Protest And Survive A Penguin Special:

A Commitment to Campaign John Mattausch, 1989 Brief text and illustrations introduce the habits and habitats of a variety of animals

E. P. Thompson and English radicalism Roger Fieldhouse, Richard Taylor, 2015-06-01 Available in paperback for the first time E P Thompson and English radicalism gathers together a selection of leading authors from a diverse range of disciplines to critically review not only this pivotal work but the wide range of his career including his experience as an adult educator writer poet and critic His involvement in the early New Left his political theories his socialist humanism and his concept of class are all interrogated fully Thompson was also a notable and passionate political polemicist peace campaigner and activist who saw all his public activity as complementary parts of a unified whole and this collection aims to bring his ideas to the attention of a new generation of students scholars and activists

English radicalism in the twentieth century Richard Taylor, 2020-09-15 England has had a predominantly conservative political culture for some centuries Yet there is a persistent minority strand of radicalism that has challenged the practices beliefs and structures of power of the established order This book explores this radical tradition as articulated in the twentieth century The main currents of English radicalism range from liberal reformers through socialist parliamentarians to social movement activists in the peace women s and labour movements Despite their differing agendas all have held their moral and political commitments to achieving a free democratic equal and just society in common Moreover all have believed whatever their other differences in the importance of extra parliamentary social movements What is it that has constituted this radical tradition Is it a coherent distinctive and important political force in the twentieth century And how do these ideas and practices relate to radical politics in England in the early twenty first century This book offers an analysis of the historical and ideological development of English radicalism from the English Civil War onwards Richard Taylor examines how the problems of achieving radical change in England in the twentieth century were approached by the ten key figures from a range of ideological positions within the tradition Bertrand Russell Sylvia Pankhurst Ellen Wilkinson George Orwell E P Thompson Michael Foot Joan Maynard Stuart Hall Tony Benn and Nicolas Walter

Britain's Cold War Bob Clarke, 2012-05-30 From Stettin in the Baltic to Trieste in the Adriatic an iron curtain has descended across the Continent So said Winston Churchill in 1946 About to begin was Britain s most expensive and turbulent periods of military history Four Minute Warning is the story of Britain s Cold War and it deals with all aspects of this chilling time when Britain could have been obliterated so easily by the unleashing of Russian Nuclear Weapons The Cold War was like no other conflict yet experienced It was more than a struggle between two superpowers it was a war of ideologies the Capitalistic West and the Communist East The Cold War leached its way into every facet of British life to the extent it was not really considered a war at all But a war it was The period was punctuated by an arms race which pushed the world to the edge of destruction as both East and West amassed arsenals of nuclear weapons far beyond what would be needed to destroy quite literally everything

So what part did Britain play in all this Read on and find out *The Glasgow Media Group Reader, Vol. I* John Eldridge, 2013-11-05 This first volume of classic articles by the Glasgow University Media Group focuses on issues of news content language and the role of visual images in news reporting It also includes an introduction to the Group's work by John Eldridge

The British Marxist Historians Harvey J. Kaye, 2022-09-30 The British Marxist Historians remains the first and most complete study of the founders of one of the most influential contemporary academic traditions in history and social theory In this classic text Kaye looks at Maurice Dobb and the debate on the transition to capitalism Rodney Hilton on feudalism and the English peasantry Christopher Hill on the English Revolution Eric Hobsbawm on workers peasants and world history and E P Thompson on the making of the English working class Kaye compares their perspective on history with other approaches such as that of the French Annales school and concludes with a discussion of the British Marxist historians contribution to the formation of a democratic historical consciousness The British Marxist Historians is an indispensable book for anyone interested in the intellectual history of the late twentieth century

ThirdWay, 1981-09 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture

Bulletin of the Atomic Scientists, 1981-01 *Glasgow Media Group Reader: News content, language and visuals* John Eric Thomas Eldridge, Greg Philo, 1995 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company

Star Wars Rip Bulkeley, 1985 FROST Copy 1 From the John Holmes Library Collection

[The Protest Makers](#) Richard J K Taylor, Colin Pritchard, 2013-09-03 The Protest Makers The British Nuclear Disarmament Movement of 1958 1965 Twenty Years On explores the political and ideological dimensions of the Movement and the problems posed for achieving radical change in modern Britain This book is divided into four parts that analyze the attitudes and activities of Movement supporters some 20 years later The first part deals with the rise and decline of the Nuclear Disarmament Movement in Britain The second part defines and analyzes the complexity of the Movement's composition and then discusses the differing conceptions and motivations of activists between 1958 and 1965 This part contains ordinary supporters recollections and views of the Movement The third part outlines the various tendencies within the Movement as characterized by the leadership figures themselves The fourth part draws together some of the main themes emerging from empirical and theoretical examination of the Movement This part focuses the importance and political significance of the Movement

Atoms, Bytes and Genes Martin W. Bauer, 2015-02-11 Atom byte and gene are metonymies for techno scientific developments of the 20th century nuclear power computing and genetic engineering Resistance continues to challenge these developments in public opinion This book traces historical debates over atoms bytes and genes which raised controversy with consequences and argues that public opinion is a factor of the development of modern techno science The level and scope of public controversy is an index of resistance examined here with a pain analogy which shows that just as pain impacts movement resistance impacts techno scientific mobilization it signals that something is wrong and this requires attention elaboration and a response to the

challenge This analysis shows how different fields of enquiry deal with the resistance of social psychological mentalities in the face of industrial scientific and political activities inspired by projected futures **E.P. Thompson** Bryan D.

Palmer,1994-10-17 Edward Thompson perhaps the greatest post war historian in the English speaking world died in 1993 In this readable and unabashedly appreciative survey of Thompson s histories and politics Byran D Palmer reviews include a passionate biographical account of the late nineteenth century Romantic William Morris the hugely acclaimed *The Making of the English Working Class* and a series of eighteenth century studies that reach from customary culture to the antinomian poetics of William Blake In reviewing the politics which gave shape to his historical work Palmer assesses the role of Thompson s family background in India his youth in the Communist Party his decisive break with Stalinism in 1956 and his subsequent work campaigning for the causes of the left and nuclear disarmament Thompson was never comfortable in an academic milieu and eventually left formal teaching in the 1970s to devote his time to research and writing His pen was always ready to bend against the powers of the state and against a left he too often saw as abandoning the cause of social transformation For readers who know Thompson s work Palmer s discussion of hitherto unstudied aspects of his life will be novel and illuminating those less familiar with his prodigious achievement will find these pages a useful introduction

English Rebels and Revolutionaries Stephen Basdeo,2022-06-16 Throughout history brave Englishmen and women have never been afraid to rise up against their unjust rulers and demand their rights Barely a century has gone by without England being witness to a major uprising against the government of the day often resulting in a fundamental change to the constitution This book is a collection of biographies written by experts in their field of the lives and deeds of famous English freedom fighters rebels and democrats who have had a major impact on history Featured chapters include the history of Wat Tyler s Rebellion when an army of 50 000 people marched to London in 1381 to demand an end to serfdom and the hated poll tax Alongside Wat Tyler in this pantheon of English revolutionaries is Jack Cade who in 1450 led an angry mob to London to protest against government corruption There are three chapters on various aspects of the English Civil War during which the English executed their king Other rebel heroes featured include Thomas Paine the great intellectual of the American and French Revolutions Mary Wollstonecraft author of *The Rights of Woman* Henry Hunt who as well as the Chartist after him campaigned for universal suffrage William Morris the visionary designer and socialist thinker and finally the Suffragettes and Suffragists who fought for women s voting rights

Ethics and Nuclear Deterrence Geoffrey Goodwin,2020-11-19 As nuclear weapons become ever more sophisticated so the deterrence debate becomes increasingly complex The Ban the Bomb slogans of the 1950s had been replaced by cries for nuclear free zones and talk of megatonnage and fallout had given way to talk of tactical nuclear weapons and limited strike capability Originally published in 1982 this book considers the ethical issues raised by nuclear policies and by the debate between proponents of the multilateralist unilateralist approaches to disarmament and arms control at the time It is not like so many books on the subject an ideological statement there are

essays by defence strategists which put the case for deterrence and essays by academics and churchmen which strenuously oppose it The book also includes an essay on attempts to mitigate the appalling brutality of the many conventional wars since 1945 At a time when the rhetoric and misinformation produced on both sides of the debate continued to obscure many vital issues this book was welcome sensible and necessary The Politics of Nuclear Weapons Andrew Futter,2020-11-23 This comprehensively updated second edition provides an introduction to the political normative technological and strategic aspects of nuclear weaponry It offers an accessible overview of the concept of nuclear weapons outlines how thinking about these weapons has developed and considers how nuclear threats can continue to be managed in the future This book will help you to understand what nuclear weapons are the science behind their creation and operation why states build them in the first place and whether it will be possible for the world to banish these weapons entirely Essential reading for all students of International Relations Security Studies and Military History **Bookseller and the Stationery Trades' Journal** ,1982

Nuclear Weapons A. J. C. Edwards,1986-01-01 This is a clear non technical and comprehensive study of nuclear strategy and the balance of power The book is intended for both supporters and opponents of nuclear deterrence indeed for all who believe that nuclear issues cannot be wished away or laid aside but must be addressed with knowledge even if this means thinking about the unthinkable Within a coherent system of thought this volume addresses the most fundamental issues of our time such as the first strike advantage arms control agreements the Star Wars program the nuclear winter hypothesis and nuclear conflict itself The book is packed with valuable factual information including notes diagrams illustrations and appendices **Beyond the Security Dilemma** Jason Ralph,2017-11-22 This title was first published in 2001 The security dilemma has long been at the heart of the security studies discipline Moving beyond this this book attacks the assumptions of the traditional concept and redefines the security dilemma in a way more useful for examining security policy By exposing the historical and social contingency of the traditional concept the book argues that the security dilemma is an important though not a permanently operating feature of international politics An examination of US policy towards the Soviet Union demonstrates the limits of perceiving the Cold War and challenges the role that American security policy has played in the process of constructing a transatlantic security community Capitalism and Public Policy in the UK Tom Burden,Mike Campbell,2023-07-21 First published in 1985 Capitalism and Public Policy in the UK provides a comprehensive account of the development contemporary character and impact of public policy in the UK It relates public policy to the distinctive features of capitalism class relations and the state The first chapter is used to outline the theoretical framework adopted throughout the book This sees public policy as strongly influenced by the requirements of the capitalist mode of production the balance of class forces historical influences gender divisions and international relations Each of the subsequent chapters focuses on a particular area of policy The relevant theoretical concepts are first introduced followed by an historical account of the development of policy with particular emphasis on the post 1945 period Where appropriate the

impact of a particular area of policy on inequalities of class gender race and age is examined Finally the impact of each area of policy and the state to the process of economic change to class relations and to other social divisions It will be of interest to all those studying the state public policy and political economy generally
