Aboriginal Child Welfare, Self-government and the Rights of Indigenous Children Sonia Harris-Short, 2012 This volume addresses the contentious and topical issue of aboriginal self government over child welfare Using case studies from Australia and Canada it discusses aboriginal child welfare in historical and comparative perspectives and critically examines recent legal reforms and changes in the design management and delivery of child welfare services aimed at securing the decolonization of aboriginal children and families Within this context the author identifies the limitations of reconciling the conflicting demands of self determination and sovereignty and suggests that international law can provide more nuanced and culturally sensitive solutions Referring to the UN Declaration on the Rights of Indigenous Peoples and the UN Convention on the Rights of the Child it is argued that the effective decolonization of aboriginal child welfare requires a journey well beyond the single issue of child welfare to the heart of the debate over self government self determination and sovereignty in both national and international law pub desc

Decolonising Indigenous Child Welfare Terri Libesman, 2013-12-04 During the past decade a remarkable transference of responsibility to Indigenous children s organisation has taken place in many parts of Australia Canada the USA and New Zealand It has been influenced by Indigenous peoples human rights advocacy at national and international levels by claims to self determination and by the globalisation of Indigenous children s organisations Thus far this reform has taken place with little attention from academic and non Indigenous communities now Decolonising Indigenous Child Welfare Comparative Perspectives considers these developments and evaluating law reform with respect to Indigenous child welfare asks whether the pluralisation of responses to their welfare and well being within a cross cultural post colonial context can improve the lives of Indigenous children The legislative frameworks for the delivery of child welfare services to Indigenous children are assessed in terms of the degree of self determination which they afford Indigenous communities The book draws upon interdisciplinary research and the author s experience collaborating with the peak

Australian Indigenous children's organisation for over a decade to provide a thorough examination of this international issue. Dr Terri Libesman is a Senior Lecturer in the Law Faculty at the University of Technology Sydney. Foster, Brian Wharf, 2011-11-01. **People Politics and Child Welfare in British Columbia** traces the evolution of policies and programs intended to protect children in BC from neglect and abuse. Analyzing this evolution reveals that child protection policy and practice has reflected the priorities of politicians and public servants in power. With few exceptions, efforts to establish effective programs have focused on structural arrangements, staffing responsibilities, and rules to regulate the practice of child welfare workers. Contributors to this book conclude that these attempts have been unsuccessful thus far because they have failed to address the impact of poverty on clients. The need to respect the cultural traditions and values of First Nations clients has also been ignored. Effective services require recognizing and remedying poverty's impact, establishing community control over services, and developing a radically different approach to the day-to-day practice of child welfare workers. **People Politics and Child Welfare in British Columbia** provides a crucial assessment of the state of child welfare in the province. Practitioners, scholars, and students in social work, child and youth care, education, and other human service professions will find this book particularly important. Protecting Children Kathleen Kufeldt, Barbara Fallon, Brad McKenzie, 2021-06-25. Focusing on children who are subject to welfare intervention, **Protecting Children** addresses the challenges and issues of the child welfare system and provides foundational knowledge on the theoretical and practical aspects of the field. This edited collection begins with a review of key concepts including child development, attachment, and resilience theories, social policies, family law, and ethics. Highlighting the translation of theory into practice, the contributors discuss current services and the search for best practice internationally, as well as explore Indigenous child welfare and offer conclusions and recommendations to promote positive outcomes for children and families involved in the system. Scholars, researchers, and practitioners from across the globe provide insight on a wide range of timely issues such as the risk of reductionism, limits to predictability, pragmatic issues, as well as the disproportional presence in the care system of minority groups including Indigenous children, children of new immigrants, and refugees, children in LGBTQ communities, and children of the poor. This foundational volume is an important resource for courses in social work and child welfare. **FEATURES** includes contributions from researchers, practitioners, and scholars from Australia, Canada, New Zealand, the United Kingdom, and the United States, highlights Indigenous authors and personal stories of service users, and includes figures and tables throughout the text, as well as section introductions and conclusions to situate main theories and concepts for students. **Legal Education Through an Indigenous Lens** Nicole Watson, Heather Douglas, 2024-12-04.
