Police Suicide Tactics For Prevention:

POLICE SUICIDE Dell P. Hackett, John M. Violanti, 2003-01-01 The range of information in this book is broad and offers strategies and tactics that may help to prevent suicides. It was written by several skilled and caring professionals and it was their aim to give law enforcement officers, administrators and mental health professionals additional information and skills in dealing with law enforcement officers in crisis. It will be interesting and useful to those who would read it with the intention of understanding this dilemma faced by law enforcement and who have a desire to continue the search for possible solutions. The book contains far more than that which would usually come to mind concerning the subject of self-destructive behavior. Its main focus concerns such diverse and very important areas as the police culture, the supervisor's role in intervention, departmental denial of the problem, getting officers to seek help, family issues and survivor issues. All are intended to get the reader closer to being able to identify officers who may be in harm's way, offer solutions to those who seek help and hopefully prevent police suicides. Only recently has the identification of police stress and the subsequent counterproductive behaviors been exposed and accepted within the culture. We have learned that the police occupation is different from all others and that it is all right to be different. This new understanding may also provide a potential remedy for some of law enforcement's greatest ills: alcohol abuse, family abuse and the subsequent consequences. It is the hope therefore that the information in this book will prevent future suicides and even reverse the thinking that leads to such life-ending decisions. It is a must read for law enforcement officers, probation and parole officers, supervisors, mental health professionals, educators, criminal justice students and professors. It is complete and well researched, a cooperative effort, not a competitive one, a journey of discovery and hope.

Police Suicide John M. Violanti, 2007 From the Back Cover In this second edition of *Police Suicide Epidemic in Blue*, the author brings together old and new information on police suicide and he introduces some promising findings. In doing so, he clarifies some issues and provides a source of information for police officers, administrators and academic researchers. In this lucidly written book of ten chapters, Doctor Violanti discusses the classical studies in suicide, the accuracy and validity of police suicide rates, probable precipitating factors associated with police suicide, the impact of retirement, the idea of suicide by suspect, the antecedents of murder suicide, the plight of survivors of police suicide and information and suggestions for police suicide prevention. Also discussed is the relationship between suicide and the reluctance of police officers to seek professional help. Suggestions are made for police suicide prevention that includes intervention programs and suicide awareness training. The author stresses that the first and most important step in preventing suicide is to recognize the problem. It is hoped that this new edition will provide an additional resource to help prevent these deaths.

Police Responses to People with Mental Illnesses Duncan Chappell, 2014-07-16 According to the World Health Organisation during their lifetime more than one quarter of all individuals will develop one or more mental or behavioural disorders Given prevalence data like this it is not surprising that wherever they reside on the planet many persons suffering from a mental disorder or as is more commonly termed in popular parlance a mental illness are likely to come into contact with police at some stage in their lives Indeed research conducted in a number of countries suggests that about 10 per cent of all community police work involves some form of interaction with a person with a mental illness From a police perspective these encounters are not only frequent but also often sensitive and challenging Despite the difficulties associated with this important aspect of community policing surprisingly scant attention has been given to the development of empirically tested and established best practice approaches to managing police interactions with persons with mental illnesses The literature that does exist is principally derived from North American sources although more recent and interesting developments have been reported in Australia and the United Kingdom The principal aim of *Police Responses to People with Mental Illnesses* is to seek to reduce this gap in the literature by providing an international overview of some of the latest research and policy developments in the field and the challenges still to be confronted in many places in overcoming cultural and associated barriers to protecting the rights of the mentally ill This book was originally published as a special issue of *Police Practice and Research An International Journal*

Policing and the Mentally Ill Duncan Chappell, 2013-06-13 In countries with democratic traditions police interactions with the mentally ill are usually guided by legislative mandates giving police discretion and possibly resulting in referrals for

assistance and treatment But all too frequently the outcome of these interactions is far less therapeutic and leads to a cycle of arrests and ultimately incarceration Stemming from an initiative in Memphis Tennessee two decades ago police departments in many parts of the world have set up specific programs with crisis intervention teams to facilitate police contact with the mentally ill Policing and the Mentally Ill International Perspectives examines how these types of programs have fared in jurisdictions across the world The book begins with developments in North America and Europe traditionally the locus of much of the innovation and change in policing and related areas It demonstrates how a number of jurisdictions in Europe have only recently begun to recognize therapeutic intervention with the mentally ill as a priority issue and still frequently suffer from a lack of significant resources The largest section of the book focuses on Australia where local law enforcement agencies have displayed a remarkable enthusiasm for and commitment to change in their management of interactions with citizens with mental illness Finally the book examines the particular challenges of providing humane and effective policing for persons with mental illnesses in parts of the developing world These challenges often involve dealing with entrenched cultural beliefs and practices based on superstition fear and prejudice regarding persons thought to be mentally ill Interactions between police and persons with mental illnesses comprise an important and sensitive aspect of everyday policing The 16 chapters in this book offer a wide range of cross cultural perspectives on this essential aspect of policing enabling police practitioners to develop a best practices approach to managing their interactions with this vulnerable segment of the community

Cops, Cons, and Grace Brian Cahill, 2018-01-08

A decade ago Brian Cahill became the victim of the greatest tragedy any parent can endure with the loss of his firstborn son a veteran police officer in the aftermath of a painful divorce to suicide Far from the carefree retirement he had envisioned the devastated father faced a journey back from the brink of utter despair As the author of numerous opinion pieces and essays on religion the lifelong Catholic was familiar with the concept that the cross is followed by the resurrection and that from death comes new life In the devastating years following his beloved son's suicide the abstract became very real Cahill's work volunteering with two different groups cops and cons saved him allowing him to eventually experience a measure of grace The unlikely combination of working with SFPD officers on suicide prevention and leading a spirituality group for San Quentin lifers brought him enough of a sense of peace and acceptance to truly want to continue living *Blue Wall of Silence* Olivia N.
