Creating an Islamic State Vanessa Martin, 2003-03-28 How did the Ayatollah Khomeini create his Islamic state What were the ideas which drove him and his movement What organization and methods helped bring him to power This book analyses the ideological roots of an Islamic state as conceived by the Ayatollah Khomeini Surprisingly the author finds much of the inspiration behind Khomeini's political thinking being influenced by Western sources his writing on the supreme Islamic Jurist being affected by Plato's notions of the philosopher king and his views of state power and centralism being closely linked to his understanding of Marxist Leninist totalitarianism Vanessa Martin considers the dynamics of the Iranian Revolution and the Islamist revival in a book which is especially relevant in the context of the debate arising out of Iran's elections

Religious Statecraft Mohammad Ayatollahi Tabaar, 2018-05-08 Since the 1979 revolution scholars and policy makers alike have tended to see Iranian political actors as religiously driven dedicated to overturning the international order in line with a theologically prescribed outlook This provocative book argues that such views have the link between religious ideology and political order in Iran backwards *Religious Statecraft* examines the politics of Islam rather than political Islam to achieve a new understanding of Iranian politics and its ideological contradictions Mohammad Ayatollahi Tabaar traces half a century of shifting Islamist doctrines against the backdrop of Iran's factional and international politics demonstrating that religious narratives in Iran can change rapidly frequently and dramatically in accordance with elites' threat perceptions He argues that the Islamists' gambit to capture the state depended on attaining a monopoly over the use of religious narratives Tabaar explains how competing political actors strategically develop and deploy Shi'a inspired ideologies to gain credibility

constrain political rivals and raise mass support He also challenges readers to rethink conventional wisdom regarding the revolution Ayatollah Khomeini the U S embassy hostage crisis the Iran Iraq War the Green Movement nuclear politics and U S Iran relations Based on a micro level analysis of postrevolutionary Iranian media and recently declassified documents as well as theological journals and political memoirs Religious Statecraft constructs a new picture of Iranian politics in which power drives Islamist ideology
