John Sallis, Danilo Eccher, 2001 **NBS Monograph** ,1963 **Psychical Research Monograph, No. 1** Stanford University, 1917 *On Translation* John Sallis, 2002-10-11 Everyone complains about what is lost in translations This is the first account I have seen of the potentially positive impact of translation that it represents a genuinely new contribution Drew A Hyland In his original philosophical exploration of translation John Sallis shows that translating is much more than a matter of transposing one language into another At the very heart of language translation is operative throughout human thought and experience Sallis approaches translation from four directions from the dream of nontranslation or universal translatability through a scene of translation staged by Shakespeare in which the entire range of senses of translation is played out through the question of the force of words and from the representation of untranslatability in painting and music Drawing on Jakobson Gadamer Benjamin and Derrida Sallis shows how the classical concept of translation has undergone mutation and deconstruction Leland Stanford Junior University Publications.
