Palaces Of South East Asia Architecture And Customs:

The Palaces of South-East Asia Jacques Dumarçay, 1991 Dealing in turn with the major palaces of the different countries in Southeast Asia Dumarçay covers both their architectural forms and the court ceremonials to which they were adapted In spite of dissimilarities in the varying concepts of royal power as well as differences of religion there emerge common factors and themes in the residences of the monarchs and the elaborate rituals over which they presided In addition to photographic illustrations the book is enhanced by sixty two original architectural drawings of the palaces and their decoration

Architectural Conservation in Asia John H. Stubbs, Robert G. Thomson, 2016-11-10 The first comprehensive overview of architectural conservation in Asia Internationally renowned author John Stubbs follows up on the success of his previous volumes Time Honored A Global View of Architectural Conservation and Architectural Conservation in Europe and the Americas Architectural conservation is a rapidly expanding and under researched field in Asia and is international experts are often brought in making the subject of considerable interest to international academics Boxes and case studies by local experts add depth and interest to the authors meticulous research A website with extra information and resources accompanies the series <http://conservebuiltworld.com>

Old Myths and New Approaches Alexandra Haendel, 2012-08-11 Old Myths and New Approaches Interpreting Ancient Religious Sites in Southeast Asia brings together recent research by leading experts on Southeast Asia in the pre modern era The authors examine sites from early and Angkor period Cambodia and Vietnam on the mainland to temples in Java and Bali and discuss many different aspects of these sites uses and functions This comprehensive innovative and interdisciplinary work will be invaluable to scholars and students of historical Southeast Asia

Handbook of Material Culture Chris Tilley, Webb Keane, Susanne Kuechler, Mike Rowlands, Patricia Spyer, 2006-01-05 The study of material culture is concerned with the relationship between persons and things in the past and in the present in urban and industrialized and in small scale societies across the globe The Handbook of Material Culture provides a critical survey of the theories concepts intellectual debates substantive domains and traditions of study characterizing the analysis of things It is cutting edge rather than simply reviewing the field as it currently exists It also attempts to chart the future the manner in which material culture studies may be extended and developed The Handbook of Material Culture is divided into five sections Section I maps material culture studies as a theoretical and conceptual field Section II examines the relationship between material forms the human body and the senses Section III focuses on subject object relations Section IV considers things in terms of processes and transformations in terms of production exchange and consumption performance and the significance of things over the long term Section V considers the contemporary politics and poetics of displaying representing and conserving material and the manner in which this impacts on notions of heritage tradition and identity The Handbook charts an interdisciplinary field of studies that makes an unique and fundamental contribution to an understanding of what it means to be human It will be of interest to all who work in the social and

historical sciences from anthropologists and archaeologists to human geographers to scholars working in heritage design and cultural studies

Historical Dictionary of Burma (Myanmar) Donald M. Seekins, 2017-03-27 Burma Myanmar is a Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural diplomatic and economic isolation With the dissolution of its military regime the State Peace and Development Council in 2011 a formally civilian but military dominated constitutional government was inaugurated By 2012 Burma s president retired General Thein Sein had established a working relationship with Daw Aung San Suu Kyi the leader of the country s pro democracy movement since 1988 and after a 2012 by election she and members of her opposition party the National League for Democracy NLD entered the new Union Parliament as legislators However even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015 Burma faces daunting challenges it is still one of the poorest countries in Southeast fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive and its people s security and the environment are threatened by foreign economic exploitation Religious discord is also widely evident as Buddhist militants instigate violence against the country s religious minorities especially Muslims Today Burma s prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy This edition of the Historical Dictionary of Burma Myanmar encompasses not only current developments but also Burma s over 1 500 years old recorded history and the most important features of its cultures ethnicity religions society and economy This is done through a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture

Cambodian Buddhism Ian Harris, 2008-03-11 The study of Cambodian religion has long been hampered by a lack of easily accessible scholarship This impressive new work by Ian Harris thus fills a major gap and offers English language scholars a booklength up to date treatment of the religious aspects of Cambodian culture Beginning with a coherent history of the presence of religion in the country from its inception to the present day the book goes on to furnish insights into the distinctive nature of Cambodia s important yet overlooked manifestation of Theravada Buddhist tradition and to show how it reestablished itself following almost total annihilation during the Pol Pot period Historical sections cover the dominant role of tantric Mahayana concepts and rituals under the last great king of Angkor Jayavarman VII 1181 c 1220 the rise of Theravada traditions after the collapse of the Angkorian civilization the impact of foreign influences on the development of the nineteenth century monastic order and politicized Buddhism and the Buddhist contribution to an emerging sense of Khmer nationhood The Buddhism practiced in Cambodia has much in common with parallel traditions in Thailand and Sri Lanka yet there are also significant differences The book concentrates on these and illustrates how a distinctly Cambodian Theravada developed by accommodating itself to premodern Khmer modes of thought Following the overthrow of Prince Sihanouk in 1970 Cambodia slid rapidly into disorder and violence Later chapters chart the elimination

of institutional Buddhism under the Khmer Rouge and its gradual reemergence after Pol Pot the restoration of the monastic order's prerevolutionary institutional forms and the emergence of contemporary Buddhist groupings

The Organization of Ancient Economies Kenneth Hirth, 2020-09-17 In this book Kenneth Hirth provides a comparative view of the organization of ancient and premodern society and economy Hirth establishes that humans adapted to their environments not as individuals but in the social groups where they lived and worked out the details of their livelihoods He explores the variation in economic organization used by simple and complex societies to procure produce and distribute resources required by both individual households and the social and political institutions that they supported Drawing on a wealth of archaeological historic and ethnographic information he develops and applies an analytical framework for studying ancient societies that range from the hunting and gathering groups of native North America to the large state societies of both the New and Old Worlds Hirth demonstrates that despite differences in transportation and communication technologies the economic organization of ancient and modern societies are not as different as we sometimes think

Embodied Communities Felicia Hughes-Freeland, 2008-11-01 Court dance in Java has changed from a colonial ceremonial tradition into a national artistic classicism Central to this general transformation has been dance's role in personal transformation developing appropriate forms of everyday behaviour and strengthening the powers of persuasion that come from the skillful manipulation of both physical and verbal forms of politeness This account of dance's significance in performance and in everyday life draws on extensive research including dance training in Java and builds on how practitioners interpret and explain the repertoire The Javanese case is contextualized in relation to social values religion philosophy and commoditization arising from tourism It also raises fundamental questions about the theorization of culture society and the body during a period of radical change

Southeast Asia and Oceania Kenneth Frampton, 1999 World architecture 1900 2000 a critical mosaic vol 1 10

Hanoi William Stewart Logan, 2000 This text traces the history of the fabric of Hanoi from its origins 1000 years ago It examines how the shape of the city reflects changing political cultural and economic conditions over a millennium of intermittent warfare and waves of cultural change and migration Drawing on his experience as heritage advisor the author looks at the challenges facing those who seek to preserve the best features of Hanoi's architecture and streetscapes while improving the living conditions of its residents
