Protective Immediacy:

Protective Immediacy Rod Smith, 1999 Poetry Available again Rod Smith is his exact height and has basically quit playing golf This precision and narrowing of focus permit him to arrange many parts of speech in interesting patterns kept flat within this book but ready to spring out like so many Q tipped Slinkies as the age old hinge flexes Working within the post Olsonian precept what does not explain is the will to explain he destroyed the footnotes to this blurb before they were written Too late the magnet hidden in these texts has already blanked your memory and begun to teach your thumbs to oppose again Tom Raworth Rod Smith is the author of IN MEMORY OF MY THEORIES THE BOY POEMS and THE LACK LOVE POEMS TARGETS FLAGS A postal worker for six years he moved to Washington DC in 1987 He is the editor of the journal AERIAL and publisher of Edge Books Wiley Pathways Introduction to Emergency Management Michael K. Lindell, Carla Prater, Ronald W. Lindell, Ronald W. Perry, 2004 Annotation This volume is recommended for practitioners in private emergency management and federal state and local governments as well as students studying risk communication health communication emergency management and environmental policy and management BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Threatcasting** Brian David Johnson, Cyndi Coon, Natalie Vanatta, 2022-06-01 Impending technological advances will widen an adversary's attack plane over the next decade Visualizing what the future will hold and what new threat vectors could emerge is a task that traditional planning mechanisms struggle to accomplish given the wide range of potential issues Understanding and preparing for the future operating environment is the basis of an analytical method known as Threatcasting It is a method that gives researchers a structured way to envision and plan for risks ten years in the future Threatcasting uses input from social science technical research cultural history economics trends expert interviews and even a little science fiction to recognize future threats and design potential futures During this human centric process participants brainstorm what actions can be taken to identify track disrupt mitigate and recover from the possible threats Specifically groups explore how to transform the future they desire into reality while avoiding an undesired future The Threatcasting method also exposes what events could happen that indicate the progression toward an increasingly possible threat landscape This book begins with an overview of the Threatcasting method with examples and case studies to enhance the academic foundation Along with end of chapter exercises to enhance the reader's understanding of the concepts there is also a full project where the reader can conduct a mock Threatcasting on the topic of the next biological public health crisis

The second half of the book is designed as a practitioner's handbook. It has three separate chapters based on the general size of the Threatcasting group that walk the reader through how to apply the knowledge from Part I to conduct an actual Threatcasting activity. This book will be useful for a wide audience from student to practitioner and will hopefully promote new dialogues across communities and novel developments in the area. **Assembling Alternatives** Romana Huk, 2003-04-29 First anthology to examine the national borders of postmodern poetry. Communicating With Children And Their Families: Responding To Need And Protection Davies, Liz, Lebloch, Evelyn Kerrigan, 2013-08-01 This book fills a significant gap for a practical textbook that considers communication theory, policy, and ethics in an innovative and engaging way. *Disaster Management and Rehabilitation* Rajdeep Dasgupta, 2007-12-01 Disaster Management Rehabilitation. This book brings to the reader a comprehensive coverage of the issue of disaster management. Compiling an erudite exploration of disaster management, the book starts with an enunciation of the types of disasters, immediate aid, and the risk factor. Also, it gives a compendious amount of information on emergency aid and long-term plans to benefit victims. Chapters have also been included to help the disaster management professional so gauge potential risk, assess viability, evaluate probability, and risks, and assess damage. **The Creatures at the Absolute Bottom of the Sea** Rosemary McGuire, 2015-03-15 In *The Creatures at the Absolute Bottom of the Sea*, Rosemary McGuire's compelling debut short story collection, fishermen and women cling to a life on the ocean's border. Risk and loss are habits to them, but ones that have not undermined their essential humanity or their hearts. Their lives are rugged, full of grief and grace. No one in these stories comes through unscarred, but they still cling to the hope that comes from a belief in secular miracles. A man witnesses a tragic accident that calls his own life into question. A young woman meets her high school sweetheart after many years and seeks to make sense of the separate paths they've taken. And in the title story, a soldier home from Iraq tries to rebuild his life in a remote Alaskan village. These are fishing stories told as such stories are told: simple, violent, often coarse, but paying homage to the elemental beauty of the sea. In the end, the reader is left with a sense of the fragility and beauty of life as it is exposed in proximity to danger and loss. Saints of Hysteria David Trinidad, Denise Duhamel, Maureen Seaton, 2007-03-06 Collaborative poetry poems written by one or more people grew out of word games played by French surrealists in the 1920s. It was taken up a decade later by Japan's *Vou Club* and then by Charles Henri Ford, who created the chainpoem composed by poets who mailed their lines all over the world. After WW II, the Beat writers' collaborative experiments resulted in the famous *Pull My Daisy*. The concept was embraced in the 1970s by feminist poets as a way to find a collective female voice. Yet for all its rich history, virtually no collections of collaborative poetry exist. This exhilarating anthology remedies the omission. Featured are poems by two, four, even as many as 18 people in a dizzying array of forms: villanelles, ghazals, sonnets, somonkas, pantoums, haiku, even quizzes, questionnaires, and other nonliterary forms. Collaborators' notes accompany many of the poems, giving a fascinating glimpse into the creative process. **Protection of Human Life at Sea in International Law** Aphrodite
