Beyond Jihad Lamin Sanneh, 2016-08-19 Over the course of the last 1400 years Islam has grown from a small band of followers on the Arabian peninsula into a global religion of over a billion believers How did this happen The usual answer is that Islam spread by the sword believers waged jihad against rival tribes and kingdoms and forced them to convert Lamin Sanneh argues that this is far from the whole story Beyond Jihad examines the origin and evolution of the African pacifist tradition in Islam beginning with an inquiry into the faith s origins and expansion in North Africa and its transmission across trans Saharan trade routes to West Africa The book focuses on the ways in which without jihad the religion spread and took hold and what that tells us about the nature of religious and social change At the heart of this process were clerics who used religious and legal scholarship to promote Islam Once this clerical class emerged it offered continuity and stability in the midst of political changes and cultural shifts helping to inhibit the spread of radicalism and subduing the urge to wage jihad With its policy of religious and inter ethnic accommodation this pacifist tradition took Islam beyond traditional trade routes and kingdoms into remote districts of the Mali Empire instilling a patient Sufi inspired and jihad negating impulse into religious life and practice Islam was successful in Africa Sanneh argues not because of military might but because it was made African by Africans who adapted it to a variety of contexts

Origins of Muslim Consciousness in India Syed Nesar Ahmad, 1991-08-30 The debate over the underlying causes of the clash between Hindus and Muslims which continues to polarize India is the central concern of this volume Syed Nesar Ahmad challenges popular viewpoints regarding the Hindu Muslim conflict by asserting that although intrinsic differences between the two cultures do exist and this schism has been somewhat fueled by the cultural conditions in colonial India the emergence and growth of the conflict is primarily the result of social and economic forces both global and regional that has caused the initial differences to intensify into cultural rift Ahmad presents a thorough account of Indian history during the 19th and 20th centuries analyzing how the relationship between Hindus and Muslims has been shaped by each significant political and social development Evidence of both selectivism and assimilation between Hindus and Muslims a concept not previously accepted is apparent

throughout the history and the issue of the origins of the identity of the Muslim consciousness which now exerts such influence in the region is explained in terms of the interaction of religious social cultural and global factors By viewing India's struggle for its post colonial identity from this comprehensive historical perspective this work illuminates some of the fundamental causes of similar conflicts throughout the former colonial world *Communist China: a Strategic Survey* Army Library (U.S.),1966 Risky Medicine Robert Aronowitz,2015-09-16 Will ever more sensitive screening tests for cancer lead to longer better lives Will anticipating and trying to prevent the future complications of chronic disease lead to better health Not always says Robert Aronowitz In fact it often is hurting us Drawing on such controversial examples as HPV vaccines cancer screening programs and the cancer survivorship movement Aronowitz demonstrates that patients and their doctors have come to believe perilously that far too many medical interventions are worthwhile because they promise to control our fears and reduce uncertainty Taken from book flyleaf
