Prosody Focus And Word Order:

Prosody, Focus, and Word Order Maria Luisa Zubizarreta, 1998 This monograph exemplifies a trend in grammatical theory in which researchers combine findings from more than one area of linguistics Specifically the author looks at the relationship between phrasal prominence and focus in Romance and Germanic languages to provide insights into how these properties are grammatically articulated Building upon prominence nuclear stress reflects syntactic ordering There are two varieties of syntactic ordering The first is the standard asymmetric c command ordering The second is the ordering derived from the primitive relation of selection holding between a head and its associated argument **Topic and Focus** Chungmin Lee, Matthew Gordon, 2006-12-18 During the 2001 Linguistic Summer Institute at University of California Santa Barbara a group of linguists gathered at a workshop to discuss the expression and role of topicalization and focus from a variety of perspectives phonetic phonological syntactic semantic and pragmatic The workshop was designed to lay the groundwork for collaborative efforts between linguists devoted to the study of meaning and linguists engaged in the quantitative study of intonation This volume contains papers emerging from the Santa Barbara Workshop on Topic and Focus A wide variety of methodologies and research interests related to topic and focus are represented in the papers Some works present results of phonetic studies either acoustic or perceptual on the expression of topic and or focus others examine semantic or pragmatic features of topic and or focus while others are concerned with the interface between intonation and meaning Data from several different languages are represented in the papers including several languages with relatively little documentation particularly in the venue of topic and focus e g Basque Chickasaw Indonesian Polish Taiwanese The broad sample of languages coupled with the wide variety of research topics addressed by the papers promise to enrich our typological understanding of topic and focus phenomena and provide an impetus for further research The following paragraphs offer brief summaries of the papers contained in this volume Gorka Elordieta's paper describes prosodic conditions governing focus in a dialect of Basque with pitch accents **The Syntax of Topic, Focus, and Contrast** Ad Neeleman, Reiko Vermeulen, 2012-12-06 This book addresses how core notions of information structure topic focus and contrast are expressed in syntax The authors propose that the syntactic effects of information structure come about as a result of mapping rules that are flexible enough to allow topics and foci to be expressed in a variety of positions but strict enough to capture certain cross linguistic generalisations about their distribution In particular the papers argue that only contrastive topics and contrastive foci undergo movement and that this is because such movement has the function of marking the scope of contrast Several predications are derived from this proposal such as that a focus cannot move across a topic whether the latter is in situ or not Syntactic and semantic evidence in support of this proposal is presented from a wide range of languages including Dutch English Japanese Korean and Russian and theoretical consequences explored The first chapter not only outlines its theoretical aims but also provides an introduction to information structure As a consequence the book is accessible to

advanced students as well as professional linguists *The Word Order of the Gospel of Luke* Ivan Shing Chung Kwong, 2005-12-09 This work studies the word order of the Gospel of Luke and some of its prominent messages with consideration of systemic functional linguistic theories The first part of the work focuses on the relative positions of four constituents subject predicate complement and circumstantial adjunct of different types of Lukan clauses independent dependent infinitival participial and embedded clause The result gives some unmarked typical or common word order patterns and some marked word order patterns of all Lukan clauses The second part traces the foregrounded messages of the Gospel based on their related marked word order patterns incorporated with functional linguistic phenomena The result highlights the messages of Jesus disciples and his parents failure in understanding him Pilate's crime of handing over Jesus and Jesus predictions of his future sufferings and Peter's future failure JSNTS and Studies in New Testament Greek series

Romance Languages and Linguistic Theory 2001 Josep Quer i Carbonell, 2003 The volumes Romance Languages and Linguistic Theory published in the series Current Issues in Linguistic Theory contain the selected papers of the Going Romance conferences a major European annual discussion forum for theoretically relevant research on Romance languages Romance Languages and Linguistic Theory 2001 is the third such volume It presents a selection of the papers that have been presented at the occasion of Going Romance 2001 XV which was held at the University of Amsterdam on December 6-8 2001 The three day program included a workshop on Determiners The volume contains articles on specifics of one or more Romance languages or varieties the architecture of the Determiner Phrase and properties of determiners the left periphery of the sentence and clause structure null elements and their interpretation clitics and other interesting phenomena in the Romance languages Aspects of the Grammar of Focus Przemysław Tajsner, 2008 The book examines the aspects of focus within the recent minimalist paradigm Focus is viewed here as a grammar's response to the requirements of the systems external to narrowly defined language Thus the properties of focus are explored at the two interfaces syntax phonology and syntax semantics The book surveys some recent views on the interface and left periphery status of focus With respect to the semantics of focus the book argues for its tripartite division into information non exhaustive identification and exhaustive identification It further contains a proposal of the phase based derivation of sentences featuring focus in English and finally offers an account of Polish in which focus interestingly correlates with the phenomenon of scrambling **Competition in Syntax** Gereon M Ller, Wolfgang Sternefeld, 2001 The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century This branch of linguistics broadly known as Generative Grammar is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the language organ The series comprises high quality monographs and collected volumes that address such issues The topics in this series range from phonology to semantics from syntax to information structure from mathematical linguistics to studies of the lexicon **The Verbal Complex in Subordinate Clauses from Medieval to**

Modern German Christopher D. Sapp, 2011-01-26 This research monograph is an empirical and theoretical study of clause final verbal complexes in the history of German The book presents corpus studies of Middle High German and Early New High German and surveys of contemporary varieties of German These investigations of the verbal complex address not only the frequencies of the word orders but also the linguistic factors that influence them On that empirical basis the analysis adopted is the classic verb final approach with alternative orders derived by Verb Projection Raising Verb Raising in these historical and modern varieties is subject to morphological prosodic and sociolinguistic restrictions suggesting that the orders in question are not driven by narrow syntax but by their effects at the interface with phonology This study will be of interest to students and scholars studying the diachronic syntax of German West Germanic dialect syntax and the relationship between prosody and word order

Information Structure in Spoken Arabic Jonathan Owens, Alaa Elgibali, 2013-03 Spoken Arabic is different in many respects from literary Arabic This book is concerned with speakers intentions and the structural and pragmatic resources they employ Based on new empirical findings from across the Arabic world this work will be of interest to both students and researchers

Hyman, 2016-12-19 This volume brings together descriptions and analyses of the conjoint disjoint alternation a typologically significant phenomenon found in many Bantu languages The chapters provide in depth documentation comparative studies and theoretical analyses of the alternation from a range of Bantu languages showing its crosslinguistic variation in constituent structure morphology prosody and information structure

Comparative and Contrastive Studies of Information Structure Carsten Breul, Edward Göbbel, 2010-09-09 This volume presents original comparative and contrastive research into various aspects of information structure topic focus contrastivity givenness anaphoricity as well as into forms and structures whose realisation depends on information structural factors clefts dislocations reflexives null subjects prosodic features interrogatives in a number of different languages Catalan English French Georgian German Hebrew Hungarian Each contribution emphasises differences or commonalities between the languages under investigation with respect to the realisation of information structural categories or with respect to the information structural implications of a given form or structure The specific comparative contrastive perspective of the volume makes a substantial contribution towards a better understanding of language specific and universal aspects of information structure It raises significant questions and provides solutions for the formal representation and the functional properties of information structural categories

The Cambridge Handbook of Romance Linguistics Adam Ledgeway, Martin Maiden, 2022-07-07 The Romance languages and dialects constitute a treasure trove of linguistic data of profound interest and significance Data from the Romance languages have contributed extensively to our current empirical and theoretical understanding of phonetics phonology morphology syntax semantics pragmatics sociolinguistics and historical linguistics Written by a team of world renowned scholars this Handbook explores what we can learn about

linguistics from the study of Romance languages and how the body of comparative and historical data taken from them can be applied to linguistic study It also offers insights into the diatopic and diachronic variation exhibited by the Romance family of languages of a kind unparalleled for any other Western languages By asking what Romance languages can do for linguistics this Handbook is essential reading for all linguists interested in the insights that a knowledge of the Romance evidence can provide for general issues in linguistic theory The Syntax of Sentential Stress Arsalan

Kahnemuyipour, 2009-07-30 This book explores the nature of sentential stress how it is assigned and its interaction with information structure Its central thesis is that the position of sentential or nuclear stress is determined syntactically and that cross linguistic differences in this respect follow from syntactic variations **Parameter Theory and Linguistic Change**

Charlotte Galves, Sonia Cyrino, Ruth Lopes, Filomena Sandalo, Juanito Avelar, 2012-11-01 This book focuses on some of the most important issues in historical syntax In a series of close examinations of languages from old Egyptian to modern Afrikaans leading scholars present new work on Afro Asiatic Latin and Romance Germanic Albanian Celtic Indo Iranian and Japanese The book revolves around the linked themes of parametric theory and the dynamics of language change The former is a key element in the search for explanatory adequacy in historical syntax if the notion of imperfect learning for example explains a large element of grammatical change it is vital to understand how parameters are set in language acquisition and how they might have been set differently in previous generations The authors test particular hypotheses against data from different times and places with the aim of understanding the relationship between language variation and the dynamics of change Is it possible for example to reconcile the unidirectionality of change predominantly expressed in the phenomenon of grammaticalization with the multidirectionality predicted by generativist approaches In terms of the richness of the data it examines the broad range of languages it discusses and the use it makes of linguistic theory this is an outstanding book not least in the contribution it makes to the understanding of language change **The Morphology and Syntax of Topic and Focus**

Liliana Sánchez, 2010-11-25 This book presents an innovative analysis that relates informational structure syntax and morphology in Quechua It provides a minimalist account of the relationship between focus topic evidentiality and other left peripheral features and sentence internal constituents marked with suffixes that have been previously considered of a pragmatic nature Intervention effects show that these relationships are also of a syntactic nature The analysis is extended to morphological markers that appear on polarity sensitive items and wh words The book also provides a brief overview of the main characteristics of Quechua syntax as well as additional bibliographical information *Romance Linguistics* Ana Teresa Pérez Leroux, Yves Roberge, 2003 This volume contains a selection of refereed and revised papers originally presented at the 32nd Linguistics Symposium on Romance Languages dealing with linguistic theory as applied to the Romance languages and on empirical studies on the acquisition of Romance with studies on Romanian French Spanish Portuguese Italian Romansch and Latin The theoretical section contains contributions concentrating on specific properties of Romance at the syntax

semantics interface on morphosyntactic issues on subject licensing and case and on phonology The acquisition section includes contributions on first bilingual and second language acquisition of functional structure word structure quantification and stress
