Protection Internationale De L'environnement:

Protection internationale de l'environnement Laurence Boisson de Chazournes, 2005 Droits de l'investisseur étranger et protection de l'environnement Sabrina Robert-Cuendet, 2010-05-12 En droit international de l'investissement le prisme de l'expropriation indirecte couvre une large catégorie de mesures telles que les réglementations qui n'impliquent pas de transfert de propriété mais aboutissent à une grave interférence avec un investissement La définition des possessions indemnisables constitue une question extrêmement sensible située à la croisée des chemins entre la protection des droits des investisseurs et la préservation des prérogatives de l'Etat Cet ouvrage explore à travers l'exemple de la réglementation environnementale le droit applicable à cette notion controversée Il montre que l'approche traditionnelle reposant sur une dilution du concept d'expropriation n'est nullement appropriée et il contribue à clarifier la tendance de la protection de l'investisseur sur le fondement du droit de la responsabilité internationale de l'Etat In international investment law the prism of indirect expropriation includes a broad range of measures such as regulatory measures which do not involve a transfer of property but result in a serious interference with an investment The definition of compensable taking is a very sensitive issue situated at the crossroads between the protection of investors' private rights and the safeguarding of the state's sovereign prerogatives This book explores through the example of environmental regulation the law applicable to this controversial topic It suggests that the traditional approach based on an extension of the concept of expropriation is inappropriate and it contributes to clarifying the scope of the international protection of the investor on the ground of the law of state responsibility **Recueil Des Cours, Collected Courses 1980**, 1983-03-21 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects The work of the Hague Academy receives the support and recognition of the UN Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law , **Environmental Protection and Sustainable Development from Rio to Rio+20** Malgosia Fitzmaurice, Sandrine Maljean-Dubois, Stefania Negri, 2015-01-08 The Challenges of Environmental Protection and Sustainable Development from Rio to Rio 20 and Beyond is an innovative and original book which addresses in an analytical and critical way the issues raised by Rio 20 Its content offers a wealth of information from world leading experts in the fields of international law international environmental law and international health law The book provides a unique insight into issues which are at the core of the contemporary management of social environmental and economic questions and thus represents a very important contribution to our further understanding of the concept of sustainable development It is aimed at a global audience and at anybody interested in the future of our Planet and the fate of future generations Contributors are Pia Acconci Estelle Brosset Francesco Buonomenna Lucien Chabason Carina

Recueil Des Cours, 1984 Académie de droit international de La Haye, 1989-03-01 **The Protection of the environment through criminal Law** J.L. De La Cuesta, L. Quackelbeen, N. Persak, G. Vermeulen, 2017-02-02 Continuing the AIDP's tradition in examining how to improve the protection of the environment through criminal law this volume addresses various challenges and scientific concerns in relation to environmental crime. It touches upon a range of topics from biodiversity to corporate criminal liability to jurisdictional or prosecutorial problems and explores multiple national and regional enforcement systems drawing from best practices. It brings together key proceedings of the Second AIDP World Conference on the Protection of the Environment through Criminal Law Bucharest May 18-20 2016 organised by the International Association of Penal Law AIDP in collaboration with the Romanian Association of Penal Sciences the Legal Research Institute of the Romanian Academy of Sciences and the Ecological University of Bucharest **La protection internationale du patrimoine culturel de la mer** Marine They, 2018-03-20 Since the 1980's States have been increasingly concerned with ensuring appropriate protection of underwater cultural heritage endangered by anthropogenic activities reaching ever deeper ocean waters. The localisation of certain sites in the high seas has raised jurisdictional claims sometimes grounded on an extension of connected factors spatial and extra spatial already recognized in general international law and in the law of the sea while other cases are based on hitherto purely factual links. But conventional and customary rules remain insufficient either for a real delimitation of states' competences or for regulating the exercise of jurisdiction once authorized in a certain sphere. In *La protection internationale du patrimoine culturel de la mer* Marine They provides a detailed analysis of these critical issues. Depuis les années 1980 les États se montrent de plus en plus soucieux d'assurer une protection adéquate au patrimoine culturel submergé en mer menacé par les activités anthropiques jusque dans les grands fonds marins. La localisation de certains sites en haute mer a fait naître des revendications de compétence tantôt fondées sur l'extension des rattachements spatiaux et extra spatiaux reconnus par le droit international général et par le droit de la mer tantôt sur des facteurs de rattachement jusqu'ici purement factuels. Insuffisantes aux fins de procéder une véritable limitation des compétences en la matière les règles conventionnelles et coutumières sont tout autant lorsqu'il s'agit d'encadrer l'exercice des fonctions étatiques dans une sphère de compétence déjà reconnue *Protection Internationale de l'environnement* Laurence Boisson de Chazournes, 1998 *Institutionalizing State Responsibility* Vincent-Joël Proulx, 2016-05-06 Since the 9/11 attacks international organizations have become actively engaged in devising counterterrorism strategies and frameworks. This monograph examines the role UN organs can play in implementing the law of State responsibility in global security contexts using transnational terrorism as its principal case study. The institutional mechanisms utilized by the UN in implementing State responsibility are assessed in detail shedding light on how the ICJ the General Assembly and the Security Council contribute to the implementation of State responsibility in the context of global security. By acknowledging the Security Council's role as a post 9/11 legislator this book argues that the Council can play an

important and sometimes determinant role in implementing a State's legal responsibility for failing to prevent terrorism both inside and outside the Chapter VII framework. Featuring a discussion of the more controversial consequences flowing from State responsibility, this monograph also explores the prospect of injured States adopting forcible measures against responsible States for their failures to prevent terrorism. The book investigates whether self-defence and other forcible reactions envisaged both inside and outside the Council can be reconciled with State responsibility principles.

Droit de l'environnement - Licence, Master Pascale Martin-Bidou, Christophe Sinnassamy, 2023-12-22. Développement climatique, réchauffement de la planète, pollution, montée des eaux, exode de populations, disparition des espèces et biodiversité menacée. L'inquiétude ne suffit plus. Agir, c'est s'informer, savoir et comprendre pour décider en connaissance de cause. Car les enjeux redoutables de l'avenir ne sont plus seulement en débat, le droit s'en empare. Des principes d'action sont mis en œuvre. Nécessité, fait loi, justice s'impose, il s'agit désormais d'orienter, de réguler, d'encadrer, de primer et de répondre. Une politique juridique de grande envergure nationale, européenne et internationale se déploie sous nos yeux, cet ouvrage en synthétise l'essentiel et devient le vade-mecum d'un citoyennet responsable.
