Glass, 2014-12-09 Public space both literally and figuratively is foundationally important to political life From Socratic lectures in the public forum to Occupy Wall Street and the Arab Spring public spaces have long played host to political discussion and protest The book provides a direct assessment of the role that public space plays in political life **Epiestems of Death** Pratham Parekh, 2017-01-01 Death and dying

experiences are not common across human race because humans do not share common cultural heritage and physical environment The fact of death thus can be considered as socially constructed fact abounded by idiosyncratic religious beliefs and rituals existing within social life It is almost impossible to have common consensual understanding of death and dying This book tries to investigate various sources of knowledge about death in multiple disciplines from sociological lenses

Cox, 2000-12-30 For the past three decades policies regarding a variety of information issues have emanated from federal agencies legislative chambers and corporate boardrooms Despite the focus on information policy it is still a relatively new concept and one only now beginning to be studied The subject area is wider than believed archives and records policies information resources management information technology telecommunications international communications privacy and confidentiality computer regulation and crime intellectual property and information systems and dissemination This is not a compendium of policies to be used but rather an exploration in a more detailed fashion of the fundamental principles supporting the setting of records policies Records policies are critically important for records professionals to develop and use as a means of strategically managing the information and evidence found in the millions of records created daily provided that the policies are based on comprehensible principles This is a series of discourses on the fundamentals of archives and records management needing to be understood before any organization attempts to define and set any policy affecting records and information The chapters concern defining records how information technology plays into policy compiling the fundamental tasks of identifying and maintaining records as critical to records and information policy public outreach and advocacy as a key objective for such policy and the role of educating records professionals in supporting sensible records policies The Contemporary

Deathbed John Anthony Tercier, 2005-04-15 How do we picture ourselves dying A death with dignity the darkened room and a few murmured farewells Or in the lights flashing siren wailing chest pumping maelstrom of the back of an ambulance hurtling towards an ER Over the last decade the two most robust vehicles of popular culture film and television have opted for the latter scenario This book examines the hi tech death of the twenty first century as enacted in our hospitals and as portrayed on our TV screens **Celebrity and Mediated Social Connections** Neil M. Alperstein, 2019-05-16 Celebrity and Mediated Social Connections is a critical examination of the multiple realities of the mediated culture we traverse extending

from our imaginary inner worlds to the imagined communities of digital media Chapters explore the dialogic at work when we connect with celebrities and internalize aspects of their personas due to the various social roles they serve within our everyday lives What might begin as strong identification and internalization within our imaginary worlds in this digital age sometimes seeps out as we connect to celebrities their fans friends and followers in ways that were not formerly possible The book contains topics that range from the degradation of micro celebrities the role of celebrities in promoting prescription drugs and their role in contemporary social movements The common thread that runs through the book presents a mediated world that paradoxically allows if not encourages people to daydream engage in stream of consciousness thinking and fantasize about celebrities all while concurrently compelling us to engage in a digitally based objective world The possibility of interaction on and through digital media intensifies the emotional connection between celebrity and fan The more personal details one gives up the closer we feel we become digital intimacy based on the excessive self Digital media entice us to engage and remain tethered to technology staying continuously connected so as not to miss the latest post or meme To suggest we should build a proverbial wall between the two imaginary and objective worlds runs counter to the reality of an always on always connected culture in which we presently live
