Korea popularly called South Korea they think of the Korean War fought so long ago Many younger Americans when they think of South Korea think of K pop the big corporations Samsung Hyundai LG and Kia and the cars these corporations have produced over the decades But this is only one small aspect of a country with a rich history and culture few Americans know Many Americans have not heard of for example the ancient City of Gyeongju with its surviving relics and monuments that were part of a once great kingdom Then there is the Korean alphabet known as hangul which was an invention to help facilitate all Koreans to be able to read and write in their language My book is an exploration of some of these palaces temples churches and famous places in South Korea More than that my photographic memoir also looks at the things that make Korea what it is and the dynamism behind the Korean people who have in their own way greatly contributed to our world Syria's Terrorist War on Lebanon and the Peace Process M. Deeb, 2003-07-03 This study demonstrates that Syria's role in the Middle East has been since 1974 an unabated terrorist war against all attempts to resolve peacefully the Arab Israeli conflict Marius Deeb provides evidence that Syria s role in Lebanon since 1975 has been to perpetuate the conflict among the various Lebanese communities in order to keep its domination of Lebanon Cameroon Grassfields Civilization Jean-Pierre Warnier, 2012 This book brings and blends together a dozen scholarly articles published by the author since the 1970s It sketches two different yet related stories first that of one of the most ancient and prestigious African civilizations the antiquity and sophistication of which are becoming more and more prominent as field research unfolds their many facets Second the story of the researcher himself who has had to alter and shift his approach to that civilization as he got to meet Grassfielders colleagues friends and scholars who changed his views about the Grassfields kingdoms and their people This book bears witness to those many encounters Historical and anthropological research is not only a question of relevant theories and methodologies It is also a human endeavour made of networks and friendships
