Prospect for Metaphysics Ian T. Ramsey,1969 **Prospect for Metaphysics** Ian Ramsey,1961-01-01 Prospect for Metaphysics Ian T. Ramsey,1967 *Prospect for Metaphysics* Henry Olivier,1961 **Prospect for Metaphysics. Essays of Metaphysical Exploration. Edited by Ian Ramsey** Ian Thomas RAMSEY (Bishop of Durham.),1961 **PROSPECT FOR METAPHYSICS : ESSAYS OF METAPHYS. EXPLORATION** ,1969 **Theological Radicalism and Tradition** Howard E. Root,2017-10-30 The limits of radicalism are those which end not in chaos but in the breaking of fresh ground Howard E Root Previously unpublished and only recently rediscovered by Dr Christopher R Brewer in an uncatalogued box in the archives of Lambeth Palace Library Canon Howard E Root s 1972 Bampton Lectures The Limits of Radicalism have to do with nothing less than what theology is a topic no less relevant today than it was in 1972 Against the radical reductionism of his time Root defended the integrity of theology and theological truth Advocating a backward looking radicalism he thought that tradition should display recognisable continuity and yet at the same time against reductionistic tendencies that it might be enriched and enlarged via a wide variety of additive imagery including though not limited to poetry and pop art music and even television We must begin where we are said Root for we cannot in the manner of Leonard Hodgson think ourselves into the minds and feelings of men 2000 years ago In this volume which begins with a substantial mostly biographical introduction Dr Brewer argues that Root a backward looking radical who defended metaphysics and natural theology and insisted that theologians look to the arts as theological resources anticipates the work of David Brown and others concerned with tradition and imagination relevance and truth A fascinating glimpse into the recent history of British Christianity Root s lectures as well as the related appendices are essential reading for theologians interested in the dynamics of a developing tradition and the theme of openness as well as those with a particular interest in 1960s Cambridge radicalism and the British reception of the Second Vatican Council Prospect for Metaphysics Ian T. Ramsey,1961 New Themes in Christian Philosophy Ralph McInerny, **Prospects for Natural Theology** Eugene Thomas Long,2018-03-02 Natural theology which suffered significantly in the eighteenth century as a result of the criticisms of David Hume and Immanuel Kant appeared to be a terminal patient in the mid twentieth century in the 1960s however philosophers and theologians began **One Hundred Years of Philosophy** Brian Shanley,2019-02-08 This collection originated in the centenary celebration of the School of Philosophy at The Catholic University of America Written by acknowledged experts in their fields the essays provide a unique overview of philosophical developments in the twentieth century The broad range of topics considered makes the book an invaluable reference work **Christian Ethics and Contemporary Philosophy** Ian T. Ramsey,2011-06-07 In a time when more and more people are discovering they can have a rational morality without an orthodox God these twenty four essays reappraise the whole character of Christian ethics and criticize the traditional underpinning of morality by religion Edited by Ian T Ramsey professor of philosophy at Oxford University the volume is a

valuable sequel to the well known New Essays in Philosophical Theology The contributors include atheists agnostics and Christians Among them are Ninian Smart R B Braithwaite Ronald Hepburn and Iris Murdoch The essays do not attempt to examine specific Christian questions in any sort of theological detail rather their primary concern is with problems that arise principally in a philosophical context But they are concerned with issues that lie behind the present bewilderment in Christian morality Stressing the diversity of moral situations the papers show that these are far from being homogeneous and rule determined Moral decision demands personal involvement activating the possibility of good and bad reasons for making such a decision The essays point out the character of moral disagreements and also remind us that morality is not only of individual but also of social significance The last section of the book examines the present concept of natural law its possible erosion by developments in anthropology psychology and philosophy and whether the possibility exists for a theory of morality that unites both natural law theory and Christian ethics Process Metaphysics Nicholas Rescher,1996-02-01 This is a synoptic compact and accessible exposition for readers who want to inform themselves regarding this influential and interesting sector of twentieth century American philosophy **Blessed Rage for Order** David Tracy,1996-03 In Blessed Rage for Order David Tracy examines the cultural context in which theological pluralism emerged Analyzing orthodox liberal neo orthodox and radical models of theology Tracy formulates a new revisionist model He considers which methods promise the most certain results for a revisionist theology and applies his model to the principal questions in contemporary theology including the meanings of religion theism and of christology **A Companion to Tragedy** Rebecca Bushnell,2009-03-30 A Companion to Tragedy is an essential resource for anyone interested in exploring the role of tragedy in Western history and culture Tells the story of the historical development of tragedy from classical Greece to modernity Features 28 essays by renowned scholars from multiple disciplines including classics English drama anthropology and philosophy Broad in its scope and ambition it considers interpretations of tragedy through religion philosophy and history Offers a fresh assessment of Ancient Greek tragedy and demonstrates how the practice of reading tragedy has changed radically in the past two decades Prospects of Legal Semiotics Anne Wagner,Jan M. Broekman,2010-09-24 This book examines the progress to date in the many facets conceptual epistemological and methodological of the field of legal semiotics It reflects the fulfilment of the promise of legal semiotics when used to explore the law its processes and interpretation This study in Legal Semiotics brings together the theory structure and practise of legal semiotics in an accessible style The book introduces the concepts of legal semiotics and offers an insight in contemporary and future directions which the semiotics of law is going to take A theoretical and practical oriented synthesis of the historical contemporary and most recent ideas pertaining to legal semiotics the book will be of interest to scholars and researchers in law and social sciences as well as those who are interested in the interdisciplinary dynamics of law and semiotics The Renewal of the Heidegger Kant Dialogue Frank Schalow,1992-01-01 Brings Heidegger s perspective to bear on questions of ethics moral freedom and its social implications rooting much of

Heidegger in his joining with or rejoinders to Kant **The Routledge Handbook of Metametaphysics** Ricki Bliss,J.T.M. Miller,2020-07-14 Philosophical questions regarding the nature and methodology of philosophical inquiry have garnered much attention in recent years Perhaps nowhere are these discussions more developed than in relation to the field of metaphysics The Routledge Handbook of Metametaphysics is an outstanding reference source to this growing subject It comprises thirty eight chapters written by leading international contributors and is arranged around five themes The history of metametaphysics Neo Quineanism and its objectors Alternative conceptions of metaphysics The epistemology of metaphysics Science and metaphysics Essential reading for students and researchers in metaphysics philosophical methodology and ontology The Routledge Handbook of Metametaphysics will also be of interest to those in closely related subjects such as philosophy of language logic and philosophy of science **Platonic Legacies** John Sallis,2012-02-01 In Platonic Legacies John Sallis addresses certain archaic or exorbitant moments in Platonism His concern is to expose such moments as those expressed in the Platonic phrase beyond being and in the enigmatic word chora Thus he ventures to renew chorology and to bring it to bear most directly on Platonic political discourse and Plotinian hyperontology More broadly he shows what profound significance these most archaic moments of Platonism which remained largely unheeded in the history of philosophy have for contemporary discussions of spacings of utopian politics of the nature of nature and of the relation between philosophy and tragedy Thus addressing Platonism in its bearing on contemporary philosophy Platonic Legacies engages in turn a series of philosophers ranging from Nietzsche Heidegger and Arendt to certain contemporary American Continental philosophers These engagements focus on the way in which these recent and contemporary philosophers take up the Platonic legacies in their own thought and on the way in which the exposure of an archaic Platonism can redirect or supplement what they have accomplished **Nietzsche and Epicurus** Vinod Acharya,Ryan J. Johnson,2020-04-16 This volume explores Nietzsche s decisive encounter with the ancient philosopher Epicurus The collected essays examine many previously unexplored and underappreciated convergences and investigate how essential Epicurus was to Nietzsche s philosophical project through two interrelated overarching themes nature and ethics Uncovering the nature of Nietzsche s reception of relation to and movement beyond Epicurus contributors provide insights into the relationship between suffering health and philosophy in both thinkers Nietzsche s stylistic analysis of Epicurus the ethics of self cultivation in Nietzsche s Epicureanism practices of eating and thinking in Nietzsche and Epicurus the temporality of Epicurean pleasure the practice of the gay science and Epicureanism and politics The essays also provide creative comparisons with the Stoics Hobbes Mill Guyau Buddhism and more Nietzsche and Epicurus offers original and illuminating perspectives on Nietzsche s relation to the Hellenistic thinker in whom Nietzsche saw the embodiment of the practice of philosophy as an art of existing
