Media, Social Movements, and Protest Cultures in Africa Lungile Tshuma, Trust Matsilele, Shepherd

Mpofu, Mbongeni Msimanga, 2024-08-19 Edited by Lungile Tshuma Trust Matsilele Shepherd Mpofu and Mbongeni Msimanga Media Social Movements and Protest Cultures in Africa Hashtags Humor and Slogans provides a rich array of protest cultures in Sub Saharan Africa delving into the motivations for protests how protests are carried out and how those targeted by protests try to undermine the protesting movements Organized into three parts this book examines social media and social movements online protest strategies and media texts used in various protest movements within Sub Saharan Africa The contributors shed light on the brutality of various post colonial regimes in Africa while also giving the reader hope for the current movements that seek to wrestle their societies from the jaws of autocratic leaders This book offers a theoretically rich and methodologically diverse engagement of protest cultures in countries like Zimbabwe Nigeria and Ethiopia The wide tapestry of how these protests are formulated and executed speaks to Africa s diversity and dynamism This book makes an important intellectual contribution on social and political movements and is relevant to policy makers and researchers in the social sciences and digital humanities *From Protest to Acquiescence?* Paul Bagguley, 1991 Unemployment reached unprecedented levels in Britain during the 1980s but this did not result in widespread social protest During the 1930s in comparison protest was well organised and widespread In this book the author sets out to explain why Protest in South Africa Heidi Brooks, Rekgotsofetse Chikane, 2024-01-23 Popular protest has become a regular feature of post 1994 South Africa As a young democracy born out of resistance we may understand the contemporary manifestations of protest as extensions of this broader history However it is notably in the context of formal democratic institutions that popular protest has become an increasingly normalised mode of influencing policy demanding service delivery and forcing change Protest is constitutive of South Africa s democratic politics but also reflective of it Protest in South Africa Rejection reassertion reclamation explores the underpinnings of contemporary protest and both its short term causes and structural drivers Focusing on the surge of protest from the mid 2000s this edited volume provides an overview of the complexity of protest action the diversity of protest spaces and actors and responses to protest from both citizens and state The volume situates its analysis against the backdrop of the global wave of protest witnessed since the turn of the 21 century while examining protest in South Africa s local and historical contexts Contributors to the volume examine protests in relation to among other factors provision of infrastructure and services contestations around socio economic development issues of citizenship and demands for inclusive democratic governance Chapters also examine the role of women in protest action the policing of protest and the intersection of protest action with spaces of formal politics The volume also alerts us to the darker side of protest and the destruction and division it may foment It thus considers the prospects of South Africa s evolving sometimes

violent protest terrain for social and state stability and democratic progress In the diversity of spaces sectors and communities of interests in which collective action has emerged Protest in South Africa Rejection reassertion reclamation shows how protest is underpinned by a rejection of the status quo a reassertion of interests and a reclaiming of the political and democratic space

World Protests Isabel Ortiz, Sara Burke, Mohamed Berrada, Hernán Saenz Cortés, 2021-11-03 This is an open access book The start of the 21st century has seen the world shaken by protests from the Arab Spring to the Yellow Vests from the Occupy movement to the social uprisings in Latin America There are periods in history when large numbers of people have rebelled against the way things are demanding change such as in 1848 1917 and 1968 Today we are living in another time of outrage and discontent a time that has already produced some of the largest protests in world history This book analyzes almost three thousand protests that occurred between 2006 and 2020 in 101 countries covering over 93 per cent of the world population The study focuses on the major demands driving world protests such as those for real democracy jobs public services social protection civil rights global justice and those against austerity and corruption It also analyzes who was demonstrating in each protest what protest methods they used who the protestors opposed what was achieved whether protests were repressed and trends such as inequality and the rise of women's and radical right protests The book concludes that the demands of protestors in most of the protests surveyed are in full accordance with human rights and internationally agreed upon UN development goals The book calls for policy makers to listen and act on these demands

Crime and Law in England, 1750-1840 Peter King, 2006-12-07 How was law made in England in the eighteenth and early nineteenth centuries Through detailed studies of what the courts actually did Peter King argues that parliament and the Westminster courts played a less important role in the process of law making than is usually assumed Justice was often remade from the margins by magistrates judges and others at the local level His book also focuses on four specific themes gender youth violent crime and the attack on customary rights In doing so it highlights a variety of important changes the relatively lenient treatment meted out to women by the late eighteenth century the early development of the juvenile reformatory in England before 1825 i.e. before similar changes on the continent or in America and the growing intolerance of the courts towards everyday violence This study is invaluable reading to anyone interested in British political and legal history

Human Rights, Refugee Protest and Immigration Detention Lucy Fiske, 2016-08-17 This book builds a compelling picture of injustices inside immigration detention centers within the context of the rise of the use of immigration detention in the Global North The author presents the rarely heard voices of refugees bringing their perspectives to light and personalising and humanising a global political issue Based on in depth interviews with formerly detained refugees who were involved in a wide range of protests such as sit ins and non compliance hunger strikes lip sewing escapes and riots Human Rights Refugee Protest and Immigration Detention presents a comprehensive insight into immigration detention and protest Drawing on the work of Michel Foucault and Hannah Arendt the book challenges contemporary human rights discourses
