Poison Politics Are Negative Campaigns Destroying Democracy:

Poison Politics Victor Kamber, 1997-08-21 Every campaign season more trash talk and attack ads dominate the airwaves and more voters subsequently turn off to politics Why do so many races degenerate into name calling and negativism What is the effect on our democracy our ability to make the right political and policy choices **Poison Politics Are Negative Campaigns Destroying Democracy** tackles these vital questions The Psychology of Attack Politics Alessandro Nai, Lukas P.

Otto, Chiara Vargiu, 2025-07-25 The Psychology of Attack Politics explores the use of political attacks in election campaigns and the way in which their often deliberate use impacts voters and has wide reaching societal consequences With most elections being fraught with tension disrespectful treatment of political opponents and political incivility this timely book aims to disentangle the dynamics of how attack politics is perceived e g whether citizens perceive a negative message to be indeed negative and evaluated i e whether citizens like or dislike attack politics The book also looks at the effects of attack politics for instance whether exposure to negative or uncivil messages alters attitudes and behaviors such as turnout affective polarization and support for political violence The authors provide a systematic conceptualization of attack politics made up of negativity incivility and intolerance Focusing on cutting edge research in political psychology political communication and electoral behavior the authors make the central argument that to understand the effects of different forms of attack politics there should be a strong focus on individual differences in message perception and evaluation Exploring what ultimately drives the effects of negative uncivil and intolerant rhetoric and analyzing the phenomena at the center of current scientific and public discourse this is a fascinating reading for academics and students in psychology political science sociology and communication as well as anyone interested in political campaigning and elections **Going**

Dirty David Mark, 2007-03-09 Going Dirty is a history of negative campaigning in American politics and an examination of how candidates and political consultants have employed this often controversial technique The book includes case studies on notable races throughout the television era in which new negative campaign strategies were introduced or existing tactics were refined and amplified upon Strategies have included labeling opponents from non traditional political backgrounds as dumb or lightweight an approach that got upended when a veteran actor and rookie candidate named Ronald Reagan won the California governorship in 1966 setting him on a path to the White House The negative tone of campaigns has also been ratcheted up dramatically since the terrorist attacks of September 11 2001 Campaign commercials now routinely run pictures of international villains and suggest sometimes overtly at other times more subtly that political opponents are less than resolute in prosecuting the war on terror The book also outlines a series of races in which negative campaigning has backfired because the charges were not credible or the candidate on the attack did not understand the political sentiments of the local electorate they were trying to persuade The effect of newer technologies on negative campaigning is also examined including blogs and Web video in addition to tried and true methods like direct mail **Out of the Running** Shauna

Shames,2018-07-03 An inside look into why Millennials are rejecting careers in politics and what this means for the future of America's political system Millennials are often publically criticized for being apathetic about the American political process and their lack of interest in political careers But what do millennials themselves have to say about the prospect of holding political office Are they as uninterested in political issues and the future of the American political system as the media suggests Out of the Running goes directly to the source and draws from extensive research including over 50 interviews with graduate students in elite institutions that have historically been a direct link for their graduates into state or federal elected office Harvard Law Harvard's Kennedy School of Government and Boston's Suffolk University Law School Shauna Shames herself a young graduate of Harvard University suggests that millennials are not uninterested rather they don't believe that a career in politics is the best way to create change Millennials view the system as corrupt or inefficient and are particularly skeptical about the fundraising frenzied media attention and loss of privacy that have become staples of the American electoral process They are clear about their desire to make a difference in the world but feel that the broken political system is not the best way to do so a belief held particularly by millennial women and women of color The implications of Shames argument are crucial for the future of the American political system how can a system adapt and grow if qualified intelligent leaders are not involved An engaging and accessible resource for anyone who follows American politics Out of the Running highlights the urgent need to fix the American political system as an absence of diverse millennial candidates leaves its future in a truly precarious position

Blogwars David D. Perlmutter,2008-03-07 Perlmutter examines the rapidly burgeoning phenomenon of blogging exploring the degree to which it influences or fails to influence American politics

Civic Education and the Future of American Citizenship Elizabeth Kaufer Busch,Jonathan W. Rethinking Democratic Accountability Robert D. Behn, 2004-05-26 Traditionally American government has created detailed formal procedures to ensure that its agencies and employees are accountable for finances and fairness Now in the interest of improved performance we are asking our front line workers to be more responsive we are urging our middle managers to be innovative and we are exhorting our public executives to be entrepreneurial Yet what is the theory of democratic accountability that empowers public employees to exercise such discretion while still ensuring that we remain a government of laws How can government be responsive to the needs of individual citizens and still remain accountable to the entire polity In *Rethinking Democratic Accountability* Robert D Behn examines the ambiguities contradictions and inadequacies in our current systems of accountability for finances fairness and performance Weaving wry observations with political theory Behn suggests a new model of accountability with compacts of collective mutual responsibility to address new paradigms for public management

Handbook of Political Discourse Piotr Cap, 2023-02-14 Synthesising diverse research avenues for politics discourse and political discourse this cutting edge Handbook examines the formative traditions current theoretical and methodological landscape and genres and domains over which political discourse extends

It Takes a Candidate Jennifer L. Lawless, Richard L. Fox, 2005-09-12 It Takes a Candidate serves as the first systematic nationwide empirical account of the manner in which gender affects political ambition Based on data from the Citizen Political Ambition Study a national survey conducted on almost 3 800 potential candidates we find that women even in the highest tiers of professional accomplishment are substantially less likely than men to demonstrate ambition to seek elected office Women are less likely than men to be recruited to run for office They are less

likely than men to think they are qualified to run for office And they are less likely than men to express a willingness to run for office in the future This gender gap in political ambition persists across generations Despite cultural evolution and society's changing attitudes toward women in politics running for public office remains a much less attractive and feasible endeavor for women than men *No Place for Amateurs* Dennis W. Johnson, Professor Emeritus of Political Management Dennis W. Johnson, 2001-01-29 This work details the skills strategies and methods and the extraordinary resources these require to provide an expose of the highly sophisticated techniques used to reach and persuade voters *Taiwan and The 'China Impact'* Gunter Schubert, 2015-12-14 There can be no doubt that China's economic and political rise is having a stronger effect on Taiwan than on any other country given the Chinese government's claim to sovereignty over Taiwan and Taiwan's quest to maintain its democratic achievements and political identity as a sovereign state Against this background this volume deals with the bigger picture of evolving relations across the Taiwan Strait departing from the observation that China's impact on Taiwan has become stronger over the last 20 years This book analyses the China impact on Taiwan in terms of its social political and security space from both an empirical and conceptual point of view It is the first comprehensive account of China's multifaceted impact on the politics and society of contemporary Taiwan written by renowned scholars from Taiwan Europe and the U S The book covers a wide range of topics including Taiwan's party alignment elections generational politics cross strait political economy immigration policy and security The contributors political scientists and sociologists highlight both the dangers and the opportunities of the China impact for Taiwan and draw a realistic picture of the island republic's current situation and future options in the shadow of its giant neighbour Based on qualitative and quantitative data this volume intends to fill a gap in the Taiwan studies field by studying the China impact on Taiwan's politics and society systematically and from a comparative perspective By doing so it will be of great interest to students and scholars of Taiwan studies and East Asian politics and society more generally *Political Campaigns and Political Advertising* Frank W. Baker, 2009-06-04 Examining political campaigns and political advertising through the analytical lens of media literacy this well illustrated and timely handbook guides readers through the maze of blandishments and spin that is the hallmark of the modern political campaign It dissects the persuasive strategies embedded in the political messages we encounter every day in the media and demonstrates the importance of critical thinking in evaluating media stories Key concepts of media literacy are applied to political advertising in traditional media newspapers television radio and on the Internet the new frontier of the political advertising wars Dealing with blogs social networking user generated Web sites and other electronic formats familiar to young voters this lively introduction to the new world of political messaging appeals to readers' affinity for visual learning as well as their ability to discern messages in text Unique in applying media literacy concepts to the political context while directly addressing students and general readers this book not only explains but graphically demonstrates both established techniques of political framing and the new avenues of persuasion being pioneered in digital media It will also

interest viewers who like their political news in traditional media but unconventional formats **A Functional Analysis of Political Television Advertisements** William L. Benoit, 2014-04-01 A Functional Analysis of Political Television Advertisements examines theory and research on election advertisements William Benoit employs the Functional Theory of Political Campaign Discourse to understand the nature or content of television spots in election campaigns Beginning with a look at American presidential spots from 1952-2012 Benoit investigates the three functions: attacks and defenses and the topics of policy and character for these groups of political commercials The following chapters are devoted to reporting similar data on presidential primary advertisements, presidential third party spots, other theories including Issue Ownership Theory and Functional Federalism Theory as well as nonpresidential and non U S election advertising Benoit considers the data, discusses the development of political advertising over time and finally presents areas for further research This book is a uniquely comprehensive examination of the value and use of television spots in political election rhetoric

Unfree Speech Samantha Sellinger, 2009-02-09 At a time when campaign finance reform is widely viewed as synonymous with cleaning up Washington and promoting political equality Bradley Smith, a nationally recognized expert on campaign finance reform, argues that all restriction on campaign giving should be eliminated In *Unfree Speech* he presents a bold, convincing argument for the repeal of laws that regulate political spending and contributions, contending that they violate the right to free speech and ultimately diminish citizens' power Smith demonstrates that these laws, which often force ordinary people making modest contributions of cash or labor to register with the Federal Election Commission or various state agencies, fail to accomplish their stated objectives In fact, they have worked to entrench incumbents in office, deaden campaign discourse, burden grassroots political activity with needless regulation, and distance Americans from an increasingly professional, detached political class Rather than attempting to plug loopholes in campaign finance law or instituting taxpayer-financed campaigns, Smith proposes a return to core First Amendment values of free speech and an unfettered right to engage in political activity Smith finds that campaign contributions have little corrupting effect on the legislature and shows that an unrestrained system of contributions and spending actually enhances equality More money, not less, is needed in the political system Smith concludes *Unfree Speech* draws upon constitutional law and historical research to explain why campaign finance regulation is doomed and to illustrate the potentially drastic costs of efforts to make it succeed Whatever one thinks about the impact of money on electoral politics, no one should take a final stand without reading Smith's controversial and important arguments *Political Communication and Cognition* D. Lilleker, 2014-07-29 *Political Communication and Cognition* draws on a range of theories from communication psychology to explain how citizens receive communication about politics, how communication might make a citizen think, and importantly, what stimulates political participation, whether simply paying attention, chatting online, or going to vote *Communication in Political Campaigns* William L. Benoit, 2007 This book offers a comprehensive guide to political campaign communication using functional theory

as a framework An authoritative account packed with real life examples from campaigns across the globe the book examines all of the important variables in political campaign communication Considering campaign media from television spots and debates to candidate webpages and direct mail advertising it looks closely at news coverage of campaigns and examines the sources of campaign messages the various ways of responding to scandal the process of voter decision making and the ways in which context affects a political campaign Chapters consider a full range of races from presidential to congressional to gubernatorial and look at political campaigns in the United States and many other countries including France Israel South Korea and Taiwan Communication in Political Campaigns introduces readers to both theory and research on the topic and is an ideal text for courses on political campaigns The Future of American Democracy Glen Browder,2002 Former congressman Browder is worried that the current trends of American democracy might result in a Union of Socialist States of America or worse He suggests that we re suffering from a cumulative distemper in which we may be tiring of America s historic Great Experiment He offers vague prescriptions about embarking on a National Democratic Renaissance and rediscovering the essence of our American nation Annotation copyrighted by Book News Inc Portland OR Lights, Camera, Campaign! David Andrew Schultz,2004 Political scientists investigate the impact that political advertisements have on political campaigns and elections They use case studies interviews and analysis of specific campaigns and ads mostly in the US but also in Canada to explain how ads are constructed why some work and some fail and the factors about political ads that allow them
