Do Institutions Matter? R. Kent Weaver, Bert A. Rockman, 2010-12-01 As a stunning tide of democratization sweeps across much of the world countries must cope with increasing problems of economic development political and social integration and greater public demand of scarce resources That ability to respond effectively to these issues depends largely on the institutional choices of each of these newly democratizing countries With critics of national political institutions in the United States arguing that the American separation of powers system promotes ineffectiveness and policy deadlock many question whether these countries should emulate American institutions or choose parliamentary institutions instead The essays in this book fully examine whether parliamentary government is superior to the separation of powers system through a direct comparison of the two In addressing specific policy areas such as innovation and implementation of energy policies after the oil shocks of 1970 management of societal cleavages setting of government priorities in budgeting representation of diffuse interest in environmental policy and management of defense forces the authors define capabilities that allow governments to respond to policy problems Do Institutions Matter includes case studies that bear important evidence on when and how institutions influence government effectiveness The authors discover a widespread variation among parliamentary systems both in institutional arrangements and in governmental capabilities and find that many of the failings of policy performance commonly attributed to American political institutions are in fact widely shared among western industrial countries Moreover they show how American political institutions inhibit some government capabilities while enhancing others Changing American institutions to improve some aspects of governmental performance could hurt other widely valued capabilities The authors draw important guidelines for institutional reformers wh

**The Industrial Policies of Great Britain and the United States** James Moore Swank, 1876 **Foreign Policies of EU Member States** Amelia Hadfield, Ian Manners, Richard G. Whitman, 2017-06-14 Foreign Policies of EU Member States provides a clear and current overview of the motivations and outcomes of EU Member States regarding their foreign policy making within and beyond the EU It provides an in depth analysis of intra EU policy making and sheds light in an innovative and understandable way on the lesser known aspects of the inter EU and extra EU foreign policies of the twenty eight Member States The text has an innovative method of thematic organisation in which case study state profiles emerge via dominant foreign policy themes The text examines the three main policy challenges currently faced by the twenty eight Member States First EU Member States must cooperate

within the mechanisms of the EU including the Common Foreign and Security Policy CFSP Second EU Member States continue to construct their own inter EU foreign policies Third the sovereign prerogative exercised by all EU Member States is to construct their own foreign policies on everything from trade and defence with the rest of the world This combination of clarity thematic structure and empirical case studies make this an ideal textbook for all upper level students of European foreign policy comparative European politics and European studies

**The Political Economy of European Security** Kaija Schilde,2017-09-14 What is the relationship between private actors and international institutions in global governance as institutions such as the EU develop aspects of political authority once in the sole domain of nation states Important areas of recent EU development have been immigration security and defense policies Are these EU policies the result of strategic imperatives or are they also driven by the political economy of markets Kaija Schilde argues that answers require evaluating the EU in the comparative tradition of the political development of authority Drawing on industry documents interviews interest group data an original survey and comparative political theory The Political Economy of European Security demonstrates that interest groups can change the outcomes of developing political institutions because they provide sources of external capacity which in turn can produce authority over time In this way the EU is like a developing state in its relationship with interest groups

Schuman report on Europe Pascale Joannin,2020-05-09 The Schuman Report 2020 on the State of the Union offers a complete panorama of the European Union

ABOUT THE AUTHOR

Pascale Joannin is managing director of the Schuman Fondation **International Trade And Regional Economies** David J. Hayward, 2019-04-11 This book considers the issue of regional exposure to external economic events exploring the role of trade in the performance of American states It focuses on the case of trade with the European Community analyzing the potential impacts of its integration on trade with individual states **The Competence of the European Union in Copyright Lawmaking** Ana Ramalho, 2016-03-08 This book inquires into the competence of the EU to legislate in the field of copyright and uses content analysis techniques to demonstrate the existence of a normative gap in copyright lawmaking To address that gap it proposes the creation of benchmarks of legislative activity reasoning that EU secondary legislation such as directives and regulations should be based on higher sources of law It investigates two such possible sources the activity of the EU Court of Justice in the pre legislative era and the EU treaties From these sources the author establishes concrete benchmarks of legislative activity which she then tests by applying them to current EU copyright legislation This provides examples of good and bad practices in copyright lawmaking and also shows how the benchmarks could be implemented in copyright legislation Finally the author offers some recommendations in this regard **Screening Foreign Direct Investment in the EU** Jens Velten, 2022-07-19 Foreign Direct Investment FDI from third countries a desirable form of investment to boost the EU s economy or a threat to important EU and Member State interests that must be mitigated via FDI screening mechanisms FDI screening is a complex controversial and highly topical subject at the intersection of law politics and economics This book analyzes the political rationale behind FDI screening in the EU reveals the legal limitations of current FDI screening mechanisms based on security and public order and identifies legislative options for broader screening mechanisms in accordance with EU and international economic law In particular the book identifies the four main concerns in the EU regarding FDI from third countries distortive competition effects the lack of reciprocity on FDI treatment between the EU and the investor s home country objectives of the investor or their home country that may be detrimental to EU interests and safety of private information On this basis the book analyzes the Screening Regulation Regulation EU 2019 452 and its newly introduced screening ground security or public order and asks whether this and other similar screening grounds based on the notions of security public order and public policy can address these concerns with regard to foreign investors Based on an analysis of WTO law and EU primary law it argues that they cannot Thus the question arises Do the EU and Member States have the flexibility to adopt broader FDI screening mechanisms To answer this question the book examines the freedoms of capital movement and establishment in EU primary law as well as various sources of international economic law such as first and foremost the WTO s General Agreement on Trade in Services but also other bi and plurilateral trade and investment treaties including the EU China Comprehensive Agreement on Investment In closing the book identifies various legislative options for broader FDI screening mechanisms and their shortcomings **Resisting Protectionism** Helen V. Milner, 2021-02-09 Why didn t the protectionist spiral of the 1920s reappear in the 1970s in light of similar

economic and political realities In *Resisting Protectionism* Helen Milner analyzes the growth of international economic interdependence and its effects on trade policy in the United States and France She argues that the limited protectionist response of the 1970s stems from the growth of firms international economic ties which reduces their interest in protection by increasing its cost Thus firms with greater international connections will be less protectionist than more domestically oriented firms The book develops this thesis by examining the international ties of export dependence multinationality and global intra firm trade After studying selected U S industries Milner also examines French firms to see if they respond to increased interdependence in the same way as American firms despite their different historical ideological and political contexts     The European Union Ali El-Agraa,2007-08-09 The European Union provides a comprehensive introduction to the economics and policies of the EU
