Postgrowth Imaginaries Luis I. Pradanos, 2018 Postgrowth Imaginaries brings together environmental cultural studies and postgrowth economics to examine radical cultural shifts sparked by the global financial crisis The globalization of an economic culture addicted to constant growth destroys the ecological planetary systems while failing to fulfil its social promises A transition toward what Pr danos calls postgrowth imaginaries the counterhegemonic cultural sensibilities that are challenging the growth paradigm is well underway in the Iberian Peninsula today **Abecedario de dichos y frases hechas** Guillermo Suazo Pascual, 2017-07-25 Las variedades de la lengua popular son tan ricas que se hacen inabarcables en los l mites de un libro En este volumen se presenta una laboriosa selecci n y una rigurosa criba de este apartado de la lengua que se presenta al hablante y al estudioso como un pozo sin fondo El profesor Suazo Pascual se ha encargado de desbrozar el camino y ordenar afab ticamente las referencias cruzadas del caudaloso acervo popular Procurad sobre todo que no se os muera la lengua viva hab is de ahondar en las frase hechas antes de pretender hacer otras mejores dice Machado por boca de Juan de Mairena El pueblo llano Sancho Panza Sancho Pueblo necesita expresar sus sentimientos resolver sus ignorancias y para ello recurre a las frase hechas como nica tabla salvadora Los dichos han tenido y tienen mala prensa el pobre Sancho era tan

Imagining the Mexican Revolution Tilmann Altenberg, 2014-08-11 Mexico's 1910 Revolution engendered a vast range of responses from novels and autobiographies to political cartoons, films and placards. In the light of the centennial commemorations, contributors to this original collection evaluate the cultural legacy of this landmark event in a series of engaging essays. *Imagining the Mexican Revolution* is a rich resource for those interested in ways in which literary and visual culture mediate our understandings of this complex historical phenomenon. Professor Andrea Noble Durham, University of Durham. This collection of essays by leading and emerging Mexicanists is a distinct and welcome contribution that enhances public and academic understanding of Mexico's rich revolutionary heritage. It makes available some of the most cutting-edge thinking from the field of Mexican cultural studies on the literary and visual representations produced over a period of one hundred years in Mexico and in other countries. Dr Chris Harris, University of Liverpool. In fascinating detail the essays of this landmark book examine the complexity of the post-revolutionary years in Mexico. But the findings also have applications for other cultures of the world where ideologies of fascism and socialism have competed and media manipulation has existed. Among the volume's many excellent features are its illustrations. Professor Emeritus Nancy Vogeley, University of San Francisco.

*Unsettling Eurocentrism in the Westernized University* Julie Cupples, Ramón Grosfoguel, 2018-08-06 The westernized university is a site where the production of knowledge is embedded in Eurocentric epistemologies that are posited as objective, disembodied and universal and in which non-Eurocentric knowledges such as black and indigenous ones are largely marginalized or dismissed. Consequently, it is an institution that produces racism, sexism and epistemic violence. While this is increasingly being challenged by student activists and some faculty, the westernized university continues to engage in diversity and internationalization initiatives that reproduce structural disadvantages and to work within neoliberal agendas that are incompatible with decolonization. This book draws on decolonial theory to explore the ways in which Eurocentrism in the westernized university is both reproduced and unsettled. It outlines some of the challenges that accompany the decolonization of teaching, learning, research and policy, as well as providing examples of successful decolonial moments and processes. It draws on examples from universities in Europe, New Zealand and the Americas. This book represents a highly timely contribution from both early-career and established thinkers in the field. Its themes will be of interest to student activists and to academics and scholars who are seeking to decolonize their research and teaching. It constitutes a decolonizing intervention into the crisis in which the westernized university finds itself.

Paul M. Worley,Rita M. Palacios,2019-05-07 Unwriting Maya Literature provides an important decolonial framework for reading Maya texts that builds on the work of Maya authors and intellectuals such as Quenjobal Gaspar Pedro González and Kaqchikel Irma Otzoy Paul M Worley and Rita M Palacios privilege the Maya category itself over constructions of the literary in order to reveal how Maya peoples themselves conceive of artistic creation This offers a decolonial departure from theoretical approaches that remain situated within alphabetic Maya linguistic and literary creation As itself refers to a broad range of artistic production from painted codices and textiles to works composed in Latin script as well as plastic arts the authors argue that texts by contemporary Maya writers must be read as dialoguing with a multimodal Indigenous understanding of text In other words itself is an alternative to understanding writing that does not stand in opposition to but rather fully encompasses alphabetic writing placing it alongside and in dialogue with a number of other forms of recorded knowledge This shift in focus allows for a critical reexamination of the role that weaving and bodily performance play in these literatures as well as for a nuanced understanding of how Maya writers articulate decolonial Maya aesthetics in their works Unwriting Maya Literature places contemporary Maya literatures within a context that is situated in Indigenous ways of knowing and being Through itself the authors propose an alternative to traditional analysis of Maya cultural production that allows critics students and admirers to respectfully interact with the texts and their authors Unwriting Maya Literature offers critical praxis for understanding Mesoamerican works that encompass non Western ways of reading and creating texts
