"Man has skyrocketed from a defensive position, largely subordinated to Nature's alternatives, to a new and dominant one. From it he not only can and does influence everything in the world but, voluntarily or unwittingly, can and indeed does determine the alternatives of his own future —

and ultimately must choose his options for it. In other words, his novel power condition practically compels him to take up new regulatory functions that willy-nilly he has had to discharge with respect to the world's mixed natural-human systems. Having penetrated a number of the erstwhile mysteries and being able to sway events massively, he is now vested with unprecedented, tremendous responsibilities and thrown into the new role of moderator of life on the planet — including his own." The above words were written by Dr. Aurelio Peccei and are taken verbatim from page 607 of *The Global 2000 Report to the President*.

Funding was obtained from the U.S. Congress under H.B. 15090 (1969), where \$10 million was given to the DOD's 1970 budget. Testimony before the Senate Committee revealed that they intended to produce "a synthetic biological agent, an agent that does not naturally exist and for which no natural immunity could have been acquired. Within the next 5 to 10 years it would probably be possible to make a new infective microorganism which could differ in certain important aspects from any known disease-causing organisms. Most important of these is that it might be refractory to the immunological and therapeutic processes upon which we depend to maintain our relative freedom from infectious disease."

Sir Julian Huxley said, "Overpopulation is, in my opinion, the most serious threat to the whole future of our species." The project, called MK-NAOMI, was carried out at Fort Detrick, Maryland.

Since large populations were to be decimated, the ruling elite decided to target the "undesirable" elements of society. Specifically targeted were the black, Hispanic, and homosexual populations. The poor homosexuals were encouraged on the one hand and scheduled for extinction on the other.

The African continent was infected via smallpox vaccine in 1977. The vaccine was administered by the World Health Organization. According to Dr. Robert Strecker, "Without a cure the entire black population of Africa will be dead within 15 years. Some countries are well beyond epidemic status."

The U.S. population was infected in 1978 with the hepatitis B vaccine. Dr. Wolf Szmuness, the ex-roommate of Pope John Paul II, was the mastermind behind the November/78 to October/79 and March/80 to October/81 experimental hepatitis B vaccine trials conducted by the Centers for Disease Control in New York, San Francisco and four other American cities. He loosed the plague of AIDS upon the American people. The gay population was infected. The ads for participants specifically asked for promiscuous homosexual male volunteers. Whatever causes AIDS was in the vaccine. The vaccine was manufactured and bottled in Phoenix, Arizona.
