Lal,2014-03-13 The book *Going back to Gettysburg* will be bought like hot cakes in intellectual circles in both America and India because it is a light presentation of the uniqueness of the American Civil War 1861-1865 in which 600,000 American soldiers mostly White laid down their lives to secure the release of four million Black slaves in America It has no parallel in the history and mythology of the world It is the only war where combatants fought over the Rights of other oppressed beings and is one of the starting point of the Human Rights movements in the world This book shows quoting authorities like a secret note from the U S Embassy to the American State department leaked by Wikileaks and numerous reports in American and British Press of how the middle class has enriched itself The author has given numerous shady deals of his own Besides the book contains his own studies of middle class corruption which no newspaper would publish because they are themselves huge beneficiaries of the general loot The book contrasts between the Indian habit of quietly submitting to injustice and the Western habit of staging street demonstrations on public issues

Volume two of a 2 volume set Protest Or Perish Jack Chase,2001-08 **Spaces of Anticolonialism** Stephen Legg,2025-03-01 Spaces of Anticolonialism is the first book length account of anticolonialism in Delhi as the capital of Britain s empire in India It pioneers a spatial governmentality analysis of the networks mobilizations and hidden spaces of anticolonial parrhesia or courageous speech and actions in the two decades before independence in 1947 Reading across imperial and nationalist archives newspapers memoirs oral histories and interviews Stephen Legg exposes subaltern geographies and struggles across both the new and old cities which have traditionally been neglected in favor of the elite spaces of New Delhi Presenting the dual cities as one interconnected political landscape Legg studies Indian National Congress efforts to mobilize and marshal support between the mass movements of Civil Disobedience 1930 34 and Quit India 1942 43 The book s six chapters compare the two movements in terms of their public spaces of nonviolent anticolonialism their problematization by violence and their legacies This bottom up analysis focused on the streets bazaars neighborhoods homes and undergrounds of the two cities foregrounds the significance of physical and political space it highlights the pioneering role of women in crafting these spaces and it exposes the microtechniques that Congress used to encourage Gandhi s nonviolence and to tolerate its testing in the face of the rising popularity of the radical left Legg s rereading of Michel Foucault s final lectures on parrhesia produces a bold new approach to questions of postcolonialism resistance and South Asian governmentalities This allows anticolonialism to be read not as an outside but as a coherent and bottom up project of self transformation and space making that was elite coordinated but whose sovereignty lay with a disobedient and not always nonviolent public This book provides an innovative and restive historical geography of spaces of anticolonialism in the capital of contemporary India s 1 4 billion people *Realism and Revolution* Sandy Petrey,2018-10-18 Sandy Petrey here looks at the emergence of nineteenth century French realism in the light of the concept of speech acts as defined by J L Austin and as exemplified by the history of the French Revolution Through analysis of the techniques of representation in works by Balzac Stendhal and Zola Petrey suggests that the expression of a truth depends on the same collective forces necessary to change a regime According to Petrey political legitimacy in the Revolution the Empire and the Restoration was established by means of a series of demonstrations that what words say cannot be interpreted without reference to the community to which they speak Petrey first discusses the creation of France s National Assembly in 1789 as a foundational example of how speech acts can bring about historical transformation He then challenges the most powerful twentieth century assault on realist aesthetics Roland Barthes s S Z and also considers the views of such contemporary critics as Jacques Derrida Barbara Johnson and Stanley Fish During the Revolution Petrey says statements of truth were not descriptions of what was but rather exhortations to produce what was not Nineteenth century French fiction represents in

literary form a similar collectively authorized linguistic performance the real in realism comes from representing facts not as they are in themselves but as they are produced and rejected in society In the course of illuminating readings of three central realist works Balzac's *Pere Goriot* Stendhal's *The Red and the Black* and Zola's *Germinal* Petrey takes the position that the dilemmas of representation far from being one of realism's blind spots figure among its major narrative subjects

From the 1930s to the 1960s the Popular Front produced a significant era in African American literary radicalism While scholars have long associated the black radicalism of the Popular Front with the literary Left and the working class Christin Marie Taylor considers how black radicalism influenced southern fiction about black workers offering a new view of work and labor At the height of the New Deal era and its legacies Taylor examines how southern literature of the Popular Front not only addressed the familiar stakes of race and labor but also called upon an imagined black folk to explore questions of feeling and desire By poring over tropes of black workers across genres of southern literature in the works of George Wylie Henderson William Attaway Eudora Welty and Sarah Elizabeth Wright Taylor reveals the broad reach of black radicalism into experiments with portraying human feelings These writers grounded interrelationships and stoked emotions to present the social issues of their times in deeply human terms Taylor emphasizes the multidimensional use of the sensual and the sexual which many protest writers of the period such as Richard Wright avoided She suggests Henderson and company used feeling to touch readers while also questioning and reimagining the political contexts and apparent victories of their times Taylor shows how these fictions adopted the aesthetics and politics of feeling as a response to New Deal era policy reforms both in their successes and their failures In effect these writers some who are not considered a part of an African American protest tradition illuminated an alternative form of protest through poignant paradigms
