Pakistan In Crisis:

From Crisis to Crisis: Pakistan 1962-1969 Herbert Feldman, 1972 The Book Studies The Politics And Administration Of Pakistan Under The Constitution Introduced By Ayub Khan In 1962 The Political Situation Is Discussed In All Its Aspects The Constitution Itself And Ayub Khan S Manipulation Of It The Conduct Of The 1965 Presidential Elections Foreign Policy Particularly Relations With India The Economy The Growth Of Corruption In The Administration The Suppression Of Criticism And The Increasing Discontent Of The People It Assesses Ayub Khan And His Great Decade And Reasons For His Failure Appendices Include Details Of The Careers Of Zulfikar Ali Bhutto And Altaf Gauhar And Of Such Matters As The Relative Strength Of The Indian And Pakistani Armed Forces Prior To The Hostilities Of September 1965 Stamp On First End Page Name Of Previous Owner On The Title One Marking With Pen Condition Good Pakistan's Crisis in Leadership Fazal Muqueem Khan, 1973 *Pakistan* Khaled Ahmed, 2002 If democracy in Pakistan collapses repeatedly because of military takeovers why have the army chiefs of Pakistan been in trouble since the death of General Zia If the ISI is the most powerful institution in Pakistan why are its chiefs removed unceremoniously from their jobs and sometimes put under trial If Pakistan is a security state who is in charge of deciding matters of security If the government and the various permanent institutions of the state formulate policy why are non government jihadi organisations allowed to make their own decisions affecting the security of the state Is the security of Pakistan linked to the interest of the state or to its emotion Does the nuclear device give Pakistan its security through deterrence Why is Pakistan s bomb less safe for the world than India s Why is the Muslim scientist prone to being a fundamentalist How does Islamic faith affect a state employee s training of obedience to legal authority If the economist all over the world is known as an opponent of war why is the Pakistani economist ready to co exist with Pakistani rulers warrior inclinations How is the clergy s vision of the state different from that of the non clerical Pakistani and how does he successfully dictate it to the state Why is the average Pakistani continuously deluded about the United Nations and insists on invoking provisions that are non existent Can Pakistan live next to India without fighting unsuccessful wars with it and without capitulating What will be Pakistan like in the next 25 years *Pakistan in Crisis* Ashok Kapur, 2006-04-14 With these questions in mind Professor Kapur charts the continuous power struggles of Pakistan s ruling elites Using a historical and comparative approach he shows how the search for democracy and national identity has been hindered by army intervention political intrigue and the failure of Islam to unite the various ethnic factions While pessimistic about the chances for democracy in Pakistan he hopes that the democratic pluralism and broad based political activity emerging in much of Eastern Europe and the Third World will inspire ordinary Pakistanis to transform their country into a nation in spirit as well as in name Pakistan's Nuclear Policy Zafar Khan, 2014-07-17 In May 1998 in reaction to India s nuclear weapons tests Pakistan tested six nuclear weapons Following this the country opted for a policy of minimum deterrence and within a year Pakistan had altered its policy stance by adding the modifier of minimum credible deterrence

This book looks at how this seemingly innocuous shift seriously impacted on Pakistan's nuclear policy direction and whether the concept of minimum has lost its significance in the South Asian region's changed changing strategic environment After providing a brief historical background exploring why and how Pakistan carried out the nuclear development program the book questions why Pakistan could not sustain the minimum deterrence that it had conceptualized in the immediate aftermath of the 1998 test It examines the conceptual theoretical framework of the essentials of minimum deterrence in order to question whether Pakistan's nuclear policy remained consistent with this as well as to discover the rudimentary factors that are responsible for the inconsistencies with regard to minimum deterrence conceived in this study The book goes on to look at the policy options that Pakistan had after acquiring the nuclear capability and what the rationale was for selecting minimum deterrence The book not only highlights Pakistan's deterrent force building but also analyzes closely Pakistan's doctrinal posture of first use option Furthermore it examines the policy towards arms control and disarmament and discusses whether these individual policy orientations are consistent with the minimum deterrence Conceptually providing a deeper understanding of Pakistan's post 1998 nuclear policy this book critically examines whether the minimum deterrence conceived could be sustained both at the theoretical and operational levels It will be a useful contribution in the field of Nuclear Policy Security Studies Asian Politics Proliferation Non Proliferation Studies and Peace Studies This book will be of interest to policy makers scholars and students of nuclear policy nuclear proliferation and arms control related research

East Pakistan Crisis Pakistan. Department of Films and Publications, 1970

Pakistan's Inter-Services Intelligence Directorate Owen L. Sirrs, 2016-07-01 This book is the first comprehensive study of Pakistan's Inter Services Intelligence Directorate ISI The rise of Pakistan backed religious extremist groups in Afghanistan India and Central Asia has focused international attention on Pakistan's premier intelligence organization and covert action advocate the Inter Services Intelligence Directorate or ISI While ISI is regarded as one of the most powerful government agencies in Pakistan today surprisingly little has been written about it from an academic perspective This book addresses critical gaps in our understanding of this agency including its domestic security mission covert backing of the Afghan Taliban and its links to al Qaeda Using primary source materials including declassified intelligence and diplomatic reporting press reports and memoirs this book explores how ISI was transformed from a small negligible counter intelligence outfit of the late 1940s into the national security behemoth of today with extensive responsibilities in domestic security political interference and covert action This study concludes that reforming or even eliminating ISI will be fundamental if Pakistan is to successfully transition from an army run national security state to a stable democratic society that enjoys peaceful relations with its neighbours This book will be of interest to students of intelligence studies South Asian politics foreign policy and international security in general

Relief

Problems in East Pakistan and India, Part 1 United States. Congress. Senate. Judiciary, 1971 *Afghanistan and Pakistan* United States. Congress. House. Committee on Oversight and Government Reform, 2011 Consists mainly of text from the book *Reconciling with the Taliban* The India-Pakistan Nuclear Relationship E. Sridharan, 2020-11-29 Conflict resolution and promotion of regional cooperation in South Asia has assumed a new urgency in the aftermath of the nuclear tests by India and Pakistan in 1998 and underlined by the outbreak of fighting in Kargil in 1999 full mobilization on the border during most of 2002 and continued low intensity warfare and terrorism in Jammu and Kashmir The stability of nuclear deterrence between the two countries is therefore a matter of great urgency and has found a place on the scholarly agenda of security studies in South Asia Several books have been written on India's nuclear programme but these have been mostly analytical histories The India Pakistan Nuclear Relationship is a new departure in that it is the first time that a group of scholars from the South Asian subcontinent have collectively tried to apply deterrence theory and international relations theory to South Asia *Pakistan's Nuclear Weapons* Bhumitra Chakma, 2012-10-12 Pakistan is a vitally important country in the contemporary global political system It is a de facto nuclear state and a pivotal country in the War on Terror This book provides a comprehensive study of a nuclear armed Pakistan investigating the implications of its emergence as a nuclear weapons state Setting out the historical background of Pakistani nuclear development the book examines the lessons for proliferation that can be drawn from the Pakistan case It explains the changes and continuities of Pakistan's nuclear policy assessing its emerging force posture and the implications for Pakistani South Asian and global security It also considers the extent to which Pakistan can be said to have a nuclear doctrine the Pakistani nuclear command and control system and the relationship between Pakistan and the Non Proliferation regime Addressing the issue of whether Pakistan should be viewed as a proliferator and the implications of a nuclear Pakistan for global terrorism Pakistan's Nuclear Weapons is an important study of all the major issues surrounding Pakistan's emergence as a nuclear power **Relief Problems in East Pakistan and India** United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate Problems Connected with Refugees and Escapees, 1971 **The United States and Pakistan, 1947-2000** Dennis Kux, 2001-06-05 The first comprehensive account of this roller coaster relationship this book is a companion volume to Kux's *Estranged Democracies* recently called the definitive history of Pakistani American relations in the New York Times **Trysts with Democracy** Stig Toft Madsen, Kenneth Bo Nielsen, Uwe Skoda, 2011 This volume addresses the current configuration of democratic politics in South Asia from a cross disciplinary perspective The essays seek to examine the larger questions of how democratic values are embedded in social and political institutions and how localised and everyday political values inform the multiple ways in which democracy is understood and practised One of the strengths of this collection is the fact that it does not seek to provide answers to these questions from within one academic discipline only but rather brings together scholars with backgrounds in a variety of social science disciplines and the humanities A number of allied questions and engaging debates

emerge throughout the book How may we distinguish between democracy's formal and less than formal dimensions in the context of South Asia How do notions of kinship kingship and community tie in with larger processes of democratic politics and deepening political mobilisation How do people construe the political in a context where the sphere of the religious seemingly seamlessly overlaps with the political where the political cannot be separated from the social and where the boundaries between state and society are blurred How do people practically engage with the political and with democratic processes at a local level and what might democracy mean in the vernacular

The Pakistan Paradox Christophe Jaffrelot, 2016-06-16 The idea of Pakistan stands riddled with tensions Initiated by a small group of select Urdu speaking Muslims who envisioned a unified Islamic state today Pakistan suffers the divisive forces of various separatist movements and religious fundamentalism A small entrenched elite continue to dominate the country's corridors of power and democratic forces and legal institutions remain weak But despite these seemingly insurmountable problems the Islamic Republic of Pakistan continues to endure The Pakistan Paradox is the definitive history of democracy in Pakistan and its survival despite ethnic strife Islamism and deepseated elitism This edition focuses on three kinds of tensions that are as old as Pakistan itself The tension between the unitary definition of the nation inherited from Jinnah and centrifugal ethnic forces between civilians and army officers who are not always in favour of or against democracy and between the Islamists and those who define Islam only as a cultural identity marker

India, Pakistan, and Democracy Philip Oldenburg, 2010-09-13 The question of why some countries have democratic regimes and others do not is a significant issue in comparative politics This book looks at India and Pakistan two countries with clearly contrasting political regime histories and presents an argument on why India is a democracy and Pakistan is not Focusing on the specificities and the nuances of each state system the author examines in detail the balance of authority and power between popular or elected politicians and the state apparatus through substantial historical analysis India and Pakistan are both large multi religious and multi lingual countries sharing a geographic and historical space that in 1947 when they became independent from British rule gave them a virtually indistinguishable level of both extreme poverty and inequality All of those factors militate against democracy according to most theories and in Pakistan democracy did indeed fail very quickly after Independence It has only been restored as a facade for military bureaucratic rule for brief periods since then In comparison after almost thirty years of democracy India had a brush with authoritarian rule in the 1975-76 Emergency and some analysts were perversely reassured that the India exception had been erased But instead after a momentous election in 1977 democracy has become stronger over the last thirty years Providing a comparative analysis of the political systems of India and Pakistan as well as a historical overview of the two countries this textbook constitutes essential reading for students of South Asian History and Politics It is a useful and balanced introduction to the politics of India and Pakistan

The UK's foreign policy approach to Afghanistan and Pakistan Great Britain: Parliament: House of Commons: Foreign Affairs Committee, Richard Ottaway, 2011-03-02 In this report the Foreign Affairs

Committee calls on the British Government to use its influence to persuade the US to engage more fully and swiftly with the process of political reconciliation in Afghanistan if the US wishes to disengage its forces there. Although the current international emphasis favours intense military pressure aimed at defeating the insurgency, it is clear that military pressure alone is not enough to bring security and stability to Afghanistan. The evidence presented to the Committee has suggested that the current full scale and highly intensive ISAF counter insurgency campaign is not succeeding. The Committee questions the fundamental assumption that success in Afghanistan can be bought through a strategy of clear hold and build. The distinction between al Qaeda and the Taliban is crucial to generating appropriate policy responses in Afghanistan. The Committee says that despite the significant resources that have been invested in Afghanistan and the enduring wholehearted and admirable commitment and sacrifices of British personnel, the UK has not yet achieved its stated goals. There is also evidence that the core foreign policy justification for the UK's continued presence in Afghanistan, namely that it is necessary in the interests of UK national security, may have been achieved some time ago given the apparently limited strength of al Qaeda in Afghanistan. The security rationale behind the UK Government's decision to announce the 2015 deadline for the unconditional withdrawal of UK combat forces remains unclear and there are a number of potential risks inherent in such an approach.
