjust role of

the military in Pakistan's economy this book documents a breakdown in the accepted function of the military beyond its constitutionally mandated role of defence Accompanying earlier work on military involvement in industry commerce finance and real estate the authors research contributes to a wider understanding of military intervention revealing its hand in various sectors of the economy and consequently its gains in power and economic autonomy **Towards Peoples'**

**Histories in Pakistan** Kamran Asdar Ali, Asad Ali, 2023-05-04 After seventy five years of independence the history of Pakistan remains centered on the state its ideology and the two nation theory Towards Peoples Histories in Pakistan seeks to shift that focus away from histories of an imagined nation to the history of its peoples Based on the premise that the historiographical tradition in Pakistan has ignored the existence of people who actually make history this book brings together historians anthropologists sociologists and political scientists to shed light on the diverse histories of the people themselves Assembling histories of events and peoples missing from grand narratives of national history the essays in this collection incorporate a diversity of approaches to the past as it opens the possibilities of multiple histories the archives through which they are registered and the various temporalities in which they persist The volume highlights and recuperates the entangled nature of history and memory within Pakistan's social and cultural life By critically examining both leftist and nationalist thought Towards People's Histories in Pakistan explores competing visions of what is meant by the people and charts new ground in developing the promise of people's histories both within Pakistan and beyond Apostles of

Development David Engerman, 2025-08-20 Apostles of Development offers a bold new history of one of the most important enterprises of the 20th century the project to end global poverty through the lives and work of six of its most innovative practitioners all former classmates at Cambridge University and all from the Global South Deftly combining global history and biography it shows how development began not in Washington or London or Paris but in the crowded cities and isolated villages of South Asia home to some of the world's poorest countries in the mid twentieth century Sweeping in scope Apostles of Development details how these six individuals shaped the entire project of international development across the Cold War and post Cold War eras **New Perspectives on Pakistan's Political Economy** Matthew McCartney, S. Akbar

Zaidi, 2019-09-19 This volume makes a major intervention in the debates around the nature of the political economy of Pakistan focusing on its contemporary social dynamics This is the first comprehensive academic analysis of Pakistan's political economy after thirty five years and addresses issues of state class and society examining gender the middle classes the media the bazaar economy urban spaces and the new elite The book goes beyond the contemporary obsession with terrorism and extremism political Islam and simple civilian military relations and looks at modern day Pakistan through the lens of varied academic disciplines It not only brings together new work by some emerging scholars but also formulates a new political economy for the country reflecting the contemporary reality and diversification in the social sciences in Pakistan The chapters dynamically and dialectically capture emergent processes and trends in framing Pakistan's political

economy and invite scholars to engage with and move beyond these concerns and issues

**Ordering Violence** Paul Staniland, 2021-12-15 In *Ordering Violence* Paul Staniland advances a broad approach to armed politics bringing together governments insurgents militias and armed political parties in a shared framework to argue that governments perception of the ideological threats posed by armed groups drive their responses and interactions Staniland combines a unique new dataset of state group armed orders in India Pakistan Burma Myanmar and Sri Lanka with detailed case studies from the region to explore when and how this model of threat perception provides insight into patterns of repression collusion and mutual neglect across nearly seven decades Instead of straightforwardly responding to the material or organizational power of armed groups Staniland finds regimes assess how a group s politics align with their own ideological projects Explaining for example why governments often use extreme repression against weak groups even while working with or tolerating more powerful armed actors *Ordering Violence* provides a comprehensive overview of South Asia s complex armed politics embedded within an analytical framework that can also speak broadly beyond the subcontinent

***Making Sense of Pakistan*** Farzana Shaikh, 2018-10-15 Pakistan s transformation from supposed model of Muslim enlightenment to a state now threatened by an Islamist takeover has been remarkable Many account for the change by pointing to Pakistan s controversial partnership with the United States since 9 11 others see it as a consequence of Pakistan

s long history of authoritarian rule which has marginalized liberal opinion and allowed the rise of a religious right Farzana Shaikh argues the country s decline is rooted primarily in uncertainty about the meaning of Pakistan and the significance of being Pakistani This has pre empted a consensus on the role of Islam in the public sphere and encouraged the spread of political Islam It has also widened the gap between personal piety and public morality corrupting the country s economic foundations and tearing apart its social fabric More ominously still it has given rise to a new and dangerous symbiosis between the country s powerful armed forces and Muslim extremists Shaikh demonstrates how the ideology that constrained Indo Muslim politics in the years leading to Partition in 1947 has left its mark skillfully deploying insights from history to better understand Pakistan s troubled present

**A History of Modern South Asia** Ian Talbot, 2016-01-28 Noted historian Ian Talbot has written a new history of modern South Asia that considers the Indian Subcontinent in regional rather than in solely national terms A leading expert on the Partition of 1947 Talbot focuses here on the combined history of India Pakistan and Bangladesh since 1757 and specifically on the impact of external influences on the local peoples and cultures This text explores the region s colonial and postcolonial past and the cultural and economic Indian reaction to the years of British authority thus viewing the transformation of modern South Asia through the lens of a wider world

**The Making of India** Ranbir Vohra, 2014-12-18 Designed for undergraduate and graduate courses on Indian civilization and history this text provides a sweeping look at the long and varied history of India and how this complex legacy has shaped and is shaping the nation s modern polity It offers unique political historical coverage of India from pre history into the 21st century

*The Future of Pakistan* Stephen P. Cohen, 2011-10-01 With each passing day Pakistan becomes an even more crucial player in world affairs Home of the world s second largest Muslim population epicenter of the global jihad location of perhaps the planet s most dangerous borderlands and armed with nuclear weapons this South Asian nation will go a long way toward determining what the world looks like ten years from now The Future of Pakistan presents and evaluates several scenarios for how the country will develop evolve and act in the near future as well as the geopolitical implications of each Led by renowned South Asia expert Stephen P Cohen a team of authoritative contributors looks at several pieces of the Pakistan puzzle The book begins with Cohen s broad yet detailed overview of Pakistan placing it within the context of current day geopolitics and international economics Cohen s piece is then followed by a number of shorter more tightly focused essays addressing more specific issues of concern Cohen s fellow contributors hail from America Europe India and Pakistan itself giving the book a uniquely international and comparative perspective They address critical factors such as the role and impact of radical groups and militants developments in specific key regions such as Punjab and the rugged frontier with Afghanistan and the influence of and interactions with India Pakistan s archrival since birth The book also breaks down relations with other international powers such as China and the United States The all important military and internal security apparatus come under scrutiny as do rapidly morphing social and gender issues Political and party developments are

examined along with the often amorphous division of power between Islamabad and the nation's regions and local powers. Uncertainty about Pakistan's trajectory persists. *The Future of Pakistan* helps us understand the current circumstances, the relevant actors and their motivation. the crit

**Migrants and Militants** Oskar Verkaaik, 2018-06-05 Being part of a violent community in revolt can be addictive; it can be fun. This book offers a fascinating inside look at present-day political violence in Pakistan through a historical ethnography of the Muhajir Qaumi Movement (MQM), one of the most remarkable and successful religious nationalist movements in postcolonial South Asia. The MQM has mobilized much of the migrant Muhajir population in Karachi and other urban centers in southern Pakistan and has fomented large-scale ethnic religious violence. Oskar Verkaaik argues that urban youth see it as an irresistible opportunity for fun. Drawing on both anthropological fieldwork including participatory observation among political militants and historical analyses of state formation, nation building and the ethnicization of Islam since 1947, he provides an absorbing and important contribution to theoretical debates about political, religious and nationalist violence. *Migrants and Militants* brings together two perspectives on political violence. Recent studies on ethnic cleansing, genocide, terrorism and religious violence have emphasized processes of identification and purification. Verkaaik combines these insights with a focus on urban youth culture in which masculinity, physicality and the performance of violence are key values. He shows that only through fun and absurdity can a nascent movement transgress the dominant discourse to come of its own. Using these observations, he considers violence as a ludic practice, violence as martyrdom and sacrifice, and violence as terrorism and resistance.

**Contemporary Forms of Slavery in Pakistan** Farhad Karim, 1995 NATURE OF THE WORK

**Federalism in South Asia** Mahendra Prasad Singh, Veena Kukreja, 2014-08-07 This book is one of the first in-depth and systematic studies on the functioning and aspiring federations of South Asia. It examines how federal dynamics in India, Pakistan, Nepal and Sri Lanka are impinged on by the nature of their specific constitutions, their societal, political and cultural fabrics, composition of power elites and ruling classes, structures of political economy and market, electoral and party systems, mass media and information technology. The authors offer a comparative analytical, conceptual and theoretical framework to understand patterns and trends, as also experiences of and possibilities for federalism in South Asia. They highlight divergences and similarities, successes and key challenges while indicating federalism's wider regional relevance in the discourse on democracy and governance. The book concludes that the multicultural character of these societies, beset with ethnic and regional conflicts, separatist and military undercurrents, makes federal political solutions the only viable route. Providing a wealth of material, this will deeply interest scholars, students and teachers of comparative politics, political science, federal studies, area studies, as well as those interested in political structures and processes in South Asia.
